SAP Certified Associate - Implementation Consultant - SAP SuccessFactors Recruiting: Recruiter Experience Sample Questions (Q51-Q56):

NEW QUESTION # 51

What happens when a job board is marked as preselect?

- A. The job board is available for the Posting Profile and the job must be posted to this job board.
- **B. The job board is available for the Posting Profile but the job does NOT have to be posted to this job board.**
- C. The job board is available for the Posting Profile and the job will be posted to this job board if NOT removed from the list during the posting process.

Answer: B

NEW QUESTION # 52

You have configured a custom field in the Job Requisition template and would like to use the custom field as a token in the Job Description and in the Recruiting E-mail templates.

How do you do this? Note: There are 2 correct answers to this question.

- A. Ensure the field is configured as a public field in the Job Requisition template.
- **B. Configure the field as token in Provisioning > Configure Custom Token Settings.**
- C. Add the field in the Job Requisition > Listing Layout Fields.
- **D. Configure the field as a reportable field within Provisioning > Configure Reportable Fields.**

Answer: B,D

Explanation:

To use a custom field as a token in Job Descriptions and Recruiting Email templates, certain configurations in Provisioning are required to ensure the field is recognized by the system as a token and is reportable.

Configure as a Token in Provisioning (Option A):

Go to Provisioning > Configure Custom Token Settings.

Add the custom field to be used as a token, enabling its availability in job descriptions and email templates.

Set as Reportable Field in Provisioning (Option D):

In Provisioning > Configure Reportable Fields, configure the field to ensure it is available in reports and other templates, including email and requisition templates.

Testing and Verification:

After configuration, test the token in a job description or email template to ensure it displays correctly.

Reference:

Explanation of Incorrect Options:

Option B: Listing Layout Fields relates to display settings on the job listing and does not impact token functionality.

Option C: Making the field public does not automatically configure it as a token.

NEW QUESTION # 53

Who can edit an existing recruiting group?

- A. The original creator of the recruiting group
- **B. All users with appropriate administrative permissions**
- C. All members of the recruiting group
- D. The original creator of the requisition template

Answer: B

Explanation:

In SAP SuccessFactors, recruiting groups are managed by users who hold the necessary administrative permissions. This ensures that individuals with relevant access can modify recruiting groups, which control user permissions for recruiting actions and processes.

Administrative Permissions Requirement:

Users with administrative permissions can access and edit existing recruiting groups, making adjustments to membership or permissions as necessary for recruiting functions.

Reference:

Explanation of Incorrect Options:

Option A (Original creator): Recruiting groups are not restricted to the original creator for editing.

Option C and D: The requisition template creator and group members do not automatically have editing rights without administrative permissions.

NEW QUESTION # 54

What triggers the country-specific overrides on an Application template?

- A. The country/region field used for candidate search filters in the Job Requisition template
- B. The country of the candidate captured in the Candidate Profile template
- **C. The derived country field in the Job Requisition template**
- D. The country of the candidate captured in the Application template

Answer: C

Explanation:

In the Application template, country-specific overrides are triggered based on the derived country field in the Job Requisition template. This field determines the location of the job and thereby activates any corresponding country-specific fields or configuration set in the application template.

* Define Derived Country Field in Job Requisition Template:

* The derived country field is specified in the Job Requisition template, allowing the system to determine which country-specific settings to apply.

* Activate Country-Specific Overrides:

* Once the derived country is identified, any predefined fields or layout adjustments for that country in the Application template are triggered.

: SAP SuccessFactors Recruiting Management Implementation Guide - Configuring Country-Specific Overrides in Application Templates.

Explanation of Incorrect Options:

Option A and Option C: These options refer to fields in the Application and Candidate Profile templates, which do not trigger country overrides for the application itself.

Option D: The candidate search filters do not control overrides in the application template.

NEW QUESTION # 55

Who can edit an existing recruiting group?

- A. The original creator of the recruiting group
- **B. All users with appropriate administrative permissions**
- C. All members of the recruiting group
- D. The original creator of the requisition template

Answer: B

Explanation:

In SAP SuccessFactors, recruiting groups are managed by users who hold the necessary administrative permissions. This ensures that individuals with relevant access can modify recruiting groups, which control user permissions for recruiting actions and processes.

Administrative Permissions Requirement:

Users with administrative permissions can access and edit existing recruiting groups, making adjustments to membership or permissions as necessary for recruiting functions.

Reference:

Explanation of Incorrect Options:

Option A (Original creator): Recruiting groups are not restricted to the original creator for editing.

Option C and D: The requisition template creator and group members do not automatically have editing rights without administrative permissions.
