As long as users buy our products online, our SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition practice materials will be shared in five minutes, so hold now, but review it! This may be the best chance to climb the top of your life.

### SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q45-Q50):

#### NEW QUESTION # 45

Which tools does SAP provide to make it easier for customers to maintain their SAP S/4HANA Cloud systems after a release upgrade? Note: There are 2 correct answers to this question.

- A. SAP Signavio Process Navigator Tool
- B. What's New Viewer Tool
- C. Release Assessment and Scope Dependency Tool
- D. Test Automation Tool

**Answer: A,D**

#### NEW QUESTION # 46

In the Organizational Structure app in SAP Central Business Configuration, which of the following entities can be added under the Company root node? Note: There are 2 correct answers to this question.

- A. Purchasing Organization
- B. Division
- C. Sales Organization
- D. Plant

**Answer: A,C**

Explanation:

In the Organizational Structure app within SAP Central Business Configuration, the structure of an organization is defined by specifying various entities that reflect the business's operational and functional areas. Under the Company root node, entities such as Sales Organization and Purchasing Organization can be added:

\* Sales Organization: This entity is responsible for the distribution and sale of goods and services. It defines the scope of sales activities, including customer negotiations, sales orders, and distribution.

Adding a Sales Organization under the Company root node allows for the management and configuration of sales-related processes within SAP S/4HANA Cloud Public Edition.

\* Purchasing Organization: This entity manages procurement activities, including the negotiation of purchasing conditions, ordering, and the receipt of goods. By adding a Purchasing Organization under the Company root node, the system can handle procurement processes, vendor relationships, and purchasing analytics.

These entities are crucial for defining how the organization operates within the SAP S/4HANA Cloud Public Edition environment, facilitating the alignment of the software's functionality with the company's business processes.

#### NEW QUESTION # 47

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad.

What can the user do?

- A. Use the search function to find the app.
- B. Assign a different business role that provides access.
- C. Assign a launchpad space to the business role.
- D. Create a page and assign it to the launchpad space.

**Answer: A**

#### NEW QUESTION # 48

How can you migrate data to SAP S/4HANA Cloud Public Edition? Note: There are 2 correct answers to this question.

- **A. With a separate SAP HANA database**
- **B. With XML or CSV templates**
- C. With the zero downtime service
- D. With Core Data Services

**Answer: A,B**

Explanation:

You can migrate data to SAP S/4HANA Cloud Public Edition using the SAP S/4HANA Migration Cockpit, a tool that provides multiple methods of migrating data from legacy systems, SAP or non-SAP, to the target system<sup>1</sup>. The SAP S/4HANA Migration Cockpit supports the following migration methods<sup>2</sup>:

\* With XML or CSV templates: You can use predefined templates in XML or CSV format to fill in your source data and upload them to the staging tables in the SAP S/4HANA Cloud system. The templates are based on the predefined migration objects that cover the most common business data, such as master data, transaction data, and configuration data. You can download the templates from the SAP S

/4HANA Migration Cockpit or from the SAP Best Practices Explorer.

\* With a separate SAP HANA database: You can use a separate SAP HANA database as a staging area to store your source data and transfer it to the SAP S/4HANA Cloud system. You can use any tool or method to extract your source data from your legacy system and load it to the SAP HANA database.

You can also use the predefined migration objects or create your own custom objects using the migration object modeler.

\* Directly from an SAP ERP system: You can connect your SAP ERP system to the SAP S/4HANA Cloud system and transfer your source data directly without using a staging area. You can use the predefined migration objects or create your own custom objects using the migration object modeler.

This method requires the installation of the SAP S/4HANA Migration Cockpit add-on in your SAP ERP system.

The other two options, with the zero downtime service and with Core Data Services, are not valid methods of migrating data to SAP S/4HANA Cloud Public Edition. The zero downtime service is a tool that enables you to upgrade your SAP S/4HANA system with minimal downtime, but it is not used for data migration<sup>3</sup>. Core Data Services (CDS) are a set of domain-specific languages and services for defining and consuming semantically rich data models, but they are not used for data migration<sup>4</sup>. References = Migrating Data to SAP S/4HANA Cloud, Public Edition, Migrating Data with the SAP S/4HANA Migration Cockpit, Zero Downtime Service for SAP S/4HANA, Core Data Services (CDS)

#### NEW QUESTION # 49

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question.

- **A. Demonstrate SAP Best Practice business processes in the starter system**
- B. Determine set up instructions for customer-driven integrations.
- **C. Highlight areas that require configuration or customization decisions.**
- D. Conduct end-user training on active scope items.

**Answer: A,C**

#### NEW QUESTION # 50

.....

Our C\_S4CPB\_2508 practice dumps enjoy popularity throughout the world. So with outstanding reputation, many exam candidates have a detailed intervention with our staff before and made a plea for help. We totally understand your mood to achieve success at least the C\_S4CPB\_2508 Exam Questions right now, so our team makes progress ceaselessly in this area to make better C\_S4CPB\_2508 study guide for you. We supply both goods which are our C\_S4CPB\_2508 practice materials as well as high quality services.
