SAFe-Agilist Reliable Real Test & SAFe-Agilist Test Assessment

Our products boost 3 versions and varied functions. The 3 versions include the PDF version, PC version, APP online version. You can use the version you like and which suits you most to learn our SAFe-Agilist study materials. The 3 versions support different

equipment and using method and boost their own merits and functions. For example, the PC version supports the computers with Window system and can stimulate the real exam. Our products also boost multiple functions which including the self-learning, self-evaluation, statistics report, timing and stimulation functions. Each function provides their own benefits to help the clients learn the SAFe-Agilist Study Materials efficiently. For instance, the self-learning and self-evaluation functions can help the clients check their results of learning the SAFe-Agilist study materials.

Scaled Agile SAFe 6 Agilist - Leading SAFe (SA) (6.0) Sample Questions (Q30-Q35):

NEW QUESTION # 30
How does SAFe describe Customer Centricity?

- A. As a mindset focused on Customer behaviors that produce the best innovations
- B. As a set of practices employed to make products focused on the Customer
- C. As a strategy to meet the needs of an ever-changing Customer market
- D. As a way of working to include the Customer in daily work processes and planning

Answer: A

NEW QUESTION # 31
What is the focus of Lean Thinking?

- A. Ensuring respect for people and culture
- B. Moving to an iterative development process
- C. Implementing objective measures of progress
- D. Reducing delays

Answer: D

Explanation:
Reducing delays is the focus of Lean thinking. Lean thinking is a philosophy and a set of principles and practices that aim to eliminate waste and optimize value delivery. Waste is anything that does not directly contribute to customer value or that causes delays in delivering value. Delays are the primary cause of waste, as they increase inventory, risk, variability, overhead, and dissatisfaction. Reducing delays means minimizing the time between customer need and value delivery, which improves quality, efficiency, and customer satisfaction. NEW QUESTION # 32
Which of the following is one of the core values listed in the Agile Manifesto?

- A. Customer collaboration over following a plan
- B. Apply systems thinking
- C. Individuals and interactions over processes and tools
- D. Customer collaboration over a constant indefinite pace

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
The Agile Manifesto lists four core values:
* Individuals and interactions over processes and tools
* Working software over comprehensive documentation
* Customer collaboration over contract negotiation
* Responding to change over following a plan
Option C is a direct verbatim value from the Agile Manifesto.
(Source: Agile Manifesto)

NEW QUESTION # 33

Which core competency of the Lean Enterprise helps drive Built-in Quality practices?

- A. Business Solutions and Lean Systems Engineering
- B. Team and Technical Agility
- C. Lean Portfolio Management
- D. DevOps and Release on Demand

Answer: B

NEW QUESTION # 34
Which SAFe Lean-Agile Principle includes the critical part of "delaying decisions to the last responsible moment"?

- A. Assume variability; preserve options
- B. Make value flow without interruptions
- C. Build incrementally with fast, integrated learning cycles
- D. Base milestones on objective evaluation of working systems

Answer: A

Explanation:
The SAFe Lean-Agile Principle that includes the critical part of "delaying decisions to the last responsible moment" is "Assume variability; preserve options". This principle is based on the concept of set-based design, which is a way of managing uncertainty and complexity in product development. Set-based design means exploring multiple possible solutions in parallel, eliminating inferior options over time, and converging on the best solution as more information becomes available. Delaying decisions to the last responsible moment means keeping multiple options open until enough data and feedback are gathered to make an informed decision, which reduces risk and waste.
