Then windows software of the Analytics-DA-201 Exam Questions, which needs to install on windows software. Also online engine of the Analytics-DA-201 study materials, which is convenient because it doesn't need to install on computers.

### Salesforce Certified Tableau Data Analyst Sample Questions (Q114-Q119):

#### NEW QUESTION # 114

Open the link to Book1 found on the desktop. Open the Movie Durations worksheet.  
Replace the existing data source with the Netflix\_2019 data source.

#### Answer:

Explanation:

check the steps below in explanation.

Explanation:

To replace the existing data source with the Netflix\_2019 data source, you need to do the following steps:

- \* Open the link to Book1 found on the desktop. This will open the Tableau workbook that contains the Movie Durations worksheet.
- \* Click on the Movie Durations tab at the bottom of the workbook to open the worksheet. You will see a bar chart that shows the number of movies by duration for the existing data source.
- \* Go to the Data Source tab at the bottom of the workbook to see the data source page. You will see a table that shows the fields and values from the existing data source.
- \* Click on the drop-down arrow next to the data source name at the top of the page and select Replace Data Source from the menu. This will open a dialog box that allows you to replace your data source with another one.
- \* Select Netflix\_2019 from the list of available data sources and click OK. This will replace your existing data source with the Netflix\_2019 data source and update your worksheet accordingly. You may need to fix any broken fields or calculations that result from the replacement.

#### NEW QUESTION # 115

You have a line chart on a worksheet.

You want to add a comment to March 2020 as shown in the following visualization.

What should you do?

- A. Annotate March 2020
- B. Add a tooltip
- C. Enable captions
- D. Drag the growth rate to Text on the Marks card

#### Answer: A

Explanation:

To add a comment to March 2020 on a line chart, you need to annotate that mark. You can right-click on the mark and select Annotate > Mark from the menu. This will open a dialog box where you can type your comment and format it as you like. You can also drag and drop the annotation to position it on the worksheet.

Dragging the growth rate to Text on the Marks card will add a label to every mark on the line chart, enabling captions will show a description of the worksheet at the bottom, and adding a tooltip will show a text box when users hover over a mark. References:

[https://help.tableau.com/current/pro/desktop/en-us/formatting\\_annotations.htm](https://help.tableau.com/current/pro/desktop/en-us/formatting_annotations.htm) <https://help.tableau.com/current/pro/desktop/en-us>

/formatting\_annotations\_create.htm

To add a comment to a specific point on a line chart, such as March 2020 in the provided visualization, you would use the 'Annotate' feature. Right-clicking on the data point for March 2020 and selecting 'Annotate' allows you to add a text annotation directly to the chart, which can be used to highlight and comment on that particular data point.

#### NEW QUESTION # 116

You have the following dashboard.

□ When a user selects a city on the map the data on the bar chart must show only the data for the selected city. The data in the bar chart must change only when the user selects a different city. How should you configure the dashboard action? (Use the dropdowns in the Answers Area to select the correct options.)

**Answer:**

Explanation:

□ Explanation:

To configure the dashboard action, you should select Filter as the action type, Select as the run action on option, and All Fields as the target filters option. This will ensure that when a user selects a city on the map, the bar chart will show only the data for the selected city based on all fields in common between the two worksheets. The action will run only when the user selects a different city. #### NEW QUESTION # 117

A Data Analyst has a data source that contains data for every city in the United States. The following is a sample of the data.

□ The analyst needs to use the City dimension to create a dynamic filter that shows the cities that have a population greater than 1 million.

Which type of filter should the analyst use?

- A. Condition
- B. Top
- C. Range
- D. Special

**Answer: A**

#### NEW QUESTION # 118

A Data Analyst has the following view.

□ The analyst wants to filter the view to show only records that have a movie name starting with the word "The". The analyst must achieve the goal without writing any formulas.

Which type of filter should the analyst use?

- A. Condition
- B. Wildcard
- C. General
- D. Top

**Answer: B**

#### NEW QUESTION # 119

.....
