- B. Customers can use the dashboard in the dev, test, and production tenants
- C. Customers can grant access to the dashboard to partners**
- D. It can be accessed by using SAP For Me**

Answer: C,D

Explanation:

The clean core dashboard in SAP SuccessFactors is a tool designed to monitor and maintain clean core operations, ensuring that customizations and extensions do not disrupt standard processes. It provides insights into system health and compliance with clean core principles.

According to the SAP SuccessFactors Clean Core Guide:

* Customers can grant access to the dashboard to partners(Option B): The clean coredashboard allows customers to share access with implementation partners or consultants to review system configurations and ensure adherence to clean core standards.

* It can be accessed by using SAP For Me(Option C): The dashboard is accessible through the SAP For Me portal, which provides a unified interface for customers to manage their SAP solutions, including monitoring clean core metrics.

Option A (used in all SAP S/4HANA Cloud editions) is incorrect because the clean core dashboard is specific to SAP SuccessFactors and not universally applicable to S/4HANA editions. Option D (use in dev, test, and production tenants) is incorrect because the dashboard is typically restricted to production environments for monitoring live systems, not necessarily dev or test tenants.
