Thousands of SAP Certified Associate - SAP Generative AI Developer C\_AIG\_2412 exam candidates have passed their exam and you should also try SAP C\_AIG\_2412 Exam Questions. SAP Certified Associate - SAP Generative AI Developer C\_AIG\_2412 Exam and start preparation with PassLeader C\_AIG\_2412 and pass it with good scores.

## SAP C\_AIG\_2412 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• SAP AI Core: This section of the exam measures the skills of AI Developers and covers the fundamental components of SAP AI Core. Candidates are assessed on their ability to work with the core services that allow machine learning models to be deployed and managed within SAP environments. The focus is on understanding how AI Core fits into SAP's ecosystem and ensures smooth integration with enterprise applications.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• SAP's Generative AI Hub: This section of the exam measures the skills of Solution Architects and covers SAP's Generative AI Hub, which acts as the central layer for designing and managing generative AI solutions. The exam tests knowledge of building, deploying, and connecting AI models to business scenarios through the Hub. Emphasis is placed on leveraging the Hub to streamline workflows and ensure scalable solutions that align with organizational needs.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Advanced AI Techniques with SAP's Generative AI Hub: This section of the exam measures the skills of Solution Architects and covers advanced techniques available through SAP's Generative AI Hub. Candidates are assessed on their ability to design, optimize, and scale generative AI solutions that go beyond basic implementations. The focus includes applying sophisticated strategies to integrate advanced models, manage performance, and align AI-driven outcomes with complex enterprise goals.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• <b>Large Language Models (LLMs):</b> This section of the exam measures the skills of AI Developers and covers the practical use of large language models in SAP environments. Candidates are expected to understand how LLMs can be applied to automate tasks, enhance decision-making, and improve user interaction within SAP systems. The exam evaluates knowledge of handling model selection, fine-tuning, and adapting LLMs to specific business cases.</li> </ul>

## SAP C\_AIG\_2412 Exams: SAP Certified Associate - SAP Generative AI Developer & Leader in Qualification Exams

Going through our SAP C\_AIG\_2412 certification exam prep material there remains no chance of failure in the SAP exam. So do not waste your time anymore, avail the best SAP C\_AIG\_2412 Exam Practice material and start your journey towards a bright career.

### SAP Certified Associate - SAP Generative AI Developer Sample Questions (Q23-Q28):

#### NEW QUESTION # 23

What are some benefits of using an SDK for evaluating prompts within the context of generative AI?

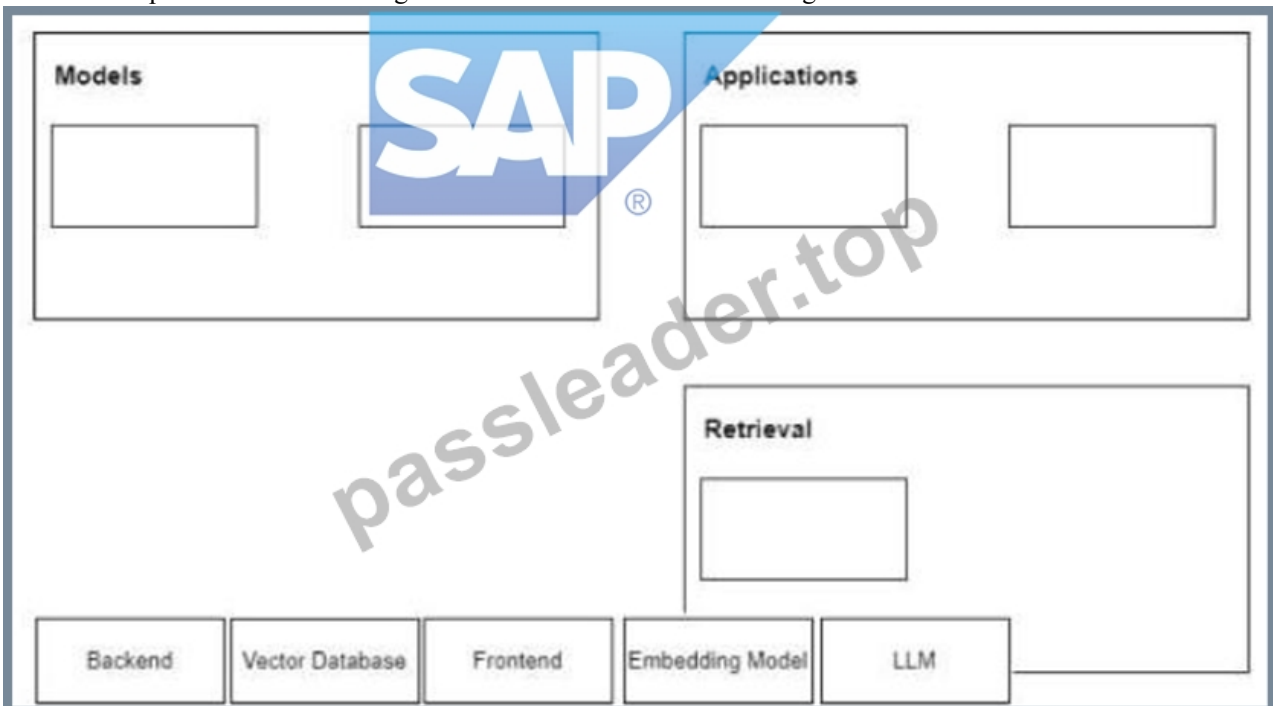

Note: There are 3 correct answers to this question.

- A. Creating custom evaluators that meet specific business needs
- B. Maintaining data privacy by using data masking techniques
- C. Automating prompt testing across various scenarios
- D. Supporting low code evaluations using graphical user interface
- E. Providing metrics to quantitatively assess response quality

Answer: A,C,E

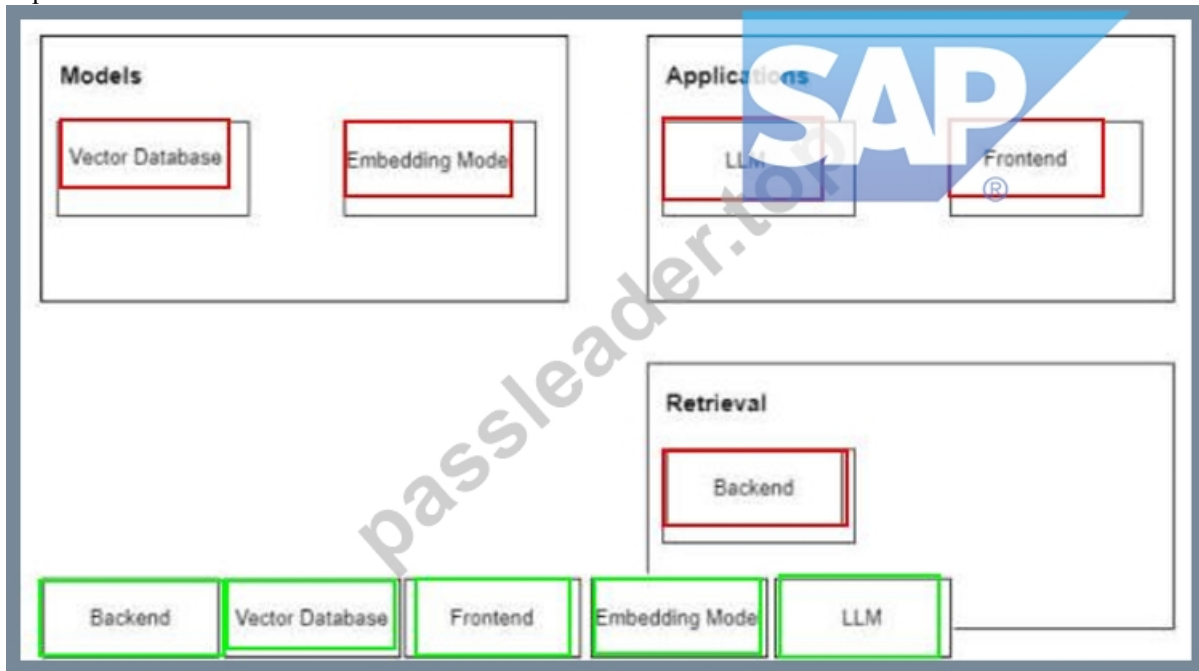

#### NEW QUESTION # 24

Match the components of a Retrieval Augmented Generation architecture to the diagram.

**Answer:**

**Explanation:**

**NEW QUESTION # 25**

Which of the following are features of the SAP AI Foundation? Note: There are 2 correct answers to this question.

- A. Ready-to-use AI services
- B. Open source AI model repository
- C. Joule integration in SAP SuccessFactors
- D. AI runtimes and lifecycle management

**Answer: A,D**

**Explanation:**

SAP AI Foundation is an all-in-one AI toolkit that provides developers with the necessary tools to build AI-powered extensions and applications on SAP Business Technology Platform (SAP BTP).

1. Ready-to-Use AI Services:

\* Pre-Built AI Capabilities: AI Foundation offers a suite of ready-to-use AI services, enabling developers to integrate AI functionalities into their applications without the need to build models from scratch. These services include capabilities such as document information extraction, translation, and personalized recommendations.

2. AI Runtimes and Lifecycle Management:

\* Comprehensive AI Management: AI Foundation provides tools for managing AI runtimes and the entire AI lifecycle, including model deployment, monitoring, and maintenance. This ensures that AI models operate efficiently and remain up-to-date, facilitating seamless integration into business processes.

3. Integration with SAP BTP:

\* Unified Platform: By integrating with SAP BTP, AI Foundation allows for the development of AI solutions that are grounded in business data and context, ensuring relevance and reliability in AI-driven applications.

**NEW QUESTION # 26**

What are some benefits of SAP Business AI? Note: There are 3 correct answers to this question.

- A. Intelligent business document processing
- B. Face detection and face recognition
- C. Personalized recommendations based on AI algorithms
- D. Automatic human emotion recognition
- E. AI-powered forecasting and predictions

**Answer: A,C,E**

Explanation:

SAP Business AI offers a suite of capabilities designed to enhance various business processes through intelligent automation and data-driven insights.

1. Intelligent Business Document Processing:

\* Document Information Extraction:SAP Business AI includes services that automate the extraction of relevant information from business documents, such as invoices and purchase orders. This automation reduces manual data entry, minimizes errors, and accelerates processing times.

2. AI-Powered Forecasting and Predictions:

\* Predictive Analytics:SAP Business AI leverages machine learning models to analyze historical data and predict future trends. This capability assists businesses in demand forecasting, financial planning, and inventory management, enabling proactive decision-making.

3. Personalized Recommendations Based on AI Algorithms:

\* Personalized Recommendation Services:By analyzing user behavior and preferences, SAP Business AI provides personalized product or service recommendations. This personalization enhances customer experience and can lead to increased sales and customer satisfaction.

### NEW QUESTION # 27

What defines SAP's approach to LLMs?

- A. Prioritizing the development of proprietary LLMs with no integration to existing systems
- **B. Ensuring ethical AI practices and seamless business integration**
- C. Focusing solely on reducing the computational cost of training LLMs
- D. Limiting LLM usage to non-business applications only

**Answer: B**

Explanation:

SAP's approach to Large Language Models (LLMs) is centered on integrating these powerful AI tools into its enterprise ecosystem while adhering to ethical standards. Unlike option A, SAP does not focus solely on proprietary LLMs without integration; instead, it leverages both proprietary and third-party models (e.g., via partnerships with providers like Azure OpenAI) to enhance business applications. Option B is incorrect because reducing computational cost is not the sole focus-SAP prioritizes value delivery through integration with business processes. Option D is also inaccurate, as SAP explicitly targets business applications rather than limiting LLMs to non-business use. Option C is correct because SAP emphasizes ethical AI practices (e.g., through its AI Ethics Policy) and seamless integration with tools like SAP S/4HANA and SAP SuccessFactors, ensuring LLMs enhance enterprise workflows responsibly and effectively.

### NEW QUESTION # 28

.....

Latest C\_AIG\_2412 test questions are verified and tested several times by our colleagues to ensure the high pass rate of our SAP C\_AIG\_2412 study guide. We are popular not only because our outstanding SAP C\_AIG\_2412 practice dumps, but also for our well-praised after-sales service. After purchasing our SAP C\_AIG\_2412 practice materials, the free updates will be sent to your mailbox for one year long if our experts make any of our SAP C\_AIG\_2412 guide materials.
