If you don't have enough time to learn, PRINCE2Practitioner test guide will make the best use of your spare time, and the scattered time will add up. The service of PRINCE2Practitioner Test Guide is very prominent. It always considers the needs of customers in the development process. There are three versions of our PRINCE2Practitioner learning question, PDF, PC and APP. Each version has its own advantages. You can choose according to your needs.

### PRINCE2 Practitioner Exam Sample Questions (Q191-Q196):

#### NEW QUESTION # 191

Who is responsible for reviewing the risk management practices to ensure they are in line with the project's risk management strategy?

- A. Team Manager
- **B. Project Assurance**
- C. Project Support
- D. Project Manager

**Answer: B**

#### NEW QUESTION # 192

Which 2 statements should be recorded under the Costs heading?

- A. 10 further orders with an average profit of £2k will deliver a benefit of £20k in the first year.
- **B. Project costs are estimated to be a total of £26.5k.**
- **C. The project will be funded from the business marketing budget**
- D. The new company logo is estimated to cost £4k.
- E. The MNO marketing budget this year is £120k.

**Answer: B,C**

#### NEW QUESTION # 193

Project Scenario

Project Scenario

Calendar Project (Note: The companies and people within the scenario are fictional.) There has been a reduction in the number of orders at the MNO Manufacturing Company due in part to the increased marketing activities of its competitors. To help counter this, the company has decided to create a promotional calendar for next year for all its current and prospective customers. The end product of this project will be a prepared calendar pack, ready for printing. The design of the calendar will be similar to one sent out previously, and must reflect the company image as described in the existing corporate branding standards. Another project is currently producing a new company logo when it is to be printed on each page of the promotional calendar. The prepared calendar pack will consist of:

- \* Design for each month - correctly showing at public holidays and new company logo
- \* Selected photographs- 12 professionally-produced photographs, showing different members of staff
- \* Selected paper and selected envelope - for printing and mailing the calendar
- \* Chosen label design - a competition to design a label will be held as part of this project
- \* List of customers - names and addresses of customers to whom the calendar will be sent.

The project is currently in initiation and will have two further stages:

Stage 2 will include the activities to:

- \* Create the customer list using information from the Accounts and Marketing departments
- \* Confirm compliance with the Data Protection Legislation

- \* Create a design for each month - this will be done by the internal creative team
- \* Select and appoint a professional photographer
- \* Gather photograph design ideas from previous project and agree photographic session schedule
- \* Prepare a production cost forecast
- \* Select paper and envelope.

Stage 3 will include the activities to:

- \* Produce and select tie professionally-taken photographs
- \* Hold the label design competition and choose the label design
- \* Assemble the prepared calendar pack.

A production cost forecast, based on the options and costs for the paper, envelope, printing and marketing of the calendar is to be produced in stage 2. However, the actual production and distribution of the calendars is not within the scope of the project. The product cost forecast will be reviewed by the Project Board to determine whether the project should continue.

It is now 05 October and the prepared calendar pack must be delivered to the print company by 30 November, to enable printing and distribution of the calendar in time for Christmas. The cost of the activities to develop the specialist products and the cost of the project management activities are estimated to be £20,000. There is a project time tolerance of +1 week /-2 weeks and a project cost tolerance of +£6,000 / -£6,000. A change budget of £500 has been allocated but there is no risk budget.

Lines 1 to 6 in the table below consist of an assertion statement and a reason statement For each line identify the appropriate option, from options 1 to 6, that applies. Each option can be used once, more than once or not at all.

	Assertion		Reason	
1	The label design competition should be planned and managed as two management stages.	True-False	A decision can only be made by the Project Board at the end of a management stage.	True-False
2	Quality tolerances allocated to the photos can be used to remedy a forecast threat to time tolerance.	True-False	Any forecast threat to time tolerance should first be resolved by use of any available quality tolerance.	True-False
3	A suitable point for a stage boundary would be after the production cost forecast has been produced.	True-False	A stage boundary represents a go/no go decision point.	True-False
4	With +1 week 1-2 weeks time tolerance, the project is permitted to finish two weeks later than 30 November.	True-False	A negative project time tolerance indicates the total permissible delay to a project schedule before an exception situation occurs.	True-False
5	If the project is forecast to exceed the cost tolerance of +£6k, the Project Manager should send an Exception Report straight to corporate management.	True-False	If the forecast is for project tolerances to be exceeded, the Project Board no longer has the authority to continue with the project.	True-False
6	The production cost forecast should be reviewed by the Project Board during the Directing a Project process to determine whether the project should continue.	True-False	The Project Board reviews all products at the end of each stage.	True-False

**Answer:**

Explanation:

#### NEW QUESTION # 194

##### INITIATING A PROJECT

Here are three items of information relating to the 'initiating a project' process for the project.

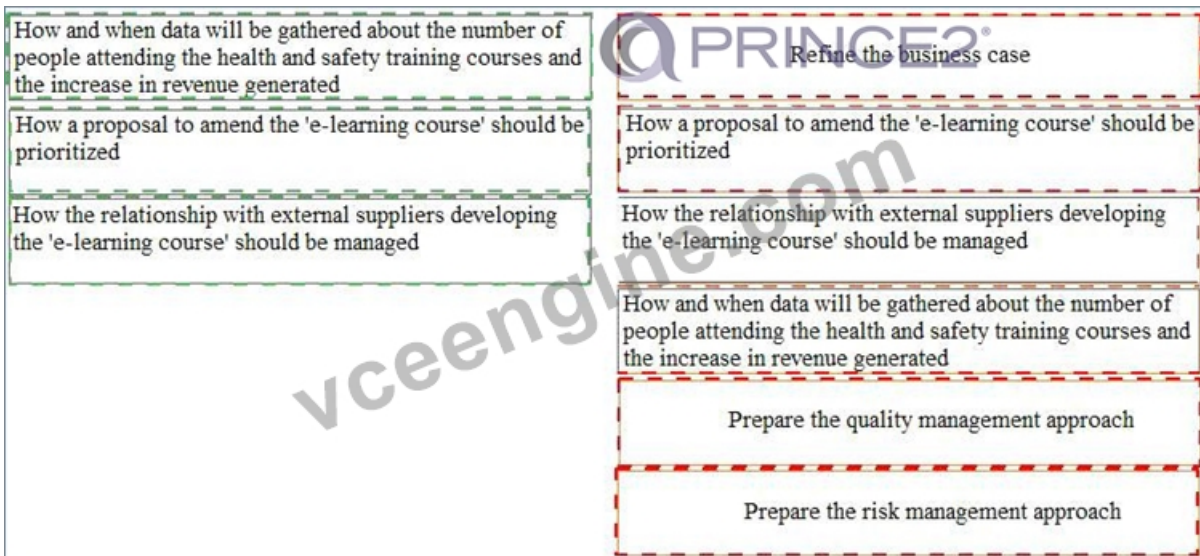

As part of which activity (A-F) should this information be recorded?

Choose only one theme for each activity. Each theme can be used once, more than once, or not at all.

How and when data will be gathered about the number of people attending the health and safety training courses and the increase in revenue generated	Refine the business case
How a proposal to amend the 'e-learning course' should be prioritized	Prepare the change control approach
How the relationship with external suppliers developing the 'e-learning course' should be managed	Prepare the communication management approach
	Set up the project controls
	Prepare the quality management approach
	Prepare the risk management approach

**Answer:**

**Explanation:**

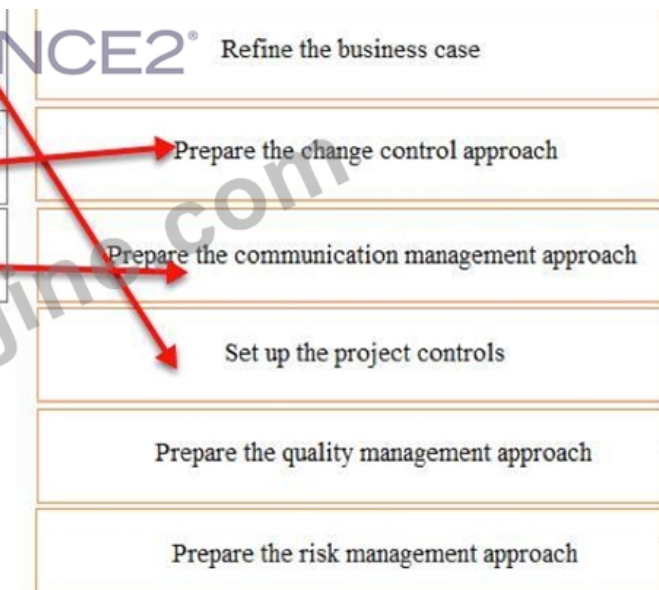

Explanation:

How and when data will be gathered about the number of people attending the health and safety training courses and the increase in revenue generated

How a proposal to amend the 'e-learning course' should be prioritized

How the relationship with external suppliers developing the 'e-learning course' should be managed

### NEW QUESTION # 195

During stage 2, if the Project Manager decides to recommend that the Project Plan is revised to finish three weeks later, which statement is correct?

- A. The Executive needs to seek formal approval from corporate management to implement this change.
- B. The current project must close prematurely and be restarted with a new Project Plan, a new Business Case and new Risk Register.
- C. The revision of the Project Plan would have to wait until the end stage assessment of stage 2.
- D. The tolerances stated in the Project Plan CANNOT be changed.

Answer: A

### NEW QUESTION # 196

.....
