Carefully devised by the professionals who have an extensive research of the AP-217 exam and its requirements, our AP-217 study braindumps are a real feast for all the candidates. And if you want to have an experience with our AP-217 learning guide, you can free download the demos on our website.

Salesforce Media Cloud Accredited Professional Sample Questions (Q34-Q39):

NEW QUESTION # 34

A CTO of a B2B advertising publishing company asked an Administrator who worked on making the Media Cloud application live, for their help in monitoring the real-time information on system performance and security.

Where can the Administrator find this information?

- A. system.salesforce.com
- B. monitor.salesforce.com
- C. media.salesforce.com
- D. trust.salesforce.com

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

trust.salesforce.com is the official Salesforce Trust site that provides real-time information on system status, performance, security incidents, and maintenance notifications. Administrators use this site to monitor org health and planned outages. Other options either do not exist or are not official Salesforce system status portals.

NEW QUESTION # 35

Which two objects should a Consultant ensure the user has write access to, for the Seller to create media plans for Digital products using the Advertising Sales Management (ASM) Create Media Plan OmniScript?

Choose 2 answers

- A. [Ad Quote Line](#)
- B. [Quotes](#)
- C. [Order](#)
- D. [Media Content Title](#)

Answer: A,B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

To create digital media plans via ASM OmniScript, users require write access to Quote and Ad Quote Line objects because these store the media plan and its line items. Order and Media Content Title are not directly involved in the creation step.

NEW QUESTION # 36

Users receive an "Apex CPU limit exceeded" error when running the Advertising Sales Management (ASM) flow OmniScript in a Salesforce Experience site. The OmniScript includes an Integration Procedure that contains multiple Data Raptors.

In which two areas within OmniStudio should a Consultant check to troubleshoot this issue?

Choose 2 answers

- A. [OmniScript Debugger](#)
- B. [Action Debugger](#)
- C. [OmniStudio Logs](#)
- D. [DataRaptor Configuration](#)

Answer: A,C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

To troubleshoot Apex CPU limit errors in OmniStudio, checking the OmniScript Debugger helps identify heavy operations in the flow. OmniStudio Logs provide detailed execution logs that can reveal inefficient or repeated processing. DataRaptor configurations could contribute to CPU use but are not directly traceable like logs and debugger tools. Action Debugger focuses on runtime user actions rather than script performance.

NEW QUESTION # 37

A company is planning to do an audit and needs a report to determine all the price list changes that have been configured in all streaming packages configured in Media Cloud.

Which set of objects should a Consultant access to generate such report?

- A. Product, Pricing Variable, Pricing Variable Binding
- **B. Product, Pricing Plan, Pricing Plan Step, Price List**
- C. Product, Price Book, Price Book Entry, Price List
- D. Product, Price List Entry, Pricing Element

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Pricing Plan, Pricing Plan Step, and Price List objects are part of the managed pricing framework in Media Cloud used to define and track pricing changes. These objects collectively reflect the price list changes over streaming packages. Product and Price Book objects are standard Salesforce objects but do not capture the pricing plan step details critical for auditing price changes.

NEW QUESTION # 38

A publisher wants to create a media plan that includes linear ads for a specific TV program.

Which object should a Consultant use to define this TV program in Media Cloud?

- A. Media Channel
- **B. Ad Space Specification**
- C. Ad Creative
- D. Media Plan Placement

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Ad Space Specification objects define inventory specifications such as TV programs for linear ads. Media Plan Placement represents the booking of ads into those specs. Media Channel is broader, and Ad Creative is related to creative assets, not media inventory.
