So the quality of our MS-700 practice materials is very high and we can guarantee to you that you will have few difficulties to pass the exam.

Microsoft Managing Microsoft Teams Sample Questions (Q309-Q314):

NEW QUESTION # 309

Task 12

A company named Contoso, Ltd, plans to deploy Teams Phone with location-based emergency dialing.

You need to ensure that when users dial emergency numbers, the call is routed based on the user's current location. You do NOT need to configure networks and locations at this time.

Answer:

Explanation:

See the solution in the explanation below

Explanation:

To ensure that when users dial emergency numbers, the call is routed based on the user's current location, you need to enable the external location lookup mode in Teams. This mode allows Teams to use the location services of the device's operating system to suggest an emergency address for the user. The user can then confirm, edit, or enter a new address, which will be used to route the

emergency call to the appropriate Public Safety Answering Point (PSAP). Here are the steps to follow:

Sign in to the Teams admin center with your admin credentials.

Go to Voice > Emergency policies.

Select Add.

Enter a name for the emergency calling policy, for example, "E911WFH".

Turn on External location lookup mode.

Select Apply to create the policy.

To assign the policy to the users who need it, go to Users on the left menu and select the users that you want to apply the policy to.

You can use the filters or the search box to find them.

On the right pane, under Policies, select Edit next to Emergency calling policy.

Choose the policy that you created from the drop-down list and click Apply.

NEW QUESTION # 310

You have a Microsoft 365 subscription.

You need to configure the following for all users:

Prevent the use of third-party apps in Microsoft Teams.

Configure the Microsoft Teams app navigation bar.

The solution must minimize administrative effort.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

NEW QUESTION # 311

Your company has a Microsoft 365 subscription that uses Phone System.

Two employees have the user account shown in the following table.

☐

The employees are leaving the company.

You need to ensure that the phone numbers can be reassigned to other employees as quickly as possible.

What should you use for each employee? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

Explanation:

1. The Microsoft Team admin center

2. The Set-CsUser cmdlet

NEW QUESTION # 312

You have a Microsoft 365 subscription that uses Teams.

You have two teams named Department! and Department.

You need to implement a security and compliance solution that meets the following requirements:

* Prevents the members of Department! and Department from communicating with each other in Teams

* Provides an alert if offensive language is used during a Teams chat

Which Microsoft Purview feature should you use for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

□ Explanation

You need to recommend a voice topology for the departments. The topology must meet the calling requirements and the security requirements.

NOTE: Each correct selection is worth one point.
