

# Free Download NSE4\_FGT\_AD-7.6 Test Testking | Valid NSE4\_FGT\_AD-7.6 Test Practice: Fortinet NSE 4 - FortiOS 7.6 Administrator

What's more, part of that PassReview NSE4\_FGT\_AD-7.6 dumps now are free: <https://drive.google.com/open?id=1Ml0ZmnwROgs05iG3Mt0rG52CngCI0PMT>

Our Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) practice exam simulator mirrors the Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) exam experience, so you know what to anticipate on Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) certification exam day. Our Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) practice test software features various question styles and levels, so you can customize your Fortinet NSE4\_FGT\_AD-7.6 exam questions preparation to meet your needs.

We promise you that if you fail to pass the exam in your first attempt after using NSE4\_FGT\_AD-7.6 training materials of us, we will give you full refund. And we are also pass guarantee and money back guarantee. In addition, NSE4\_FGT\_AD-7.6 exam dumps are edited by skilled experts, and they are quite familiar with the exam center, therefore, if you choose us, you can know the latest information for the exam timely. We provide you with free update for 365 days for NSE4\_FGT\_AD-7.6 Exam Training materials and the update version will be sent to your email address automatically.

## Fortinet NSE4\_FGT\_AD-7.6 Exam Practice Test To Gain Brilliance Result

The NSE4\_FGT\_AD-7.6 exam requires a lot of preparation, hard work, and practice to be successful. To pass the Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) test, you need to get updated Fortinet NSE4\_FGT\_AD-7.6 dumps. These NSE4\_FGT\_AD-7.6 questions are necessary to study for the test and pass it on the first try. Updated NSE4\_FGT\_AD-7.6 Practice Questions are essential prepare successfully for the Fortinet NSE 4 - FortiOS 7.6 Administrator certification exam. But gaining access to updated NSE4\_FGT\_AD-7.6 questions is challenging for the candidates.

## Fortinet NSE 4 - FortiOS 7.6 Administrator Sample Questions (Q89-Q94):

### NEW QUESTION # 89

An administrator configured a FortiGate device to act as a collector for agentless polling mode. What must the administrator add to the FortiGate device to retrieve AD user group information?

- A. Keycloak server
- **B. LDAP server**
- C. TACACS server
- D. RADIUS server

**Answer: B**

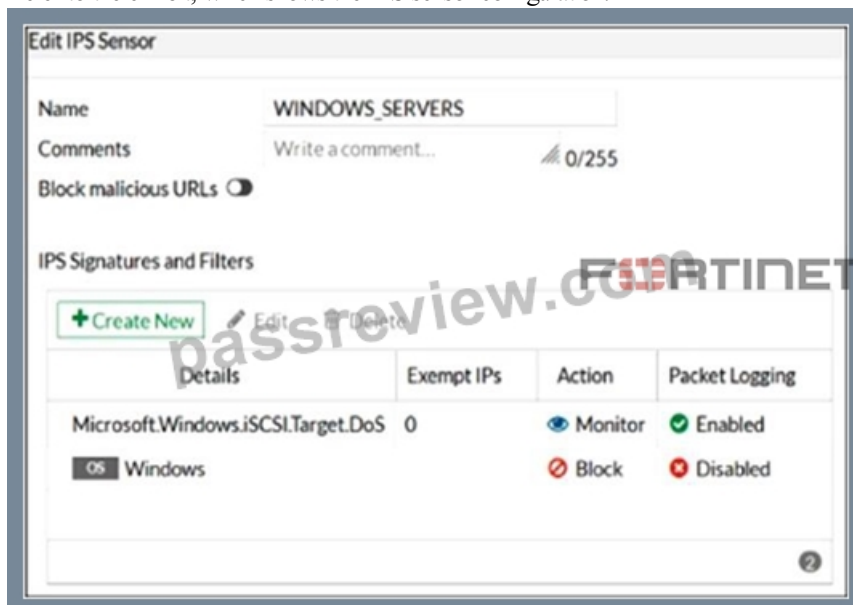

Explanation:

If FortiGate is acting as a collector for agentless polling mode, you must select Poll Active Directory Server and configure the IP addresses and AD administrator credentials for each DC.

FortiGate uses LDAP to query AD to retrieve user group information. For this to happen, you must add the LDAP server to the Poll Active Directory Server configuration.

### NEW QUESTION # 90

Refer to the exhibit, which shows the IPS sensor configuration.

If traffic matches this IPS sensor, which two actions is the sensor expected to take? (Choose two.)

- **A. The sensor will allow attackers matching the Microsoft.Windows.iSCSI.Target.DoS signature.**
- **B. The sensor will block all attacks aimed at Windows servers.**
- C. The sensor will reset all connections that match these signatures.
- D. The sensor will gather a packet log for all matched traffic.

**Answer: A,B**

Explanation:

The sensor will allow attackers matching the Microsoft.Windows.iSCSI.Target.DoS signature.

The action for this specific signature is set to Monitor, which means FortiGate will only detect and log the activity but will not block or reset the session.

The sensor will block all attacks aimed at Windows servers.

The general Windows filter is configured with the Block action, so any traffic matching Windows- related attack signatures will be blocked.

### NEW QUESTION # 91

Refer to the exhibit, which shows a partial configuration from the remote authentication server.

Attribute	Value	Vendor	Actions
Fortinet-Group-Name	Training	Fortinet	 

Why does the FortiGate administrator need this configuration?

- A. To authenticate Any FortiGate user groups.
- B. To authenticate and match the Training OU on the RADIUS server.
- C. To set up a RADIUS server Secret.
- **D. To authenticate only the Training user group.**

**Answer: D**

Explanation:

The Fortinet-Group-Name attribute is used to restrict authentication to users who belong specifically to the "Training" user group on the RADIUS server.

### NEW QUESTION # 92

FortiGate is operating in NAT mode and has two physical interfaces connected to the LAN and DMZ networks respectively. Which two statements about the requirements of connected physical interfaces on FortiGate are true? (Choose two.)

- A. Both interfaces must have DHCP enabled and interfaces set to LAN and DMZ roles assigned.
- **B. Both interfaces must have directly connected routes on the routing table.**
- **C. Both interfaces must have IP addresses assigned.**
- D. Both interfaces must have the interface role assigned.

**Answer: B,C**

Explanation:

In FortiOS 7.6, when a FortiGate is operating in NAT mode, physical interfaces that participate in traffic forwarding (such as LAN and DMZ) must meet certain fundamental requirements.

Correct statements

D . Both interfaces must have IP addresses assigned.

Correct

In NAT mode, FortiGate operates as a Layer-3 device.

Every interface that forwards traffic must have an IP address.

Without an IP address:

The interface cannot participate in routing

Firewall policies cannot be applied correctly

This is a mandatory requirement.

C . Both interfaces must have directly connected routes on the routing table.

Correct

When an IP address is assigned to an interface, FortiGate automatically installs a connected route for that subnet in the routing table.

These connected routes are required so FortiGate:

Knows how to reach the locally attached networks

Can forward traffic between LAN and DMZ

While administrators do not manually create these routes, their presence is required for correct operation.

Why the other options are incorrect

A . Both interfaces must have DHCP enabled and roles assigned.

Incorrect

DHCP is optional; interfaces can use static IPs.

Interface roles (LAN, DMZ, WAN) are administrative/GUI aids, not functional requirements.

B . Both interfaces must have the interface role assigned.

Incorrect

Interface roles affect GUI grouping and some default behavior.

They are not required for NAT mode operation or traffic forwarding.

### NEW QUESTION # 93

Refer to the exhibits.

**Network diagram**

**NAT IP pool configuration**

Name	External IP Range	Type	ARP Reply
SNAT-Pool	10.200.1.49 - 10.200.1.49	Overload	Enabled
SNAT-Remote	10.200.1.149 - 10.200.1.149	Overload	Enabled
SNAT-Remote1	10.200.1.99 - 10.200.1.99	Overload	Enabled

**Firewall policy**

ID	Name	Source	Destination	Schedule	Service	Action	IP Pool	NAT
2	TCP traffic	all	REMOTE_FORTIGATE	always	ALL_TCP	ACCEPT	SNAT-Pool	NAT
6	PING traffic	all	all	always	PING	ACCEPT	SNAT-Remote1	NAT
7	IGMP traffic	all	all	always	IGMP	ACCEPT	SNAT-Remote	NAT

The exhibits show a diagram of a FortiGate device connected to the network, as well as the IP pool configuration and firewall policy objects.

The WAN (port1) interface has the IP address 10.200.1.1/24.

The LAN (port3) interface has the IP address 10.0.1.254/24.

Which IP address will be used to source NAT (SNAT) the traffic, if the user on Local-Client (10.0.1.10) pings the IP address of Remote-FortiGate (10.200.3.1)?

- A. 10.200.1.49
- B. 10.200.1.99
- C. 10.200.1.1
- D. 10.200.1.149

**Answer: B**

Explanation:

All\_TCP doesn't include ICMP. So you would match rule ID 2, in which uses IP Pool remote 1.

### NEW QUESTION # 94

.....

A bold attempt is half success. Stop hesitating again, just try and choose our NSE4\_FGT\_AD-7.6 test braindump. Please trust me, if you pay attention on dumps content, even just remember the questions and answers you will clear your exam surely.

NSE4\_FGT\_AD-7.6 test braindump will be the right key to your exam success. As long as the road is right, success is near. Don't be over-anxious, wasting time is robbing oneself. Our Fortinet NSE4\_FGT\_AD-7.6 test braindump will be definitely useful for your test and 100% valid. Money Back Guaranteed!
