Question 300-430 Explanations - New 300-430 Test Objectives

QUESTION 1

An engineer configured a Cisco AireOS controller with two TACACS+ servers. The engineer notices that when the primary TACACS+ server fails, the WLC starts using the secondary server as expected, but the WLC does not use the primary

server again until the secondary server fails or the controller is rebooted.

Which cause of this issue is true?

A. Fallback is enabled

B. Fallback is disabled

C. DNS query is disabled

D. DNS query is enabled

Correct Answer: B

If Fallback Mc **Clearer pictures and no water-mask in the Full Product** nd A will be a backup server.

QUESTION 2

A corporation is spread across different countries and uses MPLS to connect the offices. The senior management wants to utilize the wireless network for all the employees. To ensure strong connectivity and minimize delays, an engineer needs to control the amount of traffic that is traversing between the APs and the central WLC.

Which configuration should be used to accomplish this goal?

A. FlexConnect mode with OfficeExtend enabled

B. FlexConnect mode with local authentication

C. FlexConnect mode with central switching enabled

D. FlexConnect mode with central authentication

Correct Answer: A

A Cisco OfficeExtend access point (Cisco OEAP) provides secure communications from a Cisco WLC to a Cisco AP at a remote location, seamlessly extending the corporate WLAN over the Internet to an employee\\'s residence. The user\\'s experience at the home office is exactly the same as it would be at the corporate office. Datagram Transport Layer Security (DTLS) encryption between the access point and the controller ensures that all communications have the highest level of security.Cisco OEAPs are designed to work behind a router or other gateway device that is using network address translation (NAT). NAT allows a device, such as a router, to act as an agent between the Internet (public) and a personal network (private), enabling an entire group of computers to be represented by a single IP address. There is no limit to the number of Cisco OEAPs that you can deploy behind a NAT device.

What's more, part of that ExamDiscuss 300-430 dumps now are free: https://drive.google.com/open?id=1YVA6uYT98OzkhpvH9tkzSO7kdM55GC-l

ExamDiscuss is one of the leading platforms that has been helping Cisco 300-430 Exam Questions candidates for many years. Over this long time, period the Implementing Cisco Enterprise Wireless Networks (300-430) exam dumps helped countless Implementing Cisco Enterprise Wireless Networks (300-430) exam questions candidates and they easily cracked their dream Cisco 300-430 Certification Exam. You can also trust Implementing Cisco Enterprise Wireless Networks (300-430) exam dumps and start Implementing Cisco Enterprise Wireless Networks (300-430) exam preparation today.

The 300-430 exam solutions is in use by a lot of customers currently and they are preparing for their best future on daily basis. Even the students who used it in the past for the preparation of 300-430 certification exam have rated our product as one of the best. Candidates of the 300-430 exam receive updates till 1 year after their purchase and there is a 24/7 available support system for them that assist them whenever they are stuck in any problem or issues. This product is a complete package and a blessing for people who want to pass the 300-430 Exam on the first attempt. Try a free demo if you are interested in the checking features of the product.

New Cisco 300-430 Test Objectives | New 300-430 Exam Cram

We are aimed to develop a long-lasting and reliable relationship with our customers who are willing to purchase our 300-430 study materials. To enhance the cooperation built on mutual-trust, we will renovate and update our system for free so that our customers can keep on practicing our 300-430 study materials without any extra fee. Meanwhile, to ensure that our customers have greater chance to pass the exam, we will make our 300-430 test training keeps pace with the digitized world that change with each passing day. In this way, our endeavor will facilitate your learning as you can gain the newest information on a daily basis and keep being informed of any changes in 300-430 test. Therefore, our customers can save their limited time and energy to stay focused on their study as we are in charge of the updating of our 300-430 test training. It is our privilege and responsibility to render a good service to our honorable customers.

Cisco Implementing Cisco Enterprise Wireless Networks Sample Questions (Q324-Q329):

NEW QUESTION # 324
A company wants to switch to BYOD to reduce IT support costs for the company. Which option is an impact of BYOD should be considered?

- A. restricted device enforcement
- B. increased VPN connections
- C. increased phishing attacks
- D. decreased support calls

Answer: C

Explanation:
The impact of BYOD that should be considered is the potential for increased phishing attacks.
BYOD can lead to a greater variety of devices accessing the network, which may not all have the same level of security. This can increase the risk of phishing attacks as attackers may target personal devices that are used to access corporate resources, which might not be as secure as company-owned devices.

NEW QUESTION # 325
A shopping center uses AireOS controllers with Cisco Wave 2 APs. A separate WLAN named Guest-012345678-WLAN is used for guest wireless clients. Management need's location analytics to determine popular areas. CMX must track only associated clients. What must be selected on the CMX server settings?

- A. Exclude probing clients
- B. Enable Locally Administered MAC Filtering
- C. Enable Location MAC Filtering
- D. Duty Cycle Cutoff

Answer: A

NEW QUESTION # 326
Refer to the exhibit.
The image shows a packet capture that was taken at the CLI of the Cisco CMX server. It shows UDP traffic from the WLC coming into the server. What does the capture prove?

- A. The Cisco CMX server receives SNMP traffic from the WL
- B. The Cisco CMX server receives NetFlow data from the WLC.
- C. The Cisco CMX server receives Angle-of-Arrival data from the WL
- D. The Cisco CMX server receives NMSP traffic from the WLC.

Answer: C

Explanation:
https://www.cisco.com/c/en/us/support/docs/wireless/connected-mobile-experiences/200907-configuring-and-troubleshooting-hyperloc.html

NEW QUESTION # 327
Refer to the exhibit.
□
A customer has implemented Cisco FlexConnect deployments with different WLANs around the global and is opening a new branch in a different location. The engineers' task is to execute all the wireless configuration and to suggest how to configure the switch ports for new Aps. Which configuration must the switching team use on the switch ports?

- A. Access mode
- B. Multiple VLAN
- C. Single mode
- D. Trunk mode

Answer: D

NEW QUESTION # 328
Which three properties are used for client profiling of wireless clients? (Choose three.)

- A. MAC OUI
- B. hostname
- C. OS version
- D. IP address
- E. DHCP
- F. HTTP user agent

Answer: A,E,F

Explanation:
□

NEW QUESTION # 329
......

By doing this you can stay competitive and updated in the market. There are other several Implementing Cisco Enterprise Wireless Networks (300-430) certification exam benefits that you can gain after passing the Implementing Cisco Enterprise Wireless Networks (300-430) exam. Are you ready to add the 300-430 certification to your resume? Looking for the proven, easiest and quick way to pass the 300-430 Exam? If you are then you do not need to go anywhere. Just download the 300-430 Questions and start Implementing Cisco Enterprise Wireless Networks (300-430) exam preparation today.
