- B. A custom field can be inserted using c_* format.
- C. Multiple GPFs are supported for clients who target multiple countries.
- D. Multiple GPFs are not supported for clients who use multiple languages.

Answer: C

Explanation:
Google Product Feed (GPF) integration in SAP Emarsys enhances product recommendations:
* Option C:Correct. Multiple GPFs are supported for clients targeting multiple countries, allowing tailored feeds per region or market.
* Option A:Incorrect. There's no mention of the U.S. as a default locale; unsupported languages typically fall back to a client-defined default.
* Option B:Incorrect. Multiple GPFs are supported regardless of language use, countering this statement.
* Option D:Incorrect. Custom fields in GPF use a specific syntax, but "c_*" is not the standard format per Emarsys documentation (it's more aligned with Google's custom attributes).The SAP Emarsys Help Portal under "Google Product Feed" confirms support for multiple feeds.References:SAP Emarsys Help Portal - "Google Product Feed" (https://help.emarsys.com/).
