PRINCE2 7 Foundation written Exam Sample Questions (Q237-Q242):

NEW QUESTION # 237
The project board needs to confirm that there is enough information to initiate the project.
What should the project board review?

- A. Business case
- B. Project brief
- C. Project plan
- D. Benefits management approach

Answer: B

Explanation:
The Project Board must review the Project Brief to confirm there is enough information to initiate the project.
The Project Brief includes the outline Business Case, the project's objectives, and how the project fits into the organization's objectives. This document is essential for the Project Board to understand what the project is intended to achieve, ensuring alignment with organizational goals and confirming that the project remains viable before moving forward into the initiation stage. NEW QUESTION # 238
Which is an objective of the Closing a Project process?

- A. Assess any benefits that have already been realized
- B. Check that all benefits are realized before closing a project
- C. Produce a Benefits Review Plan to identify what benefits are expected
- D. Prepare the plan for the next stage

Answer: A

NEW QUESTION # 239
Identify the missing word in the following sentence. The risk response type [?] can be used to respond to a threat and an opportunity.

- A. Avoid
- B. Share
- C. Reduce
- D. Transfer

Answer: B

NEW QUESTION # 240
Why does PRINCE2 recommend three different levels of plans?

- A. To provide appropriate detail to each of the different levels of management within the project
- B. As an allowance for initiation, product delivery and project closure
- C. To match the different aspects of the product-based planning technique
- D. To cover initiation, specialist work and exception situations

Answer: A

NEW QUESTION # 241
As part of the 'business case management' technique, how is the business case maintained during the project lifecycle?

- A. By justifying to the project board that the project should be initiated
- B. By linking the outcomes and benefits to the business objectives included in the business case
- C. By updating the business case during each management stage, as actual costs are incurred
- D. By providing a robust justification for the entire project in a detailed business case

Answer: C

Explanation:
Maintaining the business case during the project lifecycle involves regularly updating it to reflect changes and actual experiences such as incurred costs. This ensures that the project remains viable and aligned with business objectives, as part of the continual justification process. The business case is dynamically managed to reflect any changes in the project's environment and is a fundamental part of the 'business case theme' in PRINCE2.References: PRINCE2 7 Foundation source documents on business case management.
