Authentic SAP C_S4EWM_2023 Exam Questions with Answers

You may want to know our different versions of C_S4EWM_2023 exam questions. Firstly, PDF version is easy to read and print. Secondly software version simulates the real C_S4EWM_2023 actual test guide, but it can only run on Windows operating system. Thirdly, online version supports for any electronic equipment and also supports offline use. For the first time, you need to open C_S4EWM_2023 Exam Questions in online environment, and then you can use it offline. All in all, helping our candidates to pass the exam successfully is what we always looking for. Our C_S4EWM_2023 actual test guide is your best choice.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q74-Q79):

NEW QUESTION # 74

What can you use as a basis in the ABC analysis?

- A. Inbound deliveries and outbound delivery orders
- B. Confirmed warehouse tasks
- C. Occupied bins in the warehouse
- D. Counted stock in the warehouse

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:

ABC analysis in SAP EWM classifies products based on their importance (e.g., turnover rate). Option C ("Inbound deliveries and outbound delivery orders") is correct because it uses delivery data to determine product frequency or volume, calculated via transaction /SCWM/ABC or SPRO: SCM Extended Warehouse Management > Slotting > ABC Analysis. Options A (tasks), B (bins), and D (stock) provide supporting data but aren't the primary basis for ABC classification, which focuses on movement history.

NEW QUESTION # 75

Which of the following can you include in a storage type search sequence for stock removal? Note: There are 2 correct answers to this question.

- A. A list of storage sections
- B. A list of storage types
- C. A list of storage type groups
- D. A list of storage bin types

Answer: A,B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The storage type search sequence in SAP EWM defines the order for stock removal (e.g., picking). Option C ("A list of storage sections") is correct as sections within a storage type can be prioritized, and option D ("A list of storage types") is correct because multiple storage types (e.g., high rack, picking area) are sequenced, both configured in SPRO: SCM Extended Warehouse Management > Goods Issue Process > Strategies > Define Storage Type Search Sequence. Option A (storage type groups) is used for putaway, not removal, and option B (bin types) is too granular for this sequence.

NEW QUESTION # 76

Which document can be the reference for a Notification of Expected Goods Receipt? Note: There are 2 correct answers to this question.

- A. Production Order

- B. Inbound Delivery
- **C. Purchase Order**
- D. Sales Order

Answer: A,C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The Notification of Expected Goods Receipt (EGR) in SAP EWM anticipates incoming stock. Option C ("Purchase Order") is correct as it's a common reference for external procurement EGRs, and option D ("Production Order") is correct for production-related EGRs, both configured in SPRO: SCM Extended Warehouse Management > Goods Receipt Process > Expected Goods Receipt. Option A (Inbound Delivery) is a downstream document, and option B (Sales Order) is outbound-related.

NEW QUESTION # 77

With SAP S/4HANA embedded EWM or EWM 9.5, you can skip certain document categories. Which document category combination is still mandatory?

- **A. An outbound delivery order and an outbound delivery**
- B. An outbound delivery request and an outbound delivery
- C. A production material request and a stock transfer
- D. An outbound delivery request and an outbound delivery order

Answer: A

Explanation:

Mandatory Document Categories

* Outbound Delivery Order and Outbound Delivery (D): This document flow remains mandatory as it represents the core process of shipping goods from a warehouse.

Excluded Options

* A (Outbound delivery request and delivery): This combination is part of planning but not mandatory.

* B (Production material request and stock transfer): Relevant for production processes but not a core outbound requirement.

* C (Delivery request and delivery order): Intermediate steps can be skipped in embedded EWM.

SAP S/4HANA Cloud Private Edition Reference

* Check Document Categories and Flows in EWM for more details.

NEW QUESTION # 78

Your customer has two warehouse numbers that share the same physical yard. How do you set up the yard to enable yard management?

- **A. Define a storage type for a yard in one of the warehouse numbers, and connect the yard with doors to the other warehouse number**
- B. Define a storage type for a yard in each warehouse number, and connect the two storage types with doors to each other
- C. Define a storage type for a yard in each warehouse number and connect the two storage types with a parking space
- D. Define a storage type for a yard in both warehouse numbers, and connect the two storage types with a common checkpoint

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Yard management in SAP EWM manages vehicle movements. Option B ("Define a storage type for a yard in one of the warehouse numbers, and connect the yard with doors to the other warehouse number") is incorrect because a single yard storage type (e.g., "YARD") is defined in one warehouse number, and doors link it to the other, configured in SPRO: SCM Extended Warehouse Management > Yard Management > Define Yard Storage Type. Options A, C, and D overcomplicate the setup with unnecessary duplication or incorrect connections (e.g., checkpoints, parking spaces).

NEW QUESTION # 79

.....

PassTestking offers real SAP C_S4EWM_2023 Questions that can solve this trouble for students. Professionals have made the SAP C_S4EWM_2023 questions of PassTestking after working days without caring about themselves to provide the applicants with actual C_S4EWM_2023 exam questions PassTestking guarantees our customers that they can pass the SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management (C_S4EWM_2023) exam on the first try by preparing from PassTestking, and if they fail to pass it despite their best efforts, they can claim their payment back according to some terms and conditions.
