DOWNLOAD the newest Real4dumps 350-401 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1\\_\\_6o078o-ktjBIBW9noydh3RtuW6Ufcj](https://drive.google.com/open?id=1__6o078o-ktjBIBW9noydh3RtuW6Ufcj)

why you need the 350-401 exam questions to help you pass the exam more smoothly and easily? There are a lot of the benefits of the 350-401 study guide. Firstly, a little practice can perfect you to answer all 350-401 new questions in the real exam scenario. Secondly, another amazing benefit of doing the 350-401 Practice Tests is that you can easily come to know the real exam format and develop your skills to answer all questions without any confusion. Hence, you can develop your pass percentage.

Cisco 350-401: Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) exam is an essential certification exam for network professionals who want to advance their careers in the field of enterprise networking. It covers various topics related to enterprise network technologies and requires candidates to have a deep understanding of network design, automation, security, virtualization, and network infrastructure. Passing 350-401 exam is a crucial step towards obtaining the CCNP Enterprise certification and advancing one's career in the field of enterprise networking.

Cisco 350-401 ENCOR exam is a challenging test that requires a solid understanding of enterprise-level networking concepts and technologies. 350-401 Exam consists of 90-110 multiple-choice and simulation questions that cover a broad range of topics, including network infrastructure, virtualization, network assurance, security, automation, and programmability. Candidates are expected to have hands-on experience with Cisco enterprise network technologies and tools, such as Cisco DNA Center, Cisco SD-WAN, and Cisco ISE. To prepare for 350-401 exam, candidates can attend Cisco training courses, use Cisco learning materials, and practice with hands-on labs and simulations.

## 350-401 Free Practice Exams, Study 350-401 Tool

You must believe that you have extraordinary ability to work and have an international certificate to prove your inner strength. You will definitely be the best one among your colleagues. The help you provide with our 350-401 Learning Materials is definitely what you really need. And if you study with our 350-401 exam braindumps, you will know your dream clearly. Join 350-401 study guide and you will be the best person!

## Cisco Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Sample Questions (Q24-Q29):

### NEW QUESTION # 24

A customer has several small branches and wants to deploy a WI-FI solution with local management using CAPWAP. Which deployment model meets this requirement?

- A. Mobility express

- B. SD-Access wireless
- C. Autonomous
- D. Local mode

**Answer: A**

Explanation:

Mobility Express is the ability to use an access point (AP) as a controller instead of a real WLAN controller. But this solution is only suitable for small to midsize, or multi-site branch locations where you might not want to invest in a dedicated WLC. A Mobility Express WLC can support up to 100 APs. Mobility Express WLC also uses CAPWAP to communicate to other APs.

Note: Local mode is the most common mode that an AP operates in. This is also the default mode. In local mode, the LAP maintains a CAPWAP (or LWAPP) tunnel to its associated controller.

#### NEW QUESTION # 25

Drag and drop the characteristics from the left onto the orchestration tools that they describe on the right.

**Answer:**

Explanation:

#### NEW QUESTION # 26

An engineer creates the configuration below. Drag and drop the authentication methods from the left into the order of priority on the right. Not all options are used.

**Answer:**

Explanation:

#### NEW QUESTION # 27

SIMULATION

**Answer:**

Explanation:

See the solution below in Exaplanation

Explanation:

Solution:

R2

R3

#### NEW QUESTION # 28

Refer to the exhibit:

An engineer configures VRRP and issues the show commands to verify operation. What does the engineer confirm about VRRP group 1 from the output?

- A. Communication between VRRP members is encrypted using MD5
- B. There is no route to 10.10.1.1/32 in R2's routing table
- C. If R1 reboots, R2 becomes the master virtual router until R2 reboots
- **D. R1 is primary if 10.10.1.1/32 is in its routing table**

**Answer: D**
