

Highly Authoritative PDI Learning Question Will Help You Pass Your Exam - DumpExam

P.S. Free & New PDI dumps are available on Google Drive shared by DumpExam: https://drive.google.com/open?id=1ChGheqbZiEVijIWDe_3glRgeYfWQrZs0

Our clients come from all around the world and our company sends the products to them quickly. The clients only need to choose the version of the product, fill in the correct mails and pay for our Platform Developer I (PDI) guide dump. Then they will receive our mails in 5-10 minutes. Once the clients click on the links they can use our PDI Study Materials immediately. If the clients can't receive the mails they can contact our online customer service and they will help them solve the problem. Finally the clients will receive the mails successfully. The purchase procedures are simple and the delivery of our PDI study tool is fast.

If you prefer to Practice PDI Exam dumps on paper, you can try the exam dumps of us. PDI PDF version is printable, and you can take some notes on it and can practice them anytime. Besides through using PDI e questions and answers of us, you can pass the exam and get a certificate successfully. We offer you pass guarantee and money back guarantee if you fail to pass the exam. Once you have made your decision, just add them into your cart and pay for it, we will send the downloading link in ten minutes.

PDI Real Dump - High Pass-Rate Salesforce PDI Best Practice: Platform Developer I (PDI)

On the one hand, according to the statistics from the feedback of all of our customers, the pass rate among our customers who prepared for the exam with the help of our PDI guide torrent has reached as high as 98% to 100%. On the other hand, the simulation test is available in our software version, which is useful for you to get accustomed to the PDI Exam atmosphere. Please believe us that our PDI torrent question is the best choice for you.

Salesforce Platform Developer I (PDI) Sample Questions (Q109-Q114):

NEW QUESTION # 109

A developer must create a DrawList class that provides capabilities defined in the Sortable and Drawable interfaces.

Which is the correct implementation?

- A. Option B
- B. Option D
- C. Option C
- D. Option A

Answer: A

Explanation:

- * Interfaces in Java and Salesforce Apex:

- * In Java or Apex, interfaces define a contract that classes must fulfill. They provide method signatures that any implementing class must define.

- * The keyword implements is used to implement an interface.

- * Classes and Inheritance:

- * A class in Java/Apex cannot use extends to inherit from an interface. The extends keyword is reserved for inheriting from another class, while implements is used for interfaces.

- * Multiple Interfaces:

- * A class can implement multiple interfaces in both Java and Salesforce Apex. This is done by separating interface names with commas after the implements keyword.

Correct Syntax:

To create a DrawList class that implements both Sortable and Drawable interfaces, the syntax must:

- * Use implements for interfaces.

- * Provide implementations for all methods defined in the interfaces.

Analysis of Options:

- * Option A:

- * Uses implements for each interface separately, which is syntactically incorrect in Java/Apex.

- * Invalid due to redundancy.

- * Option B:

- * Correctly uses implements for multiple interfaces separated by a comma.

- * Provides implementations for both methods, sort() and draw().

- * Option C and D:

- * Use extends for interfaces, which is invalid. Interfaces cannot be extended by classes.

Final Implementation:

```
public class DrawList implements Sortable, Drawable {  
    public void sort() {  
        // Implementation of sort method  
    }  
    public void draw() {  
        // Implementation of draw method  
    }  
}
```

References:

- * Apex Classes and Interfaces Documentation

- * Trailhead Module on Apex Interfaces

Option B is the correct implementation as it adheres to the rules for working with interfaces in Java/Apex.

NEW QUESTION # 110

A developer needs to have records with specific field values in order to test a new Apex class.

What should the developer do to ensure the data is available to the test?

- A. Use Anonymous Apex to create the required data.
- **B. Use Test.loadData() and reference a CSV file in a static resource.**
- C. Use test.loadData() and reference a JSON file in Documents.
- D. Use SOQL to query the org for the required data.

Answer: B

Explanation:

To ensure that specific data is available in test methods, the developer should create test data within the test context.

Option B: Use Test.loadData() and reference a CSV file in a static resource.

Correct Approach.

Test.loadData() is a method that allows test methods to load test data from a CSV file stored as a static resource.

This method creates the records in the test context, ensuring that the data is available during the test execution.

Using a CSV file makes it easy to define multiple records with specific field values.

Usage Example:

```
@isTest  
private class MyTestClass {  
    @isTest
```

```

static void testMethod() {
    List<MyObject__c> testRecords = (List<MyObject__c>) Test.loadData(MyObject__c.sObjectType, 'MyTestData');
    // Proceed with testing using testRecords
}
}

```

Where 'MyTestData' is the name of the static resource containing the CSV file.

Test.loadData() does not support loading data from JSON files or from the Documents object.

It uses CSV files stored as static resources.

Option C: Use Anonymous Apex to create the required data.

Not Effective for Testing.

Data created via Anonymous Apex is not available in test methods due to data isolation.

Test methods operate in their own context and cannot access data created outside the test unless SeeAllData=true is used, which is discouraged.

Option D: Use SOQL to query the org for the required data.

Not Recommended.

Test methods should not rely on existing org data.

Tests should create their own data to ensure consistency and avoid dependencies.

Using SeeAllData=true is discouraged.

Conclusion:

To ensure that records with specific field values are available in the test, the developer should use Test.loadData() with a CSV file stored in a static resource.

Therefore, Option B is the correct answer.

Reference:

Test.loadData() Method

Static Resources

Options Not Suitable:

Option A: Use test.loadData() and reference a JSON file in Documents.

Incorrect.

NEW QUESTION # 111

When a user edits the Postal Code on an Account, a custom Account text field named "Timezone" must be updated based on the values in another custom object called PostalCodeToTimezone__c.

What is the optimal way to implement this feature?

- **A. Build a flow with Flow Builder.**
- B. Create a formula field.
- C. Build an account assignment rule.
- D. Create an account approval process.

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Flow Builder is designed for automating business processes declaratively. In this scenario, it can be configured to update the Timezone field on Account whenever the Postal Code is changed by querying the PostalCodeToTimezone__c object and updating the Account accordingly.

Reference:

Flow Builder Guide

NEW QUESTION # 112

The following Apex method is part of the ContactService class that is called from a trigger: public static void

setBusinessUnitToEMEA(Contact thisContact){ thisContact.Business_Unit__c = "EMEA"; update thisContact; } How should the developer modify the code to ensure best practice are met?

- **A. Public static void setBusinessUnitToEMEA(Contact thisContact){
List<Contact> contacts = new List<Contact>();
contacts.add(thisContact.Business_Unit__c = 'EMEA');
update contacts;**

- ```

 }
 • B. Public void setBusinessUnitToEMEA(List<Contact> contatcs){
 contacts[0].Business_Unit__c = 'EMEA' ;
 update contacts[0];
 }
 • C. Public static void setBusinessUnitToEMEA(List<Contact> contacts){
 for(Contact thisContact : contacts){
 thisContact.Business_Unit__c = 'EMEA' ;
 update contacts[0];
 }
 }
 • D. Public static void setBusinessUnitToEMEA(List<Contact> contacts){
 for(Contact thisContact : contacts) {
 thisContact.Business_Unit__c = 'EMEA' ;
 }
 update contacts;
 }

```

**Answer: A**

### NEW QUESTION # 113

Refer to the following code that runs in an Execute Anonymous block:

□

- A. The transaction will succeed and the first ten thousand records will be committed to the database.
- **B. The total number of records processed as a result of DML statements will be exceeded**
- C. In an environment where the full result set is returned, what is a possible outcome of this code?
- D. The total number of records processed as a result of DML statements will be exceeded.
- E. The total number of DML statements will be exceeded.

**Answer: B**

### NEW QUESTION # 114

.....

The 21 century is the information century. So there are many changes in the field of the PDI exam questions. They are also transforming people's lives and the mode of operation of human society in a profound way. when you are preparing for an PDI exam, our company can provide the best electronic PDI Exam Torrent for you in this website. I strongly believe that under the guidance of our PDI test torrent, you will be able to keep out of troubles way and take everything in your stride.

**PDI Best Practice:** <https://www.dumpexam.com/PDI-valid-torrent.html>

Salesforce PDI Real Dump The office workers are both busy in their jobs and their family life and the students must learn or do other things, Salesforce PDI Real Dump You can do many other things like relaxation and study, For the recognition of skills and knowledge, more career opportunities, professional development, and higher salary potential, the Salesforce PDI certification exam is the proven way to achieve these tasks quickly, This Platform Developer I (PDI) (PDI) exam simulation software enables you to track your progress and quantify how much you have improved.

Designing web galleries can be a tedious process if you don't PDI have the right tools, This is not new news, but the amount of coverage these themes are getting seems to be accelerating.

The office workers are both busy in their jobs and their family PDI Latest Test Fee life and the students must learn or do other things, You can do many other things like relaxation and study.

## 2026 PDI Real Dump | Efficient PDI Best Practice: Platform Developer I (PDI)

For the recognition of skills and knowledge, more career opportunities, professional development, and higher salary potential, the Salesforce PDI Certification Exam is the proven way to achieve these tasks quickly.

This Platform Developer I (PDI) (PDI) exam simulation software enables you to track your progress and quantify how much you have improved. Just look at the joyful feedbacks from our worthy customers who had passed their exams and get the according certifications, they have been leading a better life now with the help of our PDI learning guide.
