Valid Dumps 156-536 Sheet & 156-536 Latest Material

Our 156-536 study materials are excellent examination review products composed by senior industry experts that focuses on researching the mock examination products which simulate the real 156-536 test environment. Experts fully considered the differences in learning methods and examination models between different majors and eventually formed a complete review system. It will help you to Pass 156-536 Exam successfully after a series of exercises, correction of errors, and self-improvement.

CheckPoint 156-536 Exam Syllabus Topics:

Topic	Details
Topic 1	• Troubleshooting: In this final section, CheckPoint Security Administrators will demonstrate their troubleshooting skills related to Harmony Endpoint. This involves identifying and resolving issues that may arise during deployment or operation of the endpoint security solution.
Topic 2	• Introduction to Harmony Endpoint: This section measures the skills of CheckPoint Security Administrators about the fundamental concepts of Harmony Endpoint. It introduces candidates to the capabilities of the Harmony Endpoint solution, which is designed to protect endpoint devices from various cyber threats.
Topic 3	• Advanced Threat Prevention: CheckPoint Security Administrators will be assessed in this area, which covers advanced techniques for preventing sophisticated threats. This includes leveraging threat intelligence and proactive measures to safeguard endpoints from emerging cyber risks.
Topic 4	• Harmony Endpoint Management as a Service: This section targets Harmony Endpoint Security Professionals, focusing on managing endpoint security as a service. It covers the cloud-based management capabilities of Harmony Endpoint, allowing for scalable deployment and policy management.

Topic 5	• Harmony Endpoint Security Management: This section focuses on the skills of Harmony Endpoint Security Professionals and covers the management aspects of Harmony Endpoint Security. It emphasizes how to effectively configure and manage security policies across endpoint devices.

CheckPoint Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) Sample Questions (Q85-Q90):

NEW QUESTION # 85
You must make a decision of which FDE algorithm to be used by one of your clients who specializes in multimedia video editing. What algorithm will you choose?

- A. The implementation of a Secure VPN with very strong encryption will make your data invisible in cases of live internet transmission.
- B. Video processing is a high bandwidth application which utilizes a lot of HDD access time. You have to use a FDE algorithm with small secret key like XTS-AES 128 bit.
- C. Any kind of data is very important and the Full Disk Encryption technique must be used with the strongest secret key possible. Your client has to use strong encryption like XTS-AES 256 bit.
- D. In multimedia applications you do not need to implement any kind of Full Disk Encryption. You can use software like 7Zip in order to encrypt your data.

Answer: C

NEW QUESTION # 86
What does the Check Point Support Center as your one-stop portal offer?

- A. Technical Certification
- B. Offloads
- C. UserMates offline discussion boards
- D. SecureKnowledge technical database

Answer: D

NEW QUESTION # 87
What does FDE software combine to authorize access to data on desktop computers and laptops?

- A. Decryption
- B. OS boot protection with pre-boot authentication and encryption
- C. Post-logon authentication and encryption
- D. OS boot protection and post-boot authentication

Answer: B

NEW QUESTION # 88
What is the default Agent Uninstall Password, which protects the client from unauthorized removal?

- A. RemoveMe
- B. Chkp1234
- C. secret
- D. Secret

Answer: C

Explanation:
The default Agent Uninstall Password in Harmony Endpoint is a security feature that prevents unauthorized removal of the endpoint agent. Based on common practices in security software, the default password is often a simple, lowercase string that administrators

are prompted to change after installation. In this case, the default password is "secret". This is a widely recognized default value in many systems, intended to be straightforward yet requiring replacement for enhanced security.
Option A, "Secret", is incorrect due to its capitalization, as defaults are typically case-sensitive and lowercase.
Option B, "Chkp1234", could be plausible but is not a standard default for Check Point products in this context. Option D, "RemoveMe", is intuitive but not a commonly used default. Therefore, the correct answer is C. secret.

NEW QUESTION # 89

To enforce the FDE policy, the following requirement must be met?

- A. The client must obtain an FDE certificate
- B. The client must obtain an FDE machine-based policy
- C. A recovery file must be encrypted
- D. Deployments must consist of at least one post-boot user

Answer: D

NEW QUESTION # 90

......

As the saying goes, to develop study interest requires to giving learner a good key for study, this is promoting learner active development of internal factors. The most function of our 156-536 question torrent is to help our customers develop a good study habits, cultivate interest in learning and make them pass their exam easily and get their 156-536 Certification. All workers of our company are working together, in order to produce a high-quality product for candidates. I believe that our 156-536 exam torrent will be very useful for your future.
