## Valid C\_S4PM\_2504 exam materials offer you accurate preparation dumps

Im EchteFrage können Sie Dumps zur SAP C\_S4PM\_2504 Zertifizierungsprüfung herunterladen, so dass Sie unsere Produkte ohne Risiko kaufen können. Das ist die Version der Übungen. Und Sie können die Qualität der Produkte und den Wert vorm Kauf sehen. Wir sind selbstsicher, dass Sie mit unseren Produkten zur SAP C\_S4PM\_2504 Zertifizierungsprüfung zufrieden sein würden. Um Ihre Interessen zu schützen, versprechen wir Ihnen, dass wir Ihnen eine Rückerstattung geben für den Durchfall in der Prüfung würden. Unser Ziel liegt nicht nur darin, Ihnen zu helfen, die SAP C\_S4PM\_2504 Prüfung zu bestehen, sondern auch ein reales IT-Expert zu werden. So können Sie mehr Vorteile im Beruf haben, eine entsprechende technische Position finden und ganz einfach ein hohes Gehalt unter den IT-Angestellten erhalten.

## SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects C\_S4PM\_2504 Prüfungsfragen mit Lösungen (Q75-Q80):

### 75. Frage

Why would you use level 3 Business Driven Configuration Questionnaires (BDCQs)?

- A. To validate customer scopes during Fit-To-Standard workshops and provide the required configuration values for the Realize phase.
- B. They build a consolidated backlog during the Realize phase
- C. To validate customer scopes and requirements against SAP S/4HANA Cloud Public Edition best practices

**Antwort: A**

Begründung:

Level 3 Business Driven Configuration Questionnaires (BDCQs) are detailed tools used in the SAP Activate methodology to collect configuration data and validate the solution fit for SAP S/4HANA Cloud Public Edition.

\* Option A: They build a consolidated backlog during the Realize phaseIncorrect. BDCQs are used in the Explore phase to gather configuration data, not to build a backlog in the Realize phase. TheSAP S

/4HANA Cloud Implementation Guidestates, "BDCQs are utilized in the Explore phase to collect configuration values, while backlogs are managed separately in SAP Cloud ALM during the Realize phase."

\* Option B: To validate customer scopes during Fit-To-Standard workshops and provide the required configuration values for the Realize phaseCorrect. Level 3 BDCQs are used during Fit-to- Standard workshops to validate scope and collect detailed configuration values for the Realize phase.

TheSAP Activate Methodology Guideexplains, "Level 3 BDCQs are employed during Fit-to-Standard workshops to validate customer scopes and gather detailed configuration values, which are then used to configure the solution in the Realize phase."

\* Option C: To validate customer scopes and requirements against SAP S/4HANA Cloud Public Edition best practicesIncorrect. While BDCQs validate scopes, their primary role is to collect configuration data, not to validate requirements against best practices, which is done during Fit-to- Standard workshops. TheSAP S/4HANA Cloud Study Guideclarifies, "BDCQs focus on configuration data collection, while best practice validation occurs through process demonstrations in Fit-to-Standard workshops." Extract from Official Documentation:

\* SAP Activate Methodology Guide(SAP Community,<https://community.sap.com>): "Level 3 Business Driven Configuration

Questionnaires are used in Fit-to-Standard workshops to validate customer scopes and collect configuration values, providing the foundation for solution configuration in the Realize phase."

\* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "Level 3 BDCQs are detailed questionnaires that support Fit-to-Standard workshops by validating scope and gathering configuration data, ensuring accurate setup in the Realize phase." Additional Context:

Level 3 BDCQs are the most granular level of questionnaires, focusing on specific configuration details, making them critical for translating workshop outcomes into actionable configuration tasks. Their role in validating scope ensures alignment with customer needs while maintaining cloud compliance.

SAP S/4HANA Cloud Study Guide: Details BDCQ levels and usage.

SAP Activate Accelerators: Explains BDCQ purpose.

## 76. Frage

How is SAP's organizational change management framework connected with the SAP Activate methodology?

Note: There are 2 correct answers to this question.

- A. The start of each change management activity is assigned to one specific SAP Activate phase.
- B. Some change management activities are executed in more than one SAP Activate phase.
- C. Each change management dimension is assigned to a specific SAP Activate phase.
- D. The SAP Activate phases build the dimensions of the organizational change management framework.

Antwort: A,B

Begründung:

SAP's Organizational Change Management (OCM) framework is tightly integrated with the SAP Activate methodology to ensure effective adoption of SAP S/4HANA Cloud Public Edition. The connection between OCM and SAP Activate is structured to align change management with project phases.

\* Option A: Each change management dimension is assigned to a specific SAP Activate phase.

Incorrect. OCM dimensions (e.g., strategy, leadership, realization) span multiple phases, not one specific phase. The SAP S/4HANA Cloud OCM Guide states, "OCM dimensions are applied across the SAP Activate phases, not confined to a single phase."

\* Option B: The SAP Activate phases build the dimensions of the organizational change management framework. Incorrect. The OCM dimensions are predefined and independent, not built by SAP Activate phases. The SAP Activate Methodology Guide notes, "The OCM framework's dimensions are established to support SAP Activate, but the phases do not define the dimensions."

\* Option C: The start of each change management activity is assigned to one specific SAP Activate phase. Correct. Each OCM activity has a defined starting point within a specific SAP Activate phase, ensuring alignment with project milestones. The SAP S/4HANA Cloud OCM Guide explains, "Change management activities are mapped to specific SAP Activate phases, with clear starting points to ensure timely execution, such as stakeholder analysis in the Prepare phase."

\* Option D: Some change management activities are executed in more than one SAP Activate phase.

Correct. Activities like communication or training span multiple phases to sustain engagement. The SAP Activate Methodology Guide confirms, "Certain change management activities, such as stakeholder engagement and communication, are executed across multiple SAP Activate phases to maintain momentum and support adoption." Extract from Official Documentation:

\* SAP S/4HANA Cloud OCM Guide (SAP Help Portal, <https://help.sap.com>): "The OCM framework integrates with SAP Activate by assigning the start of each change management activity to a specific phase, while some activities, like communication, extend across multiple phases to ensure continuous engagement."

\* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "Change management activities are aligned with SAP Activate phases, with defined starting points for each activity and some activities spanning multiple phases to support sustained adoption." Additional Context:

The integration of OCM with SAP Activate ensures that change management is proactive and iterative, aligning with the agile nature of cloud implementations. This structured yet flexible approach maximizes user adoption and project success.

SAP Help Portal: SAP S/4HANA Cloud OCM Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details OCM integration.

SAP OCM Best Practices: Outlines OCM and Activate alignment.

### 77. Frage

What are some benefits for customers of using the SAP Activate methodology? Note: There are 3 correct answers to this question.

- A. It guides customers through the entire SAP S/4HANA Cloud lifecycle and provides quick value realization.
- B. It is designed to streamline the implementation process by reducing resource requirements from the customers and partners.
- C. It offers customers accelerators to help run their project as efficiently as possible.
- D. It relies on a traditional Waterfall approach for all project implementations, thus providing predictable outcomes.
- E. It contains time-phased instructions to help execute tasks throughout the implementation journey.

**Antwort: A,C,E**

Begründung:

The SAP Activate methodology is a structured framework designed to streamline SAP S/4HANA Cloud Public Edition implementations, offering specific benefits to customers through its agile and standardized approach.

\* Option A: It offers customers accelerators to help run their project as efficiently as possible.

Correct. SAP Activate provides accelerators such as templates, tools, and best practices to enhance project efficiency. The SAP Activate Methodology Guide states, "SAP Activate offers a rich set of accelerators, including templates, checklists, and tools like the Digital Discovery Assessment, to help customers execute projects efficiently and reduce implementation time."

\* Option B: It relies on a traditional Waterfall approach for all project implementations, thus providing predictable outcomes. Incorrect. SAP Activate is an agile, iterative methodology, not a traditional Waterfall approach. The SAP S/4HANA Cloud Implementation Guide clarifies, "SAP Activate adopts an agile approach with iterative sprints, unlike the rigid Waterfall methodology, enabling flexibility and faster value delivery."

\* Option C: It contains time-phased instructions to help execute tasks throughout the implementation journey. Correct. SAP Activate provides a phased roadmap with detailed, time-phased instructions for tasks across Discover, Prepare, Explore, Realize, Deploy, and Run phases. The SAP Activate Methodology Guide explains, "The methodology includes time-phased instructions and deliverables for each phase, guiding customers through the implementation journey with clear, structured tasks."

\* Option D: It is designed to streamline the implementation process by reducing resource requirements from the customers and partners. Incorrect. While SAP Activate streamlines processes, it does not specifically aim to reduce resource requirements; it focuses on efficiency and standardization. The SAP S/4HANA Cloud Study Guide notes, "SAP Activate optimizes implementation through standardization, but resource requirements depend on project scope, not a reduction goal."

\* Option E: It guides customers through the entire SAP S/4HANA Cloud lifecycle and provides quick value realization. Correct. SAP Activate supports the full lifecycle, from discovery to operations, and emphasizes rapid value delivery through agile practices. The SAP S/4HANA Cloud Implementation Guide confirms, "SAP Activate guides customers through the entire SAP S/4HANA Cloud lifecycle, enabling quick value realization through iterative deployments and best practices." Extract from Official Documentation:

\* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "SAP Activate provides customers with accelerators like templates and tools, time-phased instructions for each phase, and guidance through the entire SAP S/4HANA Cloud lifecycle, ensuring efficient projects and rapid value realization."

\* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "The SAP Activate methodology offers benefits such as accelerators for efficiency, a phased roadmap with clear instructions, and a focus on quick value realization, guiding customers from discovery to operations." Additional Context:

SAP Activate's agile and modular design, combined with its accelerators and phased approach, makes it ideal for cloud implementations, reducing risks and accelerating time-to-value. Its focus on the entire lifecycle ensures customers can sustain and optimize their SAP S/4HANA Cloud investment post-go-live.

:

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details SAP Activate benefits.

SAP Activate Accelerators: Outlines tools and templates.

### 78. Frage

Which embedded support offerings can you make use of in the SAP Fiori Launchpad? Note: There are 3 correct answers to this question.

- A. Digital assistance from generative AI (SAP Joule)
- B. Assessment questions from the SAP Learning Hub
- C. Recorded system simulations from the Learning Center
- D. Recorded webinars from the SAP Learning Website
- E. Video tutorials from the SAP Help Portal

**Antwort: A,C,E**

## 79. Frage

In the SAP Activate run phase the new system is monitored, maintained, and optimized to ensure it runs smoothly and efficiently. Which change management activity can only be realized in the run phase of the cloud implementation?

- A. Development of the user adoption strategy
- B. Mapping of SAP roles to employees
- C. Conduction of a pulse check
- D. Measurement of actual user adoption metrics

**Antwort: D**
