Certification Path

The EC-council Certified Disaster Recovery Professional certification includes only one 312-76 Certification Exam.

EC-COUNCIL EC-Council Disaster Recovery Professional (EDRP) Sample Questions (Q208-Q213):

NEW QUESTION # 208

Katie was setting up disaster recovery teams in her organization to combat any disaster that occurred. One of the most important teams was the disaster recovery coordinator. Having two names in mind for the post, Katie interviewed the two people for the roles and responsibilities of the disaster recovery coordinator. Which of the following statements should either of the interviewees use to get the post?

- **A. Day-to-day management control over the execution and maintenance of the disaster recovery program**
- B. Responsible for the specification and design of all technology-based disaster recovery solutions
- C. Responsible for disaster recovery planning verification and compliance
- D. Executive authority over the disaster recovery program

Answer: A

Explanation:

The Disaster Recovery Coordinator manages the daily execution and maintenance of the DR program, making option B the most accurate responsibility. It reflects operational oversight, a core coordinator role.

* Option A: More aligned with an auditor or compliance role.

* Option C: Technical design, typically a technology team task.

* Option D: Executive authority belongs to higher management, not the coordinator.

* "The Disaster Recovery Coordinator handles day-to-day management, execution, and maintenance of the DR program, ensuring operational readiness" (Module: Disaster Recovery Teams, Section: Coordinator Roles).

NEW QUESTION # 209

Joseph is a merchant. He lives in an area that is prone to natural disasters. What will he do to save his data from a disaster?

- A. Restore the data.
- B. E-mail the data.
- **C. Backup the data.**
- D. Print the data.

Answer: C

NEW QUESTION # 210

Jonah recently adopted a method to back up his data to an external hard disk. He noticed that his laptop was creating a new backup daily, and each backup was taking up more storage space than the previous one. Which type of backup is Jonah's computer creating daily?

- **A. Differential Backup**
- B. Incremental Backup
- C. Full System Backup
- D. Online Data Backup

Answer: A

Explanation:

A Differential Backup copies all data changed since the last full backup, growing larger each time as more changes accumulate, matching Jonah's observation of increasing storage use.

* Option B (Online Data Backup): A delivery method, not a type.

* Option C (Incremental Backup): Only backs up changes since the last backup, not growing as much.

* Option D (Full System Backup): Copies everything, consistently large, not incremental growth.

* "Differential Backups expand daily by capturing all changes since the last full backup, increasing storage needs with each run" (Module: Data Backup and Recovery, Section: Backup Types).

NEW QUESTION # 211

Which of the following is not an objective of business impact analysis?

- **A. Assess the Impact Caused by a Threat**
- B. Establish the Recovery Order of the Critical Business Functions
- C. Identify RTO and RPO for Each Process
- D. Identify the Critical Resources Required by the Business

Answer: A

Explanation:

Business Impact Analysis (BIA) identifies critical resources, recovery order, and RTO/RPO, but assessing threat impact is part of risk assessment, not BIA's primary objective.

* Option B/C/D: Core BIA goals.

* "BIA focuses on resource identification, recovery prioritization, and RTO/RPO, not direct threat impact assessment, which precedes it" (Module: Business Impact Analysis, Section: BIA Objectives).

NEW QUESTION # 212

Which of the following terms refers to a holistic management process that identifies potential threats to an organization and its impacts on business operations? It further provides a framework for building organizational resilience with the capability for an effective response that safeguards the interests of its key stakeholders, reputation, brand, and value-creating activities?

- A. Risk Management
- B. Disaster Recovery
- C. Business Impact Analysis
- **D. Business Continuity Management**

Answer: D

Explanation:

Business Continuity Management (BCM) is a comprehensive process that identifies threats, assesses their impacts, and builds resilience through planning and response strategies. It encompasses the entire lifecycle of continuity, protecting stakeholders, reputation, and value, as described.

* Option A (BIA): A component of BCM, focusing only on impact assessment.

* Option B (Risk Management): Identifies and mitigates risks but lacks BCM's broad continuity focus.

* Option D (Disaster Recovery): Focuses on IT recovery, narrower than BCM.

* "Business Continuity Management (BCM) is a holistic approach to identify threats, assess impacts, and ensure resilience and response to protect organizational value and stakeholders" (Module: Business Continuity Management, Section: BCM Overview).
