As you if you have more time at home, you can use the Software version of OmniStudio-Developer exam materials. If you are a person who likes to take notes, you can choose the PDF version. You can print out the PDF version of OmniStudio-Developer Practice Engine, carry it with you and read it at any time. If you are used to reading on a mobile phone, you can use our APP version.

Salesforce Certified OmniStudio Developer Sample Questions (Q70-Q75):

NEW QUESTION # 70

A developer is creating an OmniScript that provisions trail orgs to their customers. The following text block in the Omniscript uses a merge code to display the ID for the new trail org:

Welcome to Salesforce!
Your ID is %sDetails:Customer|0:ID%

During testing, the developer notices that the ID does not display. The data JSON is structured as shown below.

How should the developer correct the merge code in order for the ID to display?

```
{  
  "Details": {  
    "Customer": [  
      {"ID": "123456"}  
    ]  
  }  
}
```

- A. To %Details: Customer|1: ID%
- B. To %sDetails: Customer|0: ID%
- C. To %sDetails: Customer|0: ID\$
- D. To %Details: Customer|n: ID%

Answer: A

Explanation:

The correct syntax for merge codes in OmniScript is %snodeName%%, where nodeName is the name of the JSON node in the data source. The other options are either missing the s or using incorrect symbols.

NEW QUESTION # 71

A developer creates a Flexcard that displays a contact's mailing address and passes the contact's postal code to a child FlexCard. When configuration text elements in the child FlexCard, what syntax should a developer use to refer to the contact's postal code?

- A. {Records.postalcode}
- B. {Params.postalcode}
- C. {Parent.postalcode}
- D. {Postalcode}

Answer: B

Explanation:

The Params node contains the data that is passed from the parent FlexCard to the child FlexCard. The developer should use {Params.postalcode} to refer to the contact's postal code in the child FlexCard.

NEW QUESTION # 72

A developer needs to create a list of cases for an account in a single Dataable in a FlexCard. Like the one shown below.

Origin	Type	Subject	Status	Created	CaseNumber	Priority
Web	Mechanical	Generator won't start	New	2020-07-22T00:22:42.000Z	00001028	High
Phone	Electrical	Component missing	Escalated	2020-07-22T00:21:41.000Z	00001027	High
Phone	Electrical	Starting generator after electrical failure	Escalated	2020-02-27T22:28:20.000Z	00001000	High
Web	Internal	Installation problem	Closed	2020-02-27T22:28:20.000Z	00001003	Low
Phone	Internal	Setting down of parameter	Closed	2020-02-27T22:28:20.000Z	00001017	Medium
Phone	Internal	Cannot start generator after electrical failure	Closed	2020-02-27T22:28:20.000Z	00001018	Medium

How can the developer configure the FlexCard to display the case records in this way?

- A. Enable the Repeat Records feature on the FlexCard Setup tab
- B. Enable the record Looping feature on the data table elements
- C. Select the Repeatable Mode property on the data table elements**
- D. Disable the Repeat Record feature on the FlexCard setup tab

Answer: C

Explanation:

The Repeatable Mode property on the data table elements allows the developer to display multiple records in a single data table. The Repeat Records feature on the FlexCard Setup tab is used to display multiple FlexCards for each record in a data source. The Record Looping feature on the data table elements is used to iterate over a list of records and perform actions on each record. The Overwrite Target for all Null input checkbox on the Account id field is used to overwrite the existing value in the target object with null if the input value is null.

NEW QUESTION # 73

An integration procedure contains a Remote Action element that calls a method of an APEXclass. The method requires two fields are input: Accountid and ProductId. The integration Procedure data JSON contains the following nodes:
How should the Remote Action element be configured to pass the data correctly to the method?

- A. Check the Send OnlyAdditional Input checkbox, and the following/ value pairs to Additional input:**
- B. Set Return Only Additional Output to true, and add the following Key/Value pairs to additional input.
- C. Check the DataRaptor Transform checkbox, and add the following Key/Value pairs to Output JSON Path:
- D. Add the following to Send JSON Path: accountId: %AccountId% ProductId% Details Products%

Answer: A

Explanation:

Checking the Send Only Additional Input checkbox allows the Remote Action element to send only the key/value pairs specified in Additional input to the Apex method. The Additional input should have the same keys as the method parameters, and the values should be set to {{InputData.node}} for each node. For example, AccountId: {{InputData.AccountId}} and ProductId: {{InputData.Details.Products}}.

NEW QUESTION # 74

Refer to the exhibit.

What JSON from the DRGetAccountDetails action would display all six values correctly in the OmniScript structure shown?
BlkContacts is a Repeat Block.

DRGetAccountDetails
DataMapper Extract Action

StepAccount
Step

Account & Contact Information

Account Name
salesforce
Account Phone

Navigate Action

```
{  
    "BLKContactList": [{"  
        "ContactPhone": "(212) 169-1475",  
        "ContactName": "Edward Stamos"  
    }, {  
        "ContactPhone": "(212) 169-5979",  
        "ContactName": "Leanne Tomlin"  
    }],  
    "AccountPhone": "2221546450",  
    "AccountName": "Acme"  
}
```

- A.

```
[  
    {"salesforce": {  
        "Phone": "(212) 169-1475",  
        "Name": "Edward Stamos"  
    }, {  
        "Phone": "(212) 169-5979",  
        "Name": "Leanne Tomlin"  
    }],  
    "AccountPhone": "2221546450",  
    "AccountName": "Acme"  
}
```

- B.

```
{  
    "ContactPhone": "(212) 169-1475",  
    "ContactName": "Edward Stamos",  
    "ContactPhone": "(212) 169-5979",  
    "ContactName": "Leanne Tomlin",  
    "AccountPhone": "2221546450",  
    "AccountName": "Acme"  
}
```

- C.

```
[  
    {"salesforce": {  
        "Contacts": [  
            {"ContactPhone": "(212) 169-1475",  
            "ContactName": "Edward Stamos"  
        }],  
        "AccountPhone": "2221546450",  
        "AccountName": "Acme"  
    }],  
    "AccountPhone": "2221546450",  
    "AccountName": "Acme"  
}
```

- D.

Answer: A

Explanation:

According to the OmniScript Data JSON page, the OmniScript structure JSON defines the data elements and their properties that are used in an OmniScript. The exhibit shows an OmniScript structure JSON with six elements: AccountName, AccountNumber, AccountType, AccountOwner, ContactName, and ContactPhone.

The DRGetAccountDetails action is a DataRaptor Extract action that retrieves data from the Account and Contact objects in Salesforce. The BlkContacts element is a Repeat Block that displays a list of contacts related to the account. Therefore, the JSON from the DRGetAccountDetails action that would display all six values correctly in the OmniScript structure shown is option C, which has the following structure:

{The other options have different structures that do not match the OmniScript structure shown. Therefore, the correct answer is C.

```
{  
  "AccountName": "Acme Corporation",  
  "AccountNumber": "ACME-001",  
  "AccountType": "Customer",  
  "AccountOwner": "John Smith",  
  "BlkContacts": [  
    {  
      "ContactName": "Alice Jones",  
      "ContactPhone": "(123) 456-7890"  
    },  
    {  
      "ContactName": "Bob Lee",  
      "ContactPhone": "(234) 567-8901"  
    }  
  ]  
}
```

NEW QUESTION # 75

.....

If you want to get a better job and relieve your employment pressure, it is essential for you to get the OmniStudio-Developer certification. However, due to the severe employment situation, more and more people have been crazy for passing the OmniStudio-Developer exam by taking examinations, the exam has also been more and more difficult to pass. Our OmniStudio-Developer test guide has become more and more popular in the world. Of course, if you decide to buy our OmniStudio-Developer latest question, we can make sure that it will be very easy for you to pass OmniStudio-Developer exam torrent that you can learn and practice it. Then you just need 20-30 hours to practice our study materials that you can attend your exam. It is really spend your little time and energy.
