C_S4CPR_2502 Prüfungsvorbereitung, C_S4CPR_2502 Pruefungssimulationen

ZertSoft spezialisiert sich auf die Schulungsunterlagen zur SAP C_S4CPR_2502 Zertifizierungsprüfung. Mit ZertSoft brauchen Sie sich keine Sorgen für die SAP C_S4CPR_2502 Zertifizierungsprüfung zu machen. Die Zertifizierungsantworten von ZertSoft sind qualitativ hochwertig. Sobald Sie ZertSoft wählen, können Sie in kurzer Zeit die Prüfung mit einer hohen Note die SAP C_S4CPR_2502 Zertifizierungsprüfung effizient bestehen und bessere Resultate bei weniger Einsatz erzielen.

SAP C_S4CPR_2502 Prüfungsplan:

Thema	Einzelheiten

Thema 1	<ul style="list-style-type: none"> • Implementation and Configuration for Sourcing and Procurement: This section of the exam measures skills of a SAP Sourcing and Procurement Consultant and covers the core configuration tasks required to set up sourcing and procurement processes in SAP S • 4HANA Cloud. It includes implementing purchase requisitions, purchase orders, approvals, sourcing, and invoice management while ensuring alignment with organizational procurement needs.
Thema 2	<ul style="list-style-type: none"> • Data Migration and Business Process Testing: This section of the exam measures skills of a SAP Data Migration Analyst and covers the tools and processes used to migrate legacy data into SAP S • 4HANA Cloud. It includes preparation, validation, execution of data loads, and conducting business process testing to ensure data accuracy and system readiness.
Thema 3	<ul style="list-style-type: none"> • Extensibility and Integration: This section of the exam measures skills of a SAP Integration Consultant and covers the basic principles of system extensibility and integration in SAP S • 4HANA Cloud. It touches upon in-app and side-by-side extensions as well as integrating with external systems through APIs and standard tools.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Sourcing and Procurement C_S4CPR_2502 Prüfungsfragen mit Lösungen (Q18-Q23):

18. Frage

You want to inform purchasers automatically when an RFQ is close to the quotation deadline but only a low number of supplier quotations have been received. How can you notify purchasers easily in SAP S/4HANA Cloud Public Edition?

- A. By creating new RFQs and sending with email
- B. By defining a workflow using flexible workflows
- C. By using the situation template in situation handling standard framework
- D. By developing an application using APIs to send notifications

Antwort: C

19. Frage

What are the key process flows of service procurement? Note: There are 3 correct answers to this question.

- A. Manage purchase orders
- B. Manage invoices
- C. Manage service contracts
- D. Maintain quota arrangements
- E. Manage service entry sheets

Antwort: A,B,E

20. Frage

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question.

- A. Demonstrate SAP Best Practice business processes in the starter system
- B. Conduct end-user training on active scope items.
- C. Determine set up instructions for customer-driven integrations.
- D. Highlight areas that require configuration or customization decisions.

Antwort: A,D

Begründung:

During Fit-to-Standard workshops, implementation consultants play a critical role in guiding customer experts through the evaluation of SAP Best Practices and identifying gaps between standard processes and customer-specific requirements. Below are the two

correct answers:

- * Highlight areas that require configuration or customization decisions (Option B): Consultants help customers identify areas where standard SAP processes may need adjustments to meet specific business needs. This includes highlighting configuration options and discussing potential customizations. The SAP S/4HANA Cloud Fit-to-Standard Workshop Guide emphasizes this responsibility.
- * Demonstrate SAP Best Practice business processes in the starter system (Option D): Consultants demonstrate how SAP Best Practices are implemented in the starter system, providing customers with a clear understanding of standard processes. This helps customers evaluate whether these processes align with their requirements. The same SAP S/4HANA Cloud Fit-to-Standard Workshop Guide documents this activity.
- * A. Conduct end-user training on active scope items: End-user training is typically conducted during the realization phase, not during Fit-to-Standard workshops. These workshops focus on process alignment rather than training.
- * C. Determine set up instructions for customer-driven integrations: While integrations are important, determining setup instructions is not a primary focus of Fit-to-Standard workshops. This activity is usually addressed during the integration design phase.
- * SAP S/4HANA Cloud Fit-to-Standard Workshop Guide: Explains the objectives and activities of Fit-to-Standard workshops, including demonstrating SAP Best Practices and identifying configuration needs. <https://help.sap.com>
- * SAP Activate Methodology for SAP S/4HANA Cloud Public Edition: Provides an overview of the Fit-to-Standard workshop phase and its deliverables.

21. Frage

What provides a foundation for the SAP Cloud ERP where integrations and extensions live?

- A. SAP Business Accelerator Hub
- **B. SAP Business Technology Platform**
- C. SAP ABAP Environment
- D. SAP Discovery Center

Antwort: B

Begründung:

The SAP Business Technology Platform (BTP) provides the foundation for SAP Cloud ERP, enabling integrations, extensions, and innovations. It serves as a unified platform for developing, integrating, and extending SAP solutions.

* SAP Business Technology Platform (Option D): SAP BTP is the underlying platform that supports integrations, extensions, and custom developments for SAP S/4HANA Cloud Public Edition. It includes tools like SAP Integration Suite, SAP Extension Suite, and SAP Analytics Cloud, which facilitate seamless connectivity and extensibility. The SAP BTP Documentation confirms its role as the foundation for SAP Cloud ERP.

* A. SAP Discovery Center: The SAP Discovery Center is a resource for exploring best practices, reference architectures, and implementation guidance but does not serve as the technical foundation for integrations and extensions.

* B. SAP Business Accelerator Hub: The SAP Business Accelerator Hub is a platform for testing and exploring APIs but does not provide the foundational infrastructure for SAP Cloud ERP.

* C. SAP ABAP Environment: The SAP ABAP Environment is a development environment for building custom applications but is not the overarching platform for integrations and extensions.

* SAP BTP Documentation: Explains the role of SAP Business Technology Platform in supporting SAP Cloud ERP. <https://help.sap.com>

* SAP S/4HANA Cloud Integration Guide: Provides details on how SAP BTP enables integrations and extensions for SAP S/4HANA Cloud Public Edition.

Why Option D is Correct: Why the Other Options Are Incorrect: Key References:

22. Frage

What is the characteristic of consignment in the Supplier Consignment (2LG) process?

- A. A supplier stores your material in its premises but has no liability on the consignment stock.
- **B. A supplier provides you with material that is stored on your premises but is still the property of the supplier.**
- C. A supplier provides you with material with agreed periods and you have the liability of the consignment stock.
- D. A supplier provides you with material with agreed periods that is stored in its premises.

Antwort: B
