ISACA COBIT 2019 Foundation Sample Questions (Q59-Q64):

NEW QUESTION # 59

Which of the following is a PRIMARY benefit associated with the management objective "managed strategy"?

- A. Service delivery is facilitated by adopting the latest technology innovations.
- B. Desired value is delivered through a roadmap of incremental changes.

- C. Effective communication channels are established across all levels of management.

Answer: B

Explanation:

Explanation

The management objective "managed strategy" belongs to the governance domain "align, plan and organize (APO)", which covers the use of information and technology in achieving enterprise objectives. A primary benefit associated with this management objective is that desired value is delivered through a roadmap of incremental changes, which ensures that IT initiatives are aligned with enterprise strategy, prioritized based on value creation, and monitored for performance², p. 25. 2: COBIT 2019 Framework: Governance and Management Objectives

NEW QUESTION # 60

The number of focus areas describing a certain governance topic or issue that can be addressed by governance objectives is:

- A. determined by the size of the enterprise
- B. dependent on process maturity
- C. **virtually unlimited**

Answer: C

Explanation:

The number of focus areas describing a certain governance topic or issue that can be addressed by governance objectives is virtually unlimited. Focus areas are topics or issues that can be addressed by governance objectives, such as digital transformation, cybersecurity, privacy, etc. Focus areas can be defined by any stakeholder or group within or outside the enterprise, depending on their needs and interests. COBIT provides examples of some common focus areas, but they are not exhaustive or prescriptive.

NEW QUESTION # 61

Which of the following is the PRIMARY objective of implementing the process of managed innovation?

- A. Enhancing brand reputation
- B. **Improving customer experience**
- C. Avoiding technological obsolescence

Answer: B

Explanation:

The primary objective of implementing the process of managed innovation is to improve customer experience by identifying and realizing new opportunities for business value creation from information and technology.

This process involves scanning the external environment for emerging trends and technologies, engaging with stakeholders to understand their needs and expectations, evaluating and prioritizing innovative ideas, and executing and monitoring innovation initiatives. The process is based on the COBIT 2019 Design Guide¹, page 75. References: 1: COBIT 2019 Design Guide | Digital | English

NEW QUESTION # 62

Which function within the IT corporate structure is responsible for classifying information using an agreed- upon classification scheme for a new data collection system?

- A. Enterprise architecture
- B. **Information security**
- C. Information privacy
- D. IT governance

Answer: B

Explanation:
