1/8

P.S. Free 2026 VMware 2V0-13.25 dumps are available on Google Drive shared by PDFDumps: https://drive.google.com/open?id=1xY4KL9o745xqheEwO6QQ_S_cG0sU4iGE

As the saying goes, time is the most precious wealth of all wealth. If you abandon the time, the time also abandons you. So it is also vital that we should try our best to save our time, including spend less time on preparing for exam. Our 2V0-13.25 guide torrent will be the best choice for you to save your time. The three different versions have different functions. If you decide to buy our 2V0-13.25 Test Guide, the online workers of our company will introduce the different function to you. You will have a deep understanding of the three versions of our 2V0-13.25 exam questions. We believe that you will like our products.

VMware 2V0-13.25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Install, Configure, Administrate the VMware Solution: This section of the exam is relevant to System Administrators. Although it has no directly testable objectives, it underlines the expectation that candidates are familiar with installation, configuration, and administration tasks that form the foundation for VMware Cloud Foundation solutions.

Topic 2	<ul style="list-style-type: none"> VMware Products and Solutions: This section of the exam evaluates the knowledge of VMware Solution Specialists and focuses on VMware Cloud Foundation (VCF). Candidates must be able to identify and differentiate between various VCF architecture options in given scenarios. The emphasis is on understanding the key products and how they integrate into enterprise design choices.
Topic 3	<ul style="list-style-type: none"> Plan and Design the VMware Solution: This section measures the skills of Cloud Infrastructure Designers. It focuses on gathering and analyzing business requirements and then transforming them into conceptual, logical, and physical models of VMware Cloud Foundation. Candidates are expected to identify prerequisites and make design decisions across fleet topologies, networking, management domains, workload domains, automation, and operations. The section also includes designing for availability within and across zones, creating strategies for manageability such as lifecycle, scalability, and capacity, and ensuring performance and recoverability through BCDR strategies. Additional emphasis is given to designing secure environments, workload migration strategies, and creating consumption, automation, and monitoring strategies to support modern applications and governance.
Topic 4	<ul style="list-style-type: none"> IT Architectures, Technologies, Standards: This section of the exam measures the skills of IT Architects and covers the ability to distinguish business requirements from technical ones. It expects candidates to understand the differences between conceptual, logical, and physical designs while also differentiating requirements, assumptions, constraints, and risks. Core concepts of availability, manageability, performance, recoverability, and security (AMPRS) are tested. Learners also need to document risk mitigation strategies, design decisions, and create a validation strategy that ties requirements to practical implementation.
Topic 5	<ul style="list-style-type: none"> Troubleshoot and Optimize the VMware Solution: This section of the exam measures the skills of Operations Engineers. There are no explicitly testable objectives provided in this domain, but candidates are expected to understand troubleshooting and optimization principles to maintain the VMware environment effectively in real-world deployments.

Pass VMware 2V0-13.25 Exam Easily With Questions And Answers PDF

We are living in a good society; everything is changing so fast with the development of technology. So an ambitious person must be able to realize his dreams if he is willing to make efforts. Winners always know the harder they work the luckier they are. Our 2V0-13.25 practice materials are prepared for the diligent people craving for success. Almost all people pursuit a promising career, the reality is not everyone acts quickly and persistently. That is the reason why success belongs to few people.

VMware Cloud Foundation 9.0 Architect Sample Questions (Q55-Q60):

NEW QUESTION # 55

Requirement: The solution must include high security hardening levels to meet military compliance standards.

Which two physical design decisions will meet this security requirement in the workload domain? (Choose two.)

- A. VCF Operations will be configured to renew the SSL certificate for vCenter Server per security policies.
- B. The vSAN storage policy will be configured as Secondary Failures to Tolerate = 1.
- C. The certificate of the VI workload domain vCenter Server will be issued by RootCA.Military.Domain.Com
- D. The advanced setting UserVars.SuppressShellWarning will be configured to 0 across all ESXi hosts.
- E. NTP will be configured to the internal NTP servers of 192.168.12.1 and 192.168.24.1.

Answer: C,D

Explanation:

* D: Setting UserVars.SuppressShellWarning = 0 ensures warnings are shown when shell access is used, improving auditability and compliance.

* E: Using certificates signed by a trusted military Root CA aligns with security compliance standards for certificate trust and chain of custody.

Options A and C are operational best practices, but not military hardening. B is about operations automation, not compliance-level

hardening.

Reference:VMware Cloud Foundation 9.0 Security Hardening Guide.

NEW QUESTION # 56

Which of the following are features of vSphere Distributed Resource Scheduler (DRS)? (Select all that apply.)

- A. Migration of VMs during host maintenance
- B. Data redundancy
- C. Automatic VM placement
- D. Resource optimization

Answer: A,C,D

Explanation:

DRS optimizes and automates resource allocation within a cluster.

NEW QUESTION # 57

An architect gathered the following requirements for a Supervisor image store.

The repository must support:

- * Image scanning
- * Replication
- * Image signing

What component would the architect recommend?

- A. Azure ACR
- B. Harbor
- C. Docker Hub
- D. Gitea

Answer: B

Explanation:

The VMware Cloud Foundation 9.0.2 Design Guide identifies Harbor as the enterprise-grade container registry integrated with vSphere with Tanzu and Supervisor Clusters. It states:

"Harbor provides a cloud-native registry that supports image scanning, replication, and image signing. It is the recommended solution for storing, securing, and distributing container images within VCF environments." Harbor integrates with vSphere Namespaces and supports content trust, vulnerability scanning, and image replication across multiple sites - capabilities not available with Docker Hub or Gitea, and only partially supported in Azure ACR.

Therefore, Harbor is the correct and VMware-recommended component for a Supervisor image store that requires enterprise security and replication capabilities.

References (VMware Cloud Foundation documents):

- * VMware Cloud Foundation 9.0.2 Design and Architecture Guide - "Harbor Image Registry Integration with Supervisor."
- * VMware Cloud Foundation 9.0.1 Tanzu Integration Guide - "Using Harbor as the Image Registry for Supervisor Namespaces."

NEW QUESTION # 58

Which Broadcom solutions are crucial when designing a VMware environment focused on data security?

- A. Broadcom 25GbE Ethernet Adapter
- B. Broadcom RAID Controller
- C. vSAN
- D. vSphere HA

Answer: B,C

Explanation:

Broadcom RAID Controllers and vSAN are essential for ensuring data security in VMware environments.

NEW QUESTION # 59

Which Operating System (OS) is not supported by Aria Operations for OS and Application Monitoring?

- A. Windows Server 2012 R2
- B. Windows Server 2012
- C. MacOS
- D. CentOS

Answer: C

Explanation:

Aria Operations (formerly vRealize Operations) in VCF 5.2 supports OS and application monitoring via agents (e.g., Telegraf) for specific OSes: Windows Server 2012, 2012 R2, and various Linux distributions like CentOS. MacOS (D) is not listed as supported in the official documentation, as it's not a typical enterprise server OS in VCF environments.

Options A, B, and C are explicitly supported for metrics collection, making D the correct exclusion.

Reference: VMware Aria Operations 8.10 Product Documentation, Supported Operating Systems for Monitoring; VMware Cloud Foundation 5.2 Release Notes.

NEW QUESTION # 60

.....

Are you tired of feeling overwhelmed and unsure about how to prepare for the 2V0-13.25 exam? Are you ready to take control of your future and get the 2V0-13.25 certification you need to accelerate your career? If so, it's time to visit PDFDumps and download real 2V0-13.25 Exam Dumps. Our team of experts has designed a VMware Cloud Foundation 9.0 Architect (2V0-13.25) exam study material that has already helped thousands of students just like you achieve their goals. We offer a comprehensive 2V0-13.25 practice exam material that is according to the content of the VMware 2V0-13.25 test.
