NEW QUESTION # 86

Which of the following is the FIRST step in the process of assessing energy performance and setting goals?

- **A. Collecting and tracking data**
- B. Benchmarking performance against similar properties
- C. Setting a baseline to evaluate future energy use
- D. Setting goals for future energy performance

Answer: A

Explanation:

The first step in assessing energy performance is collecting and tracking data. This foundational step allows for a clear understanding of the current energy usage, which is essential for setting a baseline and subsequently benchmarking performance or setting energy goals.

NEW QUESTION # 87

What is the BEST way to identify loss exposures related to a building's mechanical, electrical, and plumbing systems?

- A. Security inspection
- B. Legal document inspection
- **C. Physical property inspection**
- D. Deed inspection

Answer: C

NEW QUESTION # 88

Which of the following is LEAST likely to be collected by a property manager?

- A. Percentage rent
- B. Operating expense increases
- **C. Property tax on tenant fixtures**
- D. Monthly rent

Answer: C

Explanation:

Property managers typically collect monthly rent, operating expense increases, and percentage rent as part of lease agreements. However, property tax on tenant fixtures is usually the responsibility of the tenant and handled directly with the taxing authority, making it the least likely to be collected by the property manager.

NEW QUESTION # 89

What is the MOST effective strategy a property manager should use to solicit tenant input for developing a building-wide risk mitigation plan?

- A. Call one tenant every week to ask about workplace hazards.
- B. Hire a third-party environmental consultant to contact tenants to ask about Occupational Safety and Health Act (OSHA) compliance.
- **C. Include a survey in tenant rent billings.**
- D. Host tenant events to identify the information leaders in each organization.

Answer: C

NEW QUESTION # 90

A property manager is overseeing a tenant improvement project in an older office building. Asbestos insulation was discovered behind the walls. Which type of project change BEST describes this delay?

- A. Disruptive
- B. Accelerated
- C. Constructive
- D. Actual

Answer: A

Explanation:

Analysis:

- * A. Accelerated- Refers to speeding up a project, not applicable here.
- * B. Actual- Too generic and doesn't specify the nature of the issue.
- * C. Constructive- Usually refers to implied or unspoken changes or obligations, not unexpected delays due to discovered conditions.
- * D. Disruptive-#The presence of asbestos is an unforeseen condition that halts or delays the work. This is best described as a disruptive change.
