- A. All Apex code must have at least 75% test coverage.
- B. All triggers must have at least 1% test coverage.
- C. All test and triggers must have at least 75% test coverage combined
- D. All triggers must have at least 75% test coverage.

정답: A,B

질문 # 79

A developer writes a trigger on the Account object on the before update event that increments a count field. A workflow rule also increments the count field every time that an Account is created or updated. The field update in the workflow rule is configured to not re-evaluate workflow rules.

What is the value of the count field if an Account is inserted with an initial value of zero, assuming no other automation logic is implemented on the Account?

- A. 0
- B. 1
- C. 2
- D. 3
