Enhance Your Expertise and Attain Splunk SPLK-3002 Certification with Ease

Do you want to get the SPLK-3002 exam braindumps as quickly as you finish paying, then choose the SPLK-3002 study material of us, we can do this for you. You can pass the exam only just need to spend about 48 to 72 hours in practicing. The SPLK-3002 exam braindumps of us is verified by experienced experts, therefore the quality and the accuracy of the SPLK-3002 Study Materials can be guaranteed, and we also pass guarantee and money back guarantee for your fail to pass the exam.

Splunk IT Service Intelligence Certified Admin Sample Questions (Q59-Q64):

NEW QUESTION # 59

What effects does the KPI importance weight of 11 have on the overall health score of a service?

- A. It is a minimum health indicator KPI.
- B. The service will go critical.
- C. At least 10% of the KPIs will go critical.
- D. Importance weight is unused for health scoring.

Answer: D

Explanation:

Reference: <https://docs.splunk.com/Documentation/ITSI/4.10.2/SI/KPIImportance#:~:text=ITSI%20considers%20KPIs%20that%20have,other%20KPIs%20in%20the%20service>

The KPI importance weight is a value that indicates how much a KPI contributes to the overall health score of a service. The importance weight can range from 1 (lowest) to 10 (highest). The statement that applies when configuring a KPI importance weight of 11 is:

B). Importance weight is unused for health scoring. This is true because an importance weight of 11 is invalid and cannot be used for health scoring. The maximum value for importance weight is 10.

The other statements do not apply because:

A). At least 10% of the KPIs will go critical. This is not true because an importance weight of 11 does not affect the severity level of any KPIs.

C). The service will go critical. This is not true because an importance weight of 11 does not affect the health score or status of any service.

D). It is a minimum health indicator KPI. This is not true because an importance weight of 11 does not indicate anything about the minimum health level of a KPI.

NEW QUESTION # 60

Which of the following is a recommended best practice for service and glass table design?

- A. Start with base searches, then services, and then glass tables.
- B. Always use the standard icons for glass table widgets to improve portability.
- C. Plan and implement services first, then build detailed glass tables.
- D. Design glass tables first to discover which KPIs are important.

Answer: C

NEW QUESTION # 61

Which of the following is a characteristic of base searches?

- A. Search expression, entity splitting rules, and thresholds are configured at the base search level.
- B. The fewer KPIs that share a common base search, the more efficiency a base search provides, and anomaly detection is more efficient.
- C. It is possible to filter to entities assigned to the service for calculating the metrics for the service's KPIs.
- D. The base search will execute whether or not a KPI needs it.

Answer: C

NEW QUESTION # 62

When deploying ITSI on a distributed Splunk installation, which component must be installed on the search head(s)?

- A. ITSI app
- B. All ITSI components
- C. SA-ITSI-Licensechecker
- D. SA-ITOA

Answer: A

Explanation:

Install SA-ITSI-Licensechecker and SA-UserAccess on any license master in a distributed or search head cluster environment. If a search head in your environment is also a license master, the license master components are installed when you install ITSI on the search heads.

Reference: <https://docs.splunk.com/Documentation/ITSI/4.10.2/Install/InstallDD> When deploying ITSI on a distributed Splunk installation, the component that must be installed on the search head(s) is the ITSI app. The ITSI app contains the main features and functionality of ITSI, such as service creation and management, KPI configuration, glass table creation and editing, episode review, deep dives, and so on. The ITSI app also contains some add-ons that provide additional functionality, such as SA-ITOA (IT Operations Analytics), SA-UserAccess (User Access Management), and SA-Utils (Utility Functions). The ITSI app must be installed on the search head(s) because it handles the search management and presentation functions for ITSI. References: Install IT Service Intelligence in a distributed environment

NEW QUESTION # 63

Which of the following is a best practice for identifying the most effective services with which to start an iterative ITSI deployment?

- A. Analyze the business to determine the most critical services.
- B. Define a large number of key services early.
- C. Only include KPIs if they will be used in multiple services.
- D. Focus on low-level services.

Answer: C

NEW QUESTION # 64

.....

Our products boost 3 versions and varied functions. The 3 versions include the PDF version, PC version, APP online version. You can use the version you like and which suits you most to learn our Splunk IT Service Intelligence Certified Admin test practice dump. The 3 versions support different equipment and using method and boost their own merits and functions. For example, the PC version supports the computers with Window system and can stimulate the real exam.
