### GInI Certified Innovation Professional (CInP) Sample Questions (Q62-Q67):

#### NEW QUESTION # 62

Subject Matter Expert Platforms are a lighter approach to Open Innovation where engagements are curated with SMEs, thus allowing a business to gain access to a wide variety of insights and learn critical information about a particular industry, market, technology, or business process.

Select one correct answer from the list:

- A. Cross-Industry Lateral Innovation Panels
- **B. Subject Matter Expert Platforms**
- C. Crowdsourcing Platforms
- D. Open Innovation Brokerage Platforms

**Answer: B**

Explanation:

In the context of Open Innovation, GInI's Certified Innovation Professional (CInP) Handbook describes

"Subject Matter Expert Platforms" as a streamlined method for businesses to tap into specialized knowledge from subject matter experts (SMEs). These platforms facilitate curated engagements that provide deep insights into specific areas like industry trends, markets, technologies, or processes, without the broader scope of full-scale crowdsourcing or cross-industry collaboration. The question's phrasing-"a lighter approach" and "curated with SMEs"-directly aligns with this definition. Option B, "Crowdsourcing Platforms," involves a wider, less targeted pool of contributors, which is less "light" and curated. Option C, "Open Innovation Brokerage Platforms," implies intermediaries facilitating broader innovation deals, not necessarily SME-focused. Option D, "Cross-Industry Lateral Innovation Panels," involves peer-to-peer collaboration across industries, not SME engagements. GInI's emphasis on SME-driven insights for targeted learning makes A the correct choice. The original answer (A) was correct and is affirmed here with GInI backing.
