問題 #35

Which of the following is correct about GitHub Copilot Knowledge Bases?

- A. Indexing is static
- B. All file types are indexed
- C. It is an Enterprise feature
- D. All repos are indexed

答案：C

解題說明：

問題 #37

Which of the following describes role prompting?

- A. Giving GitHub Copilot multiple examples of the form of the data you want to use

Role prompting involves explicitly stating your role or the persona you want GitHub Copilot to adopt within your prompt. This helps Copilot provide more contextually relevant and accurate suggestions. By defining your role (e.g., "As a senior software engineer," "As a technical writer"), you guide Copilot to tailor its responses to align with the expertise and perspective associated with that role. This improves the quality and relevance of the generated code and explanations.
