Microsoft Power Platform Functional Consultant Sample Questions (Q163-

Q168):

NEW QUESTION # 163

A company creates a Microsoft Power Apps app through the Power Apps designer portal for use in Microsoft Teams.
This app needs to be promoted to the user acceptance testing environment.
You reed to complete the Microsoft recommended actions before you export the solution.
Which two actions should you complete? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

- A. Publish all changes.
- B. Write validation tests.
- C. Set the Optimized embedding appearance field to true.
- D. Run the solution checker.
- E. Clone a solution.

Answer: D,E

Explanation:
Explanation
The Power Apps solution checker performs a rich static analysis check on your solutions against a set of best practice rules to quickly identify problematic patterns. After the check completes, you receive a detailed report that lists the issues identified, the components and code affected, and links to documentation that describes how to resolve each issue.
The solution checker analyzes these solution components:
Common Data Service plug-ins
Common Data Service custom workflow activities
Common Data Service web resources (HTML and JavaScript)
Common Data Service configurations, such as SDK message steps

NEW QUESTION # 164

A company uses Power Apps.
Users must be able to view only the address1 columns in the Account table.
You need to ensure other address columns are not visible to users when creating views and filters.
What should you do?

- A. Create business rules to hide the other address columns.
- B. Delete the other address columns from the table.
- C. Use column-level security to remove read access to all users.
- D. Disable the Search option for the columns.

Answer: D

Explanation:
Searchable - When a field is searchable it appears in Advanced Find and is available when customizing views. Use this when there are fields for the entity that you don't use. Setting this to No will reduce the number of options shown to people using advanced find.
