2026 HPE7-A08 Latest Dumps Free | Pass-Sure HPE7-A08 Latest Dumps Ebook: HPE Aruba Networking Switching Professional Exam

To make sure get the certification easily, our test engine simulates the atmosphere of the HPE7-A08 real exam and quickly grasp the knowledge points of the exam. Our HPE7-A08 vce dumps contain the latest exam pattern and learning materials, which will help you clear exam 100%. Please feel free to contact us if you have any problems about the pass rate or quality of HPE7-A08 Practice Test or updates.

HP HPE7-A08 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Create the Implementation Plan for the Wired Network Solution: This section measures the skills of Network Designers who focus on understanding the HPE switching portfolio and selecting the right products to match various customer requirements. Candidates must also demonstrate the ability to create detailed and effective implementation plans based on given designs or customer scenarios to ensure successful wired network deployments.

Topic 2	<ul style="list-style-type: none"> • Troubleshoot the Wired Network Solution: Candidates in this section, typically Network Support Specialists, are tested on identifying common wired network failures such as IP or VLAN mismatches, hardware issues, or port misconfigurations. It also involves analyzing performance problems caused by QoS or configuration errors and formulating effective remediation plans to restore correct network operations.
Topic 3	<ul style="list-style-type: none"> • Manage, Maintain, Optimize, and Monitor the Wired Network Solution: This part measures the skills of Network Operations Engineers in managing and maintaining wired network infrastructures. It includes developing configuration management strategies, interpreting network operational data to make informed decisions, and programmatically auditing or configuring Aruba Networking switches to optimize performance and reliability.
Topic 4	<ul style="list-style-type: none"> • Install and Configure the Wired Network Solution: This domain evaluates the abilities of Network Engineers to provision and configure HPE Aruba Networking switches both via Aruba Networking Central and command-line interface. It covers physical switch setup, Layer 2 and Layer 3 configuration and validation, multicast features, security implementations, quality of service (QoS) settings, and integration of Aruba Networking solutions into existing environments.

HPE Aruba Networking Switching Professional Exam Sample Questions (Q62-Q67):

NEW QUESTION # 62

Which CLI command displays RADIUS authentication logs?

- A. display radius logs
- B. show aaa radius
- C. show authentication radius
- D. show radius statistics

Answer: D

Explanation:

The show radius statistics command provides RADIUS request logs, allowing administrators to troubleshoot authentication failures and server communication issues.

NEW QUESTION # 63

An access layer AOS-CX has no OoS configuration on it. The switch receives an 802.1Q tagged VoIP frame on a port. The frame has an 802.1p value of 6. The IP header has a DSCP value of EF46 How will the switch forward this frame?

- A. Forwards It based on the 802.1p value in the frame
- B. Places it in the high priority queue
- C. Forwards It based on the DSCP value in the frame
- D. Forwards it as a normal frame

Answer: D

NEW QUESTION # 64

Refer to the exhibit for an HPE Aruba Networking CX 6300M VSF:

A lag is configured using ports 1/1/1 and 2/1/1. If Member ID 1 fails, what would happen to the lag?

- A. LACP would fallback to normal port
- B. LACP would fail on port 2/1/1
- C. LACP would remain active on port 2/1/1
- D. LACP would fallback to static lag

Answer: C

Explanation:

In a VSF, a LAG can span multiple members. If the member hosting one of the LAG links fails, the LAG stays up using the remaining active member link, so LACP continues operating on port 2/1/1.

NEW QUESTION # 65

Which actions should be taken before deploying a configuration change to Aruba switches?
(Select two.)

- A. Apply changes directly to all switches simultaneously
- B. Disable all redundant links before applying changes
- C. Verify the configuration in a test environment
- D. Perform a rollback plan test

Answer: C,D

NEW QUESTION # 66

You need to configure BGP on an HPE Aruba Networking switch using AS 65010. What is required when establishing peering with neighboring devices using eBGP AS 65100?

- A. Use of remote-as 65100
- B. Use next-hop-self
- C. Use of router-id for each neighbor
- D. Use remote-as 65010

Answer: A

Explanation:

When establishing an eBGP session, the remote-as command must match the AS number of the neighbor. Since the neighbor is in AS 65100, you must configure remote-as 65100 on the switch.

NEW QUESTION # 67

.....

The interface is made simple and convenient for the users. In the web-based practice exam, you will be given conceptual questions of the actual HP HPE7-A08 exam and gives you the results so that you can improve it at the end of every attempt. This sort of self-evaluation will help you know your exact weak points and you will improve a lot before the actual HPE7-A08 Exam. It is compatible with every browser. All operating systems also support the web-based practice exam.
