GH-100 Study Materials | GH-100 Test Cram Pdf

No matter which country or region you are in, our GH-100 exam questions can provide you with thoughtful services to help you pass exam successfully for our GH-100 study materials are global and warmly praised by the loyal customers all over the world. They have many advantages, and if you want to know or try them before your payment, you can find the free demos of our GH-100 learning guide on our website, you can free download them to check the excellent quality.

Microsoft GitHub Administration Sample Questions (Q23-Q28):

NEW QUESTION # 23

Why would someone choose to configure a security policy?

- A. To prevent anyone from pushing to the repository without approval.
- B. To provide information on an open source repository for open source collaborators and researchers that may need to report and disclose sensitive security findings to maintainers securely.
- C. To define which open source packages are permitted for use as part of that repository.
- D. To communicate corporate security and compliance policies for end users on a private repository.

Answer: B

Explanation:

A security policy (the SECURITY.md file) lets maintainers of an open source repository provide clear, private instructions for collaborators and external researchers on how to report and disclose security vulnerabilities responsibly.

NEW QUESTION # 24

What is the new capability of GitHub's billing dashboard?

- **A. Enables tracking of GitHub Copilot usage by user**
- B. Allows self-service plan upgrades
- C. Automatically removes unused users from billing
- D. Offers real-time Slack alerts for billing

Answer: A

Explanation:

The revamped Billing&Licensing dashboard now includes a dedicated "Copilot" tab that shows per-user seat assignments, usage counts, and estimated costs for your organization's GitHub Copilot licenses, enabling you to track Copilot consumption by individual users.

NEW QUESTION # 25

Your organization is implementing team synchronization. Which of the following should you prioritize during the setup process?

- **A. Clearly define how identity provider groups will align with GitHub teams and roles**
- B. Allowing manual updates to team memberships
- C. Disabling the audit log stream
- D. Setting an infrequent sync schedule to reduce performance impact

Answer: A

Explanation:

Before you enable team synchronization, you should clearly define how groups in your identity provider will map to GitHub teams and roles - ensuring that when the sync runs, users land in the correct teams with the right permissions.

NEW QUESTION # 26

Which of the following correctly describes the difference between controlling actions at the enterprise level versus the organization level in GitHub?

- A. Enterprise policies and organization policies are independent, with organization policies taking precedence for repositories within the organization.
- B. Enterprise policies can block specific actions, while organization policies can only enable or disable actions entirely.
- C. Enterprise policies apply only to public repositories, while organization policies apply to public, internal, and private repositories.
- **D. Enterprise policies configure mandatory settings for organizations.**

Answer: D

Explanation:

Enterprise policies let you define and enforce mandatory settings across all member organizations - organization-level policies then operate within the options that the enterprise policy exposes.

NEW QUESTION # 27

Which of the following is the responsibility of an Organization Owner in GitHub? (Choose three.)

- A. Access repositories only if explicitly granted by a team maintainer.
- **B. View and manage organization billing information.**
- **C. Manage organization settings, such as configuration and default permissions.**

- **D. Create repositories without approval from other members.**

Answer: B,C,D

Explanation:

Organization owners can view and edit billing information for the organization.

Organization owners may create new repositories in the organization without needing approval from other members.

Organization owners have full administrative control over organization settings, including configuring default repository permissions.

NEW QUESTION # 28

.....
