### SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q25-Q30):

#### NEW QUESTION # 25

What roles do SAP Business Transformation Management solutions play in transformation scenarios?  
(Note: There are 2 correct answers to this question.)

- A. They analyze as-is processes and IT landscapes only.
- B. They are limited to the operate phase of transformations.
- C. They support change management.
- D. They provide a data-driven approach for Enterprise Observability.

**Answer: C,D**

Explanation:

SAP Business Transformation Management (BTM) Solutions are designed to guide organizations through the complete transformation lifecycle, from strategy and planning to implementation and adoption. They combine process analysis, enterprise architecture management, and user adoption capabilities through solutions such as SAP Signavio, SAP LeanIX, and WalkMe. "SAP's Business Transformation Management Solutions deliver an integrated, data-driven foundation that provides visibility, transparency, and governance across all phases of business transformation while supporting organizational change management."

Reference:

Supporting Change Management (Answer B):

A core objective of SAP BTM solutions is to enable and sustain change across people, processes, and technology. Through SAP Signavio's collaborative design tools and WalkMe's adoption capabilities, organizations can manage stakeholder engagement, communication, and behavior alignment effectively.

"BTM Solutions provide tools to manage the human side of transformation, ensuring that employees adapt successfully to new

processes and technologies." Providing a Data-Driven Approach for Enterprise Observability (Answer C):  
BTM Solutions deliver data-based visibility into business and IT landscapes through SAP LeanIX and SAP Signavio integration. This allows organizations to observe and measure transformation progress, dependencies, and business value using live data. "SAP BTM Solutions integrate business process intelligence with enterprise architecture management, providing a data-driven approach to enterprise observability for informed transformation decisions." Why Other Options Are Incorrect:  
A: Incorrect - BTM Solutions are not limited to the operate phase; they span discover, design, deliver, and run phases of transformation.  
D: Incorrect - They analyze both as-is and to-be states to enable continuous improvement and future-state optimization. Therefore, the verified and correct answers according to SAP BTM documentation are:  
B: They support change management.  
C: They provide a data-driven approach for Enterprise Observability.

#### NEW QUESTION # 26

What makes SAP Signavio and SAP LeanIX a powerful combination?

(Note: There are 2 correct answers to this question.)

- A. Both solutions focus on transforming businesses from a current state to a future state.
- B. They help our customers understand the important aspects of a transformation: processes, people, systems, and applications.
- C. We can help our customers lay off 20 to 30 percent of their workforce and therefore reduce costs tremendously.
- D. We can reduce the time for financial reporting by 70% on average.

**Answer: A,B**

#### NEW QUESTION # 27

How does SAP Signavio Process Manager help with business transformations?

- A. By eliminating the need for human oversight in process execution.
- B. By generating automated financial reports for management.
- C. By replacing existing ERP systems with a new workflow engine.
- D. By allowing organizations to model processes.

**Answer: D**

Explanation:

SAP Signavio Process Manager is the core process modeling and design component of the SAP Signavio Business Transformation Suite. It allows organizations to visualize, document, and optimize processes as part of transformation initiatives.

"SAP Signavio Process Manager enables organizations to model, analyze, and document business processes in a collaborative environment to support transformation and continuous improvement." Reference:

Through its BPMN 2.0-based process modeling, businesses can capture current (as-is) processes, simulate new (to-be) designs, and align stakeholders for change management.

"Organizations use Process Manager to design and optimize processes before implementation in ERP systems, ensuring standardization and efficiency." Incorrect Options:

A: It does not remove human oversight; it supports collaboration and governance.

C: It does not replace ERP systems but complements them by providing modeling and process documentation.

D: Financial reporting is handled by ERP systems, not Signavio.

Verified Correct answer: B: By allowing organizations to model processes.

#### NEW QUESTION # 28

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. SAP Commerce Cloud
- B. SAP Signavio Journey Modeler
- C. Enterprise Architecture Management
- D. Technology Risk and Compliance

**Answer: C,D**

Explanation:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.

"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:

Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

#### NEW QUESTION # 29

What primary issue does WalkMe's solution aim to solve for customers?

- A. High employee turnover rates
- B. Difficulty in maintaining accurate financial records
- **C. Challenges in adopting and effectively using digital tools**
- D. Need for upgrading physical infrastructure in organizations

**Answer: C**

Explanation:

The WalkMe Digital Adoption Platform (DAP), which is integrated into SAP's Business Transformation Management (BTM) solutions, primarily addresses the challenge of digital adoption - helping users effectively utilize enterprise software and workflows.

"WalkMe is designed to eliminate user friction with digital systems by providing contextual, in-application guidance and automation that accelerates digital adoption." Reference:

The main problem WalkMe solves is difficulty in adopting and effectively using digital tools, which directly impacts productivity, process efficiency, and transformation success.

"Organizations struggle with the complexity of modern applications; WalkMe's solution enables users to navigate and complete digital processes successfully without training dependency." Options B, C, and D do not represent the platform's focus:

WalkMe is not an HR solution to reduce turnover (B).

It does not manage physical infrastructure (C).

It does not handle financial record accuracy (D).

The central goal, as reinforced in SAP BTM documentation, is to bridge the gap between technology implementation and effective user adoption - making A the correct and verified answer.

#### NEW QUESTION # 30

.....

The development of science and technology makes our life more comfortable and convenient, which also brings us more challenges. Many company requests candidates not only have work experiences, but also some professional certifications. Therefore it is necessary to get a professional C-BCBTM-2509 Certification to pave the way for a better future.
