

# Interactive H11-861\_V4.0 Practice Exam - H11-861\_V4.0 New Dumps Questions

BTW, DOWNLOAD part of itPass4sure H11-861\_V4.0 dumps from Cloud Storage: [https://drive.google.com/open?id=1q\\_uGMmBJIIg\\_ErR8adRhtyhBWw-TwTQ](https://drive.google.com/open?id=1q_uGMmBJIIg_ErR8adRhtyhBWw-TwTQ)

This format of itPass4sure Huawei H11-861\_V4.0 practice material is compatible with these smart devices: Laptops, Tablets, and Smartphones. This compatibility makes HCIP-Collaboration V4.0 (H11-861\_V4.0) PDF Dumps easily usable from any place. It contains real and latest HCIP-Collaboration V4.0 (H11-861\_V4.0) exam questions with correct answers.

## Huawei H11-861\_V4.0 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Implementation and Configuration:</b> This domain targets IIoT Solution Architects and System Integrators, focusing on configuring IoT devices, network connectivity, communication protocols, and edge computing components used in IIoT deployments.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Cybersecurity and Risk Management:</b> This section assesses the expertise of Security Engineers and Compliance Officers in securing IIoT environments by applying security frameworks, identity and access management, threat detection, and risk mitigation strategies.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Technical Concepts:</b> This section measures skills of Industrial IoT Engineers and Network Engineers and covers fundamental technical principles relevant to Industrial Internet of Things (IIoT), including architectures, protocols, data management, and integration technologies.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Operations and Maintenance:</b> This domain measures skills of Operations Engineers and Network Administrators in monitoring IIoT systems, troubleshooting network and device issues, and maintaining overall system health and performance.</li> </ul>

- **Integration and Application:** This section targets Solution Developers and System Integrators involved in integrating IIoT systems with existing enterprise applications, cloud platforms, and analytics tools for data-driven decision making.

## **Interactive H11-861\_V4.0 Practice Exam | High-quality Huawei H11-861\_V4.0: HCIP-Collaboration V4.0**

The most important thing for preparing the H11-861\_V4.0 exam is reviewing the essential point. In order to service the candidates better, we have issued the H11-861\_V4.0 test prep for you. Our company has accumulated so much experience about the test. So we can predict the real test precisely. Almost all questions and answers of the real exam occur on our H11-861\_V4.0 Guide braindumps. That means if you study our study guide, your passing rate is much higher than other candidates. Preparing the exam has shortcut.

### **Huawei HCIP-Collaboration V4.0 Sample Questions (Q11-Q16):**

#### **NEW QUESTION # 11**

By default, the SMC provides six user roles. Default permissions of each user role can be modified or deleted based on site requirements.

- **A. FALSE**
- B. TRUE

**Answer: A**

Explanation:

The SMC indeed provides six built-in user roles (system administrator, security administrator, security auditor, program administrator, conference administrator, and common user), but their default permissions are fixed and cannot be modified or removed.

#### **NEW QUESTION # 12**

In the collaboration solution architecture, which of the following network elements are deployed at the media processing layer? (Choose all that apply.)

- **A. CloudRSE**
- B. Box 310
- C. SMC
- **D. VP9860**

**Answer: A,D**

Explanation:

The media processing layer handles core media functions such as audio/video encoding, decoding, mixing, recording, and streaming. The VP9860 is Huawei's MCU media server - deployed precisely in this media processing (media switching) layer to provide high-density encoding/decoding and mixing capabilities. CloudRSE (Cloud Recording & Streaming Engine) delivers recording and streaming services, which are also key media processing functions within this layer.

#### **NEW QUESTION # 13**

Assume endpoints T1 and T2 are registered with the same SC node zone. After T1 calls the number of T2 using H.323, T1 and T2 communicate with each other. Which of the following statements are true about the call process? (Choose all that apply.)

- **A. In this process, the H.225 RAS signaling interaction between T1 and T2 must pass through the SC.**
- **B. Endpoint control signaling involved in this process mainly includes H.225 RAS, H.225 Call Signaling, and H.245.**
- C. 225 RAS messages (registration, admission, status) always traverse the SC (gatekeeper) for endpoints in the same zone.

- D. In this process, the H.225 call signaling interaction between T1 and T2 must pass through the SC.
- E. In this process, the media stream must be directly transmitted between T1 and T2.

**Answer: A,B,E**

Explanation:

RTP media is exchanged directly between T1 and T2 once the call is established.

The call control sequence involves H.225 RAS (registration/admission), H.225 call signaling (SETUP/CONNECT), and H.245 control for capabilities.

#### NEW QUESTION # 14

Which of the following statements is true about image sampling?

- A. RGB components have weak correlation, which is unfavorable for video image compression. Therefore, RGB is often used for image display.
- B. The YUV 4:2:0 sampling mode is half the size of the YUV 4:4:4 sampling mode.
- C. The transmission rate of video data using YUV 4:2:0 is 140 Mbit/s. If the 4:2:2 mode is used, the transmission rate required by the video is 175 Mbit/s.
- D. For human eyes, the Y component in YUV is the most important. Therefore, downsampling can be performed on the UV components.

**Answer: B**

Explanation:

YUV 4:2:0 subsamples chroma by a factor of two in both horizontal and vertical dimensions, reducing total data to half of the full-resolution YUV 4:4:4 format.

#### NEW QUESTION # 15

When the MCU has two service network ports, you can use the IP address bound to bond0 or bond1 to access the MCU web interface.

- A. FALSE
- B. TRUE

**Answer: A**

Explanation:

The MCU's web management interface listens only on the service-network bond (bond0); the second port group (bond1) is dedicated to media traffic and does not provide web access.

#### NEW QUESTION # 16

.....

You may have been learning and trying to get the H11-861\_V4.0 certification hard, and good result is naturally become our evaluation to one of the important indices for one level. When looking for a job, of course, a lot of companies what the personnel managers will ask applicants that have you get the H11-861\_V4.0 certification to prove their abilities, therefore, we need to use other ways to testify our knowledge we get when we study at college, such as get the H11-861\_V4.0 Test Prep to obtained the qualification certificate to show their own all aspects of the comprehensive abilities, and the H11-861\_V4.0 exam guide can help you in a very short period of time to prove yourself perfectly and efficiently.
