PRINCE2 P3O Foundation Project Office2013 Exam Sample Questions (Q62-Q67):

NEW QUESTION # 62

Which is a typical information assurance role of a P3O?

- A. Booking for operational staff
- B. Ensuring data security are assessed at the beginning of each project
- C. Providing capacity planning for the portfolio
- D. Escalating issues to senior management

Answer: B

Explanation:

The P3O Foundation (2013) manual identifies ensuring data security assessment at project initiation as a typical information assurance role. Section 7.3.2 states, "The P3O ensures data security and integrity are assessed at the beginning of each project to support reliable decision-making and compliance." This differs from issue escalation (A), capacity planning (B), or staff booking (D), which are operational or resource-related. The 2013 edition emphasizes this role in maintaining high-quality information, a cornerstone of P3O's governance support. This ensures trust and accuracy in data used across change initiatives. Reference: P3O Foundation (2013) manual, Section 7.3.2, AXELOS.

NEW QUESTION # 63

Which describes P3O assurance services?

- A. Carried out by the delivery function
- B. Integrated into the programme being assured
- C. Independent of the programme being assured
- D. Supports Programme Managers in delivery

Answer: C

Explanation:

The P3O Foundation (2013) manual describes P3O assurance services as independent of the programme being assured. Section 7.3.2 states, "P3O assurance services are provided independently of the programme or project being assessed to ensure objective evaluation and compliance with governance standards." This contrasts with integration (B), delivery function involvement (C), or support for Programme Managers (D), which compromise objectivity. The 2013 edition emphasizes this independence to maintain credibility and effectiveness in oversight, supporting strategic alignment and risk management. This ensures unbiased assurance across change initiatives, enhancing organizational trust in P3O processes.

Reference: P3O Foundation (2013) manual, Section 7.3.2, AXELOS.

NEW QUESTION # 64

Which of the following describe the governance responsibilities of a P3O model?

1. Provides the governance and control backbone for an organization's change initiatives
2. Provides a single source for all data relating to the organization's change initiatives
3. Implements rules for decision-making relating to programmes and projects
4. Makes decisions on behalf of the main board

- A. 2,3,4
- B. 1,2,3
- C. 1,2,4
- D. 1,3,4

Answer: B

Explanation:

The P3O Foundation (2013) manual outlines that a P3O's governance responsibilities include providing the backbone for change initiatives, a single data source, and decision-making rules. Section 2.1.2 states, "The P3O model provides the governance and control backbone, a single source of data, and implements rules for decision-making to support portfolios, programmes, and projects." However, it does not make decisions on behalf of the main board (4), which remains a senior management function. The 2013 edition emphasizes P3O's supportive governance role, ensuring alignment and consistency without usurping authority. Options B, C, and D include the incorrect fourth element, making A the accurate choice. This framework enhances organizational change management.

Reference: P3O Foundation (2013) manual, Section 2.1.2, AXELOS.

NEW QUESTION # 65

Which is a benefit of the portfolio prioritization and optimization technique?

- A. Highlights programme issues requiring intervention
- B. Documents repeatable processes enabling increased PPM maturity
- C. Supports senior management investment decisions by aligning programmes to strategy
- D. Provides resource capacity to the portfolio when required

Answer: C

Explanation:

The P3O Foundation (2013) manual identifies that the portfolio prioritization and optimization technique supports senior management investment decisions by aligning programmes with strategy. Section 6.3.1 states,

"This technique supports senior management by prioritizing and optimizing the portfolio to align programmes and projects with strategic objectives, aiding investment decisions." This differs from highlighting issues (A), documenting processes (B), or providing capacity (C), which are secondary outcomes. The 2013 edition emphasizes its strategic decision-making role, ensuring resources focus on high-value initiatives. This enhances portfolio effectiveness.

Reference: P3O Foundation (2013) manual, Section 6.3.1, AXELOS.

NEW QUESTION # 66

What are risk identification and risk assessment workshops typically used for?

- A. Brainstorm objectives for a project
- **B. Identify threats as part of project initiation**
- C. Define measures in a Benefit Profile
- D. Define the relative priority of each investment objective

Answer: B

Explanation:

Risk identification and assessment workshops are typically used to identify threats during project initiation, according to the P3O Foundation (2013) manual. Section 6.3.3 states, "These workshops are conducted during project initiation to identify and assess potential threats and opportunities, forming the basis of the risk management plan." This contrasts with defining investment priorities (A), brainstorming objectives (C), or defining benefit measures (D), which serve different purposes. The 2013 edition highlights their role in early risk management, supporting P3O's governance function by ensuring proactive threat mitigation. This process enhances project success by addressing risks at the outset.

Reference: P3O Foundation (2013) manual, Section 6.3.3, AXELOS.

NEW QUESTION # 67

.....
