Free PDF Regualer 312-39 Update | Easy To Study and Pass Exam at first attempt & Reliable EC-COUNCIL Certified SOC Analyst (CSA)

Our Certified SOC Analyst (CSA) (312-39) practice exam software will record all the attempts you have made in the past and display any modifications or improvements made in each attempt. This Prepare for your Certified SOC Analyst (CSA) (312-39)

exam simulation software enables you to track your progress and quantify how much you have improved.

EC-COUNCIL 312-39 Certification Exam is an excellent way for cybersecurity professionals to demonstrate their expertise and advance their careers. By earning this certification, individuals can prove their knowledge and skills in SOC management, network security, threat intelligence, and incident response, and become a valuable asset to any organization.

EC-COUNCIL Certified SOC Analyst (CSA) Sample Questions (Q64-Q69):

NEW QUESTION # 64

Which of the following service provides phishing protection and content filtering to manage the Internet experience on and off your network with the acceptable use or compliance policies?

- A. I-Blocklist
- B. **OpenDNS**
- C. Apility.io
- D. Malstrom

Answer: B

NEW QUESTION # 65

The threat intelligence, which will help you, understand adversary intent and make informed decision to ensure appropriate security in alignment with risk.

What kind of threat intelligence described above?

- A. Operational Threat Intelligence
- B. **Strategic Threat Intelligence**
- C. Tactical Threat Intelligence
- D. Functional Threat Intelligence

Answer: B

Explanation:

The type of threat intelligence that helps in understanding adversary intent and making informed decisions to ensure appropriate security in alignment with risk is known as Strategic Threat Intelligence. This form of intelligence is concerned with the broader goals and motivations of threat actors, as well as the long-term trends and implications of their activities. It provides insights into the cyber threat landscape and helps organizations shape their security strategy and policies to mitigate risks.

Strategic Threat Intelligence is used to inform decision-makers about the nature of threats, the potential impact on the organization, and the necessary steps to align security measures with business objectives. It is less technical than Tactical or Operational Threat Intelligence and does not focus on the specific details of attacks or the technical indicators of compromise. Instead, it provides a high-level view of the threats and their relevance to the organization's risk management.

References: The information provided aligns with the EC-Council's Certified Threat Intelligence Analyst (CTIA) program, which covers the use of threat intelligence in SOC operations and the integration of threat intelligence into risk management processes¹. Additionally, the distinction between different types of threat intelligence, such as Tactical, Strategic, and Operational, is well-documented in the cybersecurity community and can be found in various threat intelligence resources²³.

NEW QUESTION # 66

Juliea a SOC analyst, while monitoring logs, noticed large TXT, NULL payloads.

What does this indicate?

- A. Covering Tracks Attempt
- B. DHCP Starvation Attempt
- C. Concurrent VPN Connections Attempt
- D. **DNS Exfiltration Attempt**

Answer: D

NEW QUESTION # 67

Identify the password cracking attempt involving a precomputed dictionary of plaintext passwords and their corresponding hash values to crack the password.

- A. Rainbow Table Attack
- B. Brute force Attack
- C. Dictionary Attack
- D. Syllable Attack

Answer: C

NEW QUESTION # 68

Which of the following steps of incident handling and response process focus on limiting the scope and extent of an incident?

- A. Containment
- B. Data Collection
- C. Identification
- D. Eradication

Answer: A

NEW QUESTION # 69

Have you been many years at your position but haven't got a promotion? Or are you a new comer in your company and eager to make yourself outstanding? Our 312-39 exam materials can help you.
