

# VMware 2V0-13.25 Latest Test Preparation | 2V0-13.25 Test Vce

BONUS!!! Download part of PassTestking 2V0-13.25 dumps for free: [https://drive.google.com/open?id=1pq-IPV7J3nhD-PklyBh27dG8-TCHi\\_SW](https://drive.google.com/open?id=1pq-IPV7J3nhD-PklyBh27dG8-TCHi_SW)

If you are busy with your study or work and have little time to prepare for your exam, choose us, we will do the rest for you. 2V0-13.25 exam bootcamp are edited and verified by professional experts, therefore the quality and accuracy can be guaranteed. You just need to spend about 48 to 72 hours on practicing, and you can pass the exam in your first attempt by using 2V0-13.25 Exam Braindumps of us. We offer you free demo to have a try before buying. Online and offline chat service are available, and if you have any questions about 2V0-13.25 exam bootcamp, you can have a conversation with us.

If you choose to use the software version of our 2V0-13.25 study guide, you will find that you can download our 2V0-13.25 exam prep on more than one computer and you can practice our 2V0-13.25 exam questions offline as well. We strongly believe that the software version of our 2V0-13.25 Study Materials will be of great importance for you to prepare for the exam and all of the employees in our company wish you early success!

## Free PDF Quiz VMware - 2V0-13.25 - VMware Cloud Foundation 9.0 Architect Latest Test Preparation

You can learn 2V0-13.25 quiz torrent skills and theory at your own pace, and you are not necessary to waste your time on some useless books or materials and you will save more time and energy that you can complete other thing. We also provide every candidate who wants to get certification with free Demo to check our materials. It is time for you to realize the importance of our 2V0-13.25 Test Prep, which can help you solve these annoyance and obtain a 2V0-13.25 certificate in a more efficient and productive way.

## VMware Cloud Foundation 9.0 Architect Sample Questions (Q24-Q29):

### NEW QUESTION # 24

The following are a set of design decisions related to networking:

DD01: Set NSX Distributed Firewall (DFW) to block all traffic by default.  
DD02: Use VLANs to separate physical network functions.  
DD03: Connect the management interface eth0 of each NSX Edge node to VLAN 100.  
DD04: Deploy 2x 64-port Cisco Nexus 9300 switches for top-of-rack ESXi host connectivity.  
Which design decision would an architect include in the logical design?

- A. DD03
- B. DD01
- C. DD02
- D. DD04

**Answer: C**

Explanation:

In VMware Cloud Foundation (VCF) 5.2, the logical design outlines high-level architectural decisions that define the system's structure and behavior, distinct from physical or operational details, as per the VCF 5.2 Design Guide. Networking decisions in the logical design focus on connectivity frameworks, security policies, and scalability.

Let's evaluate each:

Option A: DD04 - Deploy 2x 64-port Cisco Nexus 9300 switches for top-of-rack ESXi host connectivity This specifies physical hardware (switch model, port count), which belongs in the physical design (e.g., BOM, rack layout). The VCF 5.2 Architectural Guide classifies hardware selections as physical, not logical, unless they dictate architecture, which isn't the case here.

Option B: DD01 - Set NSX Distributed Firewall (DFW) to block all traffic by default This is a specific security policy within NSX DFW, defining traffic behavior. While critical, it's an implementation detail (e.g., rule configuration), not a high-level logical design decision. The VCF 5.2 Networking Guide places DFW rules in detailed design, not the logical overview.

Option C: DD03 - Connect the management interface eth0 of each NSX Edge node to VLAN 100 This details a specific interface-to-VLAN mapping, an operational or physical configuration. The VCF 5.2 Networking Guide treats such specifics as implementation-level decisions, not logical design elements.

Option D: DD02 - Use VLANs to separate physical network functions

Using VLANs to segment network functions (e.g., management, vMotion, vSAN) is a foundational networking architecture decision in VCF. It defines the logical separation of traffic types, enhancing security and scalability. The VCF 5.2 Architectural Guide includes VLAN segmentation as a core logical design component, aligning with standard VCF networking practices.

Conclusion:

Option D (DD02) is included in the logical design, as it defines the architectural approach to network segmentation, a key logical networking decision in VCF 5.2.

Reference: VMware Cloud Foundation 5.2 Architectural Guide (docs.vmware.com): Logical Design and Network Segmentation.

VMware Cloud Foundation 5.2 Networking Guide (docs.vmware.com): VLAN Usage in VCF.

VMware Cloud Foundation 5.2 Design Guide (docs.vmware.com): Logical vs. Physical Design.

## NEW QUESTION # 25

How can you troubleshoot slow VMware network performance with Broadcom 25GbE Ethernet adapters?

- A. Replace the Ethernet adapter
- B. Ensure Jumbo Frames are enabled
- C. Check network switch firmware
- D. Verify network interface driver updates

**Answer: B,C,D**

Explanation:

Driver updates, enabling Jumbo Frames, and ensuring up-to-date switch firmware can resolve network performance issues.

## NEW QUESTION # 26

Which Broadcom solutions are needed for scaling storage in VMware environments?

- A. Broadcom RAID Controller
- B. Broadcom NVMe SSD
- C. Broadcom 25GbE Ethernet Adapter
- D. vSAN

**Answer: A,D**

Explanation:

vSAN and Broadcom RAID Controllers are necessary for scaling storage in VMware environments.

#### **NEW QUESTION # 27**

When designing a disaster recovery solution in VMware with Broadcom hardware, which tools and components should be prioritized?

- A. 25GbE Ethernet Adapter
- B. Broadcom RAID Controller
- C. vSphere Replication
- D. vSAN

**Answer: C,D**

Explanation:

vSphere Replication and vSAN are critical for building a disaster recovery solution in VMware with Broadcom hardware.

#### **NEW QUESTION # 28**

When sizing a VMware Cloud Foundation VI Workload Domain, which three factors should be considered when calculating usable compute capacity? (Choose three.)

- A. vSphere HA
- B. Storage DRS
- C. Core Dumps
- D. NSX
- E. NIOC
- F. vSAN

**Answer: A,E,F**

Explanation:

When sizing a VMware Cloud Foundation (VCF) VI Workload Domain, calculating usable compute capacity involves determining the resources available for workloads after accounting for overheads and system-level requirements. In VCF 5.2, a VI Workload Domain integrates vSphere, vSAN, and NSX, and certain factors directly impact the compute capacity available to virtual machines. Based on the official VMware Cloud Foundation 5.2 documentation, the three key factors to consider are vSphere HA, vSAN, and NIOC.

#### **NEW QUESTION # 29**

.....

Now we live in a highly competitive world. If you want to find a decent job and earn a high salary you must own excellent competences and rich knowledge. Under this circumstance, owning a 2V0-13.25 guide torrent is very important because it means you master good competences in certain areas and can handle the job well. The 2V0-13.25 exam prep we provide can help you realize your dream to pass exam and then own a 2V0-13.25 exam torrent. PassTestking provide high pass rate materials that are compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value. Please firstly try out our 2V0-13.25 Exam Materials demo before you decide to buy our product. It is worthy for you to buy our 2V0-13.25 exam preparation not only because it can help you pass the exam successfully but also because it saves your time and energy.

**2V0-13.25 Test Vce:** <https://www.passtestking.com/VMware/2V0-13.25-practice-exam-dumps.html>

Besides, our colleagues always keep the updating of 2V0-13.25 test dumps to ensure the accuracy of questions and answers, The recent VMware 2V0-13.25 Real Questions are available in both PDF and software form, You may doubt that how can our 2V0-13.25 exam questions be so popular and be trusted by the customers all over the world, And the pass rate of our 2V0-13.25 learning braindumps is high as 98% to 100%, this data is also proved that our excellent quality.
