Answer: A,D

NEW QUESTION # 76

Which of the following can you send from SAP TM to SAP Extended Warehouse Management for warehouse execution?

- A. Freight order
- B. Forwarding order
- C. Vehicle resource
- D. Freight unit

Answer: A

NEW QUESTION # 77

The following settings are defined for a freight order from location A to location B with two freight units:

- * The distance between locations A and B in the transportation lane is 1500 km, the duration is 19 hours, and the Fix Transportation Duration flag is set.
 - * The average speed for the means of transport is defined as 100 km/h and the GIS quality flag is NOT set.
 - * Loading and unloading of each freight unit at locations A and B is defined as 1 hour.
 - * The vehicle resource is available weekdays from 8:00 am to 8:00 pm.
 - * Loading starts on Monday at 8:30 am.
- When is unloading finished?

- A. Tuesday 6:30 pm
- B. Tuesday 7:30 pm
- C. Tuesday 5:30 pm
- D. Tuesday 7:30 am

Answer: D

Explanation:

To determine when unloading is finished, we need to calculate the total time required for the transportation process, considering the given settings. According to the SAP S/4HANA Transportation Management documentation, the `Fix Transportation Duration` flag means the specified duration (19 hours) overrides the calculated duration based on distance and speed. Let's break down the timeline:

* Loading: Each freight unit takes 1 hour to load, and with two freight units, loading takes 2 hours (sequential, as per standard SAP TM behavior). Loading starts on Monday at 8:30 am and ends at 10:30 am.

* Transportation duration: The fixed duration is 19 hours, starting after loading (Monday 10:30 am).

Adding 19 hours:

* Monday 10:30 am + 19 hours = Tuesday 5:30 am.

* Unloading: Each freight unit takes 1 hour to unload, so two freight units require 2 hours. Unloading starts at Tuesday 5:30 am and ends at Tuesday 7:30 am.

* Vehicle availability: The vehicle is available from 8:00 am to 8:00 pm weekdays, but since the transportation starts within this window and the fixed duration does not mention breaks, we assume continuous transport within the 19-hour duration.

* GIS quality flag: Since it is not set, no additional geographical adjustments affect the duration.

Thus, unloading finishes at Tuesday 7:30 am.

The other options are incorrect:

* A (Tuesday 6:30 pm) and C (Tuesday 7:30 pm) assume longer durations, possibly ignoring the fixed duration or adding unnecessary breaks.

* D (Tuesday 5:30 pm) does not account for the unloading time correctly.
