Fast Download Valid Braindumps DCPLA Ppt & Guaranteed DSCI DCPLA Exam Success with Excellent DCPLA Reliable Braindumps

Our company have the higher class operation system than other companies, so we can assure you that you can start to prepare for the DCPLA exam with our study materials in the shortest time. In addition, if you decide to buy DCPLA exam materials from our company, we can make sure that your benefits will far exceed the costs of you. The rate of return will be very obvious for you. We sincerely reassure all people on the DCPLA Test Question from our company and enjoy the benefits that our study materials bring. We believe that our study materials will have the ability to help all people pass their DCPLA exam and get the related exam in the near future.

DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q82-Q87):

NEW QUESTION # 82
The concept of data adequacy is based on the principle of _____.

- A. Dissimilarity of legislations
- B. Adequate compliance
- C. Essential assessment
- D. Essential equivalence

Answer: D

Explanation:
Data adequacy is a concept primarily referenced under international data transfer mechanisms, especially in GDPR and mirrored in Indian and global privacy frameworks. The idea is that a country can receive personal data from another country if it ensures an "adequate level of protection".
This level is determined not by exact replication of laws but by their "Essential Equivalence" to the originating country's standards.
The principle of "Essential Equivalence" means that although the laws do not have to be identical, they must offer comparable protection in practice. This is the benchmark used by authorities like the EU Commission and reflected in frameworks including DPF©.

NEW QUESTION # 83
Categorise the following statement:
"For an identified data leakage scenario, security team is struggling to configure rules."

- A. Enforcement
- B. Capability
- C. Visibility
- D. Demonstration

Answer: B

Explanation:
The statement reflects an organization's difficulty in operationalizing privacy safeguards in response to a known threat scenario.
According to the DSCI Assessment Framework for Privacy (DAF-P©), "Capability" refers to an organization's ability to implement and maintain technical, procedural, and administrative controls effectively.
A struggling security team in configuring rules for a known leakage scenario indicates a gap in technical expertise or resources, which directly correlates with a lack of "Capability." This category assesses how prepared an organization is in deploying privacy controls, managing incidents, and aligning security technologies with privacy requirements.
Thus, the challenge in configuring protective rules is best categorized under "Capability" as it denotes a functional inadequacy in handling privacy-related incidents.

NEW QUESTION # 84
Can a DSCI Certified Lead Assessor for Privacy, not currently an employee of a DSCI Accredited Organization, conduct external assessment leading to DSCI Privacy certification?

- A. True

- B. False

Answer: A

NEW QUESTION # 85

The assessor organization can issue the DSCI certification to the assessee organization if it is satisfied with the assessment outcome.

- A. True
- B. False

Answer: A

NEW QUESTION # 86

Before planning the assessment, priority areas need to be determined by conducting a Risk Management exercise. To adequately identify such priority areas, what possible parameters could be considered? (Tick all that apply)

- A. Functions / processes involved in data collection from end customers
- B. Functions / processes dealing with sensitive personal information such as Personal Health Information (PHI), credit card information, biometrics, among others
- C. Business-related IP dealt by a process/function
- D. Deployment of technology solutions that could potentially intrude privacy
- E. Degree of involvement of third parties in processing personal information
- F. Degree of harm that could result from potential privacy breach

Answer: A,B,D,E,F

Explanation:
According to the DSCI Assessment Framework for Privacy (DAF-P©), risk-based prioritization is essential in planning privacy assessments. Organizations are advised to consider parameters such as the degree of harm from a potential privacy breach, the involvement of processes that handle sensitive personal data (e.g., PHI or biometrics), technology solutions that may affect privacy, and the extent of third-party involvement. These help determine the areas with high privacy risks needing immediate attention.
C (business-related IP) is typically an information security concern, not a privacy concern unless it involves personal data.

NEW QUESTION # 87
......

Actual4Cert is aware of your busy routine; therefore, it has made the DSCI Certified Privacy Lead Assessor DCPLA certification DCPLA dumps format to facilitate you to prepare for the DSCI Certified Privacy Lead Assessor DCPLA certification DCPLA exam.
