

Pass-Sure Sample PTCE Questions Pdf for Real Exam

PTCE PRACTICE EXAM 1 QUESTIONS WITH CORRECT DETAILED ANSWERS 100% GUARANTEED PASS

Which of the following is a goal of technology used in pharmacies?

- A. Improve the quality of prescription filling processes.
- B. Process prescriptions faster.
- C. Reduce errors in cost-effective ways.
- D. All of the above - Answer-D. All of the above

Work that was previously performed in a pharmacy by pharmacists and pharmacy technicians is being performed through technology and automation, allowing both pharmacists and pharmacy technicians to focus on other patient-related areas.

Which of the following can be used to treat asthma?

- A. β_2 agonists
- B. Cromolyn
- C. Corticosteroids
- D. All of the above - Answer-D. All of the above

β_2 agonists, cromolyn, and corticosteroids are all treatments for asthma.

Which of the following would be a correct DEA number for Dr. A. Shedlock?

- A. AB135426
- B. BS2456879
- C. FS1578926
- D. MS2254235 - Answer-B. BS2456879

The first letter may be either an A or B. The second letter is the first letter of the prescriber's last name. Next, add the numbers in the first, third, and fifth position. Then add the numbers in the second, fourth, and sixth positions; multiply this sum by two. Add both sums together, and the correct number should be the last number.

Which of the following is considered a "high-alert" medication?

- A. Amoxicillin
- B. Atorvastatin
- C. Fluoxetine
- D. Levothyroxine - Answer-D. Levothyroxine

The Institute of Safe Medication Practices (ISMP) has identified levothyroxine as being involved in a very large number of prescription errors.

Having Medical Tests certification PTCE exam certificate is equivalent to your life with a new milestone and the work will be greatly improved. I believe that everyone in the IT area is eager to have it. A lot of people in the discussion said that such a good certificate is difficult to pass and actually the pass rate is quite low. Not having done any efforts of preparation is not easy to pass, after all, Medical Tests certification PTCE exam requires excellent expertise. Our iPassleader is a website that can provide you with a shortcut to pass Medical Tests Certification PTCE Exam. iPassleader have a training tools of Medical Tests certification PTCE exam which can ensure you pass Medical Tests certification PTCE exam and gain certificate, but also can help you save a lot of time. Such a iPassleader that help you gain such a valuable certificate with less time and less money is very cost-effective for you.

Who is a pharmacy technician? Sometimes known as a pharmaceutical technician, pharmacy technician is a health care provider who performs pharmacy-related functions, generally working under the direct supervision of a licensed pharmacist. Job duties include dispensing prescription drugs and other medical devices to patients and instructing on their use. They may also perform administrative duties in pharmaceutical practice, such as reviewing prescription requests with doctor's offices and insurance companies to ensure correct medications are provided and payment is received.

Pharmacy Technician Certification Exam training torrent & PTCE updated

dumps & Pharmacy Technician Certification Exam latest material

Among global market, PTCE guide question is not taking up such a large share with high reputation for nothing. And we are the leading practice materials in this dynamic market. To facilitate your review process, all questions and answers of our PTCE test question is closely related with the real exam by our experts who constantly keep the updating of products to ensure the accuracy of questions, so all PTCE Guide question is 100 percent assured. It is a mutual benefit job, that is why we put every exam candidates' goal above ours, and it is our sincere hope to make you success by the help of PTCE guide question and elude any kind of loss of you and harvest success effortlessly.

Medical Tests PTCE Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Order Entry and Processing: This section measures the skills of Pharmacy Technicians and assesses procedures for compounding non-sterile products, calculations, ratios, proportions, conversions, Sig codes, abbreviations, medical terminology, administration equipment, lot numbers, expiration dates, NDC numbers, and procedures for handling medications and supplies¹². It emphasizes accuracy and efficiency in prescription processing.
Topic 2	<ul style="list-style-type: none">Federal Requirements: This section assesses the competencies of Pharmacy Managers in federal laws and regulations related to handling and disposal of substances, controlled substance prescriptions, restricted drug programs, and FDA recall requirements¹². It emphasizes compliance and regulatory expertise.
Topic 3	<ul style="list-style-type: none">Medications: This section measures the skills of Pharmacy Technicians and covers knowledge of generic and brand names, classifications, therapeutic equivalence, drug interactions, contraindications, strengths, dosage forms, administration routes, side effects, indications, drug stability, narrow therapeutic index medications, incompatibilities, and proper storage¹²⁴⁶. It requires a comprehensive understanding of medication properties and handling.
Topic 4	<ul style="list-style-type: none">Patient Safety and Quality Assurance: This section measures the skills of Pharmacy Technicians and covers high-alert medications, error prevention strategies, issues requiring pharmacist intervention, event reporting, prescription error types, and hygiene standards¹². It focuses on safe pharmacy practices and error handling.

Medical Tests Pharmacy Technician Certification Exam Sample Questions (Q133-Q138):

NEW QUESTION # 133

Where permitted by state regulation, a pharmacy technician may be responsible for:

- A. Counseling patients on new prescriptions.
- B. Approving the validity of controlled substance prescriptions.
- C. Initiating the transfer of non-controlled substance prescriptions.
- D. Completing a clinical review of new prescriptions.

Answer: C

Explanation:

Pharmacy technician scope of practice is defined by state regulation and generally includes technical functions under a pharmacist's supervision. In many states, technicians may initiate transfers of non-controlled prescriptions (often technician-to-technician) as part of the dispensing workflow. Activities such as patient counseling (A), clinical review (B), and approving the validity of controlled prescriptions (D) are considered professional/judgmental tasks and are reserved for the pharmacist.

References (Pharmacy Technician documents / Study Guides):

* NABP Model State Pharmacy Act-differentiation of pharmacist vs. technician duties.

* PTCB/ExCPT role delineation: technician tasks include processing, data entry, and certain communications (e.g., non-controlled transfers) under pharmacist supervision; clinical judgment and counseling are pharmacist- only.

* State practice act summaries frequently used in technician training modules regarding transfers and controlled vs. non-controlled prescriptions.

NEW QUESTION # 134

Which of the following would a patient be prescribed an Albuterol Inhaler for?

- A. Asthma
- B. Post Myocardial Infarction
- C. Hypertension
- D. Smoking Cessation

Answer: A

NEW QUESTION # 135

A patient presents the following prescription:

Clobetasol 0.05% cream

Apply small amount to affected area b.i.d. x 14 days. Avoid face, groin, and axilla.

According to the instructions, the patient should avoid applying the medication to their:

- A. scalp
- B. feet
- C. underarms
- D. chest

Answer: C

Explanation:

The axilla refers to the underarm area. Clobetasol is a high-potency corticosteroid, and such steroids are not recommended for use on thin-skinned areas like the face, groin, or underarms (axilla) due to risk of increased absorption and adverse effects like skin atrophy.

Mosby's Pharmacy Technician: Principles and Practice explains:

"High-potency corticosteroids should not be applied to intertriginous areas such as the axilla, groin, or face due to increased absorption and systemic risk." Reference:

Clobetasol Prescribing Information

Mosby's Pharmacy Technician: Principles and Practice, Topical Medications Section American Academy of Dermatology Guidelines

NEW QUESTION # 136

A prescription reads:

Famotidine 40 mg/5 mL

Quantity: 50 mL

Sig: 0.4 mL PO t.i.d.

What amount of medication, in mg, is given each day?

- A. 9.6 mg
- B. 1.2 mg
- C. 6.4 mg
- D. 3.2 mg

Answer: C

Explanation:

Comprehensive and Detailed Step-by-Step Explanation:

A table with text and numbers Description automatically generated with medium confidence

Reference:

PTCB Exam: Pharmaceutical Calculations

USP <795> Dosing Conversions

NEW QUESTION # 137

- A. 159 = CLVIII
- B. 264 = CCLXIV
- C. 554 = DLIV
- D. 122 = CXXII
