C_ACDET_2506 Exam Flashcards, C_ACDET_2506 Valid Exam Blueprint

Just download SAP C_ACDET_2506 Exam Questions and start C_ACDET_2506 exam preparation right now. The SAP C_ACDET_2506 PDF Dumps exam syllabus is updated from time to time. If you want to pass the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite exam then you have to understand these changes.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q54-Q59):

NEW QUESTION # 54

Which document outlines the roles and responsibilities for the SAP Deployment Lead assigned to your project?

- A. Onboard Resource Center
- B. Partner Statement of Work
- **C. Deployment Description**
- D. Inline Help

Answer: C

Explanation:

The Deployment Description document formally defines the scope, roles, and responsibilities of the SAP Deployment Lead within a specific SAP Ariba project. It provides clarity on tasks such as migration coordination, technical issue resolution, and stakeholder communication. Other documents like the Onboard Resource Center provide logistical support, the Partner Statement of Work focuses on partner deliverables, and Inline Help offers in-application guidance—not role definitions. The Deployment Description is the authoritative reference for deployment lead responsibilities.

NEW QUESTION # 55

While working on editing a field for a customer, you notice that "Editable in full Contract Amendment" is not an option available in the advanced tab of field configuration. What is likely the cause for this behavior?
(Select 2 correct answers)

- A. A customization is in flight and needs to be cleared and reset prior to making this change.
- **B. The field you are customizing is not in the contract workspace or request classes.**
- **C. The contract must be in an amendment state for this option to be visible in customizing.**
- D. The field you are customizing is standard and therefore cannot be changed.

Answer: B,C

Explanation:

The "Editable in full Contract Amendment" option in SAP Ariba is available only when the contract is in an amendment status, meaning this option appears contextually when the contract supports amendment workflows. If the contract is not in amendment state, the option remains hidden (A).

Additionally, this option is only relevant for fields that belong to the Contract Workspace or Request field classes; fields outside these classes will not show amendment-specific editability options (C).

The presence or absence of this option is not related to ongoing customizations needing reset (B), nor is it restricted solely to custom or standard fields (D), as standard fields can also have this option if class-applicable.

NEW QUESTION # 56

In a Greenfield deployment scenario, how should translation migrations be performed for header field labels, help tips, and validity condition error messages?

- A. Contact an SAP Deployment lead for customization help.
- B. User with Partner Administrator can configure translation.
- C. Create a package to migrate translations by ICM.
- **D. Translations are included in migrations and are listed as AMLStringResource in the migration**

Answer: D

NEW QUESTION # 57

Which of the following master data types requires manual migration from Test to Production in a Greenfield migration?

- **A. Relations and relation entries**
- B. Clause Library
- C. Translations
- D. Enumerations

Answer: A

NEW QUESTION # 58

How can you set the order of your custom Contract Workspace fields? (Select 2 correct answers)

- A. Navigate to the UI where the class is presented, select Customize in the banner, edit, and drag and drop fields, then publish.
- **B. Select Field Configuration and under the Advanced tab set the Sequence property, then publish.**
- C. Fields are presented in alphabetical order of the field label.
- **D. Select Field Configuration, find the class, and select the Layout tab. Drag and drop the order of the fields, then publish.**

Answer: B,D

Explanation:

Custom Contract Workspace field order can be controlled through two methods:

* Using the Layout tab in Field Configuration, where fields can be dragged and dropped to reorder them visually, followed by publishing the changes.

* Using the Sequence property under the Advanced tab, assigning numeric values that define the sort order, with lower numbers appearing first. Option B is incorrect because UI banner customization does not manage field order in Contract Workspace screens. Option C is incorrect; field order is controlled by explicit settings, not alphabetical label order.

NEW QUESTION # 59

.....

In order to gain more competitive advantage in the interview, more and more people have been eager to obtain the C_ACDET_2506 certification. They believe that passing certification is a manifestation of their ability, and they have been convinced that obtaining a C_ACDET_2506 certification can help them find a better job.
