Pass Guaranteed 2026 Esri EAEP2201: Enterprise Administration Professional 2201 Marvelous Updated Dumps

Our company is a professional certification exam materials provider, we have occupied in the field for years, and therefore we have abundant experiences. In addition, EAEP2201 exam torrent is high quality and accuracy, for a professional team are collecting and researching the latest information for the exam. We also pass guarantee and money back guarantee for EAEP2201 Exam Materials, if you fail to pass the exam, we will give you full refund, and the money will be returned to your payment account. We have online and offline service, and if you have any questions for EAEP2201 exam braindumps, you can consult us.

Esri Enterprise Administration Professional 2201 Sample Questions (Q42-Q47):

NEW QUESTION # 42

A GIS analyst is running raster analysis in the ArcGIS Enterprise portal Map Viewer. The input data is an image layer, but the output of the raster analysis is a feature layer.

Which ArcGIS Server will host the output feature service?

- A. ArcGIS Raster Analytics Server site
- B. ArcGIS Image Hosting Server site
- **C. ArcGIS Hosting Server site**

Answer: C

Explanation:

In ArcGIS Enterprise, when performing raster analysis that results in feature data (e.g., vector outputs), the ArcGIS Hosting Server is responsible for hosting the resulting feature services. The Raster Analytics Server processes the raster data, and the output is then stored in the ArcGIS Data Store associated with the Hosting Server, which subsequently serves the feature layer.

The Image Hosting Server is primarily used for hosting large imagery datasets and does not handle feature services. The Raster Analytics Server conducts the analysis but does not host the output services.

Reference Source: ArcGIS Enterprise documentation on configuring and deploying raster analytics

NEW QUESTION # 43

An organization is considering deploying ArcGIS Enterprise. A needs assessment shows that all users need access to the following applications and capabilities:

- * ArcGIS Pro
- * ArcGIS StoryMaps
- * View, edit and create portal content items

Which user type should be assigned for these users?

- A. Creator
- B. Editor
- **C. GIS Professional**

Answer: C

Explanation:

To meet the listed requirements, the appropriate user type is GIS Professional. This user type includes:

- * Access to ArcGIS Pro (essential for desktop GIS work and analysis)
- * Full content management and sharing privileges in the portal
- * Use of premium apps like ArcGIS StoryMaps, Experience Builder, and others. The Creator user type provides access to web-based apps and content but does not include ArcGIS Pro without an additional add-on license. The Editor user type is limited to viewing and editing existing data and does not support app creation or use of ArcGIS Pro.

NEW QUESTION # 44

Users are reporting service timeouts and performance issues. The administrator notices that only the minimum number of instances are running during performance spikes. They want to monitor usage trends before adjusting instance settings.

Which action should the administrator perform?

- A. Change the log level to Debug in ArcGIS Server Manager
- B. Enable Windows Performance Monitor
- **C. Create a report of server statistics in ArcGIS Server Manager**
- D. Monitor Task Manager on each ArcGIS Server machine

Answer: C

Explanation:

To monitor usage patterns, including the number of requests and instances in use, ArcGIS Server provides statistics reports in Server Manager. These reports show peak and average service usage, helping administrators decide how to scale service instance counts.

From ArcGIS Server documentation:

"Use the ArcGIS Server Manager statistics reporting tool to monitor service usage trends over time. This data helps inform adjustments to instance counts."

- * Option A gives only raw system metrics, not service-specific insights.
- * Option B (Debug logs) causes overhead and isn't appropriate for monitoring trends.

NEW QUESTION # 45

An organization buys an additional 25 licenses for ArcGIS Pro and needs to assign the licenses to ArcGIS Enterprise users. Which license file is required to make those assignments?

- A. New license file with just the 25 ArcGIS Pro licenses
- B. Any existing license file used previously
- **C. An updated license file with 25 additional ArcGIS Pro licenses**
- D. An updated license file with only the 25 additional ArcGIS Pro licenses

Answer: C

Explanation:

When an organization purchases additional licenses (e.g., ArcGIS Pro), a new combined license file must be generated that includes both the existing entitlements and the newly purchased ones. This updated license file reflects the total number of licenses (original + new).

From the ArcGIS Enterprise Licensing documentation:

"When downloading a new license file from My Esri to assign additional licenses, the license file must reflect the complete set of user types and extensions required. You must generate a new license file that includes both the existing and new entitlements."

* Option A is incorrect because a license file with only the new licenses would overwrite the previous file.

* Option B is incorrect for the same reason—partial license files are not valid for merging with existing licenses.

* Option D does not accommodate the new licenses.

NEW QUESTION # 46

A client has an internet-accessible ArcGIS Enterprise deployment with the Web Adaptors in the DMZ, and the remaining components are on an internal network behind a firewall. A user on the internet must access a web map in that environment. Which ports must be open in the firewall between the DMZ and the internal network?

- A. 6443 and 7443
- B. 2443 and 6443
- **C. 80 and 443**
- D. 443 and 6443

Answer: C

NEW QUESTION # 47

.....

So you rest assured that with the Esri EAEP2201 actual questions you will not only ace the Esri EAEP2201 exam preparation but also boost confidence to perform well in the final Esri EAEP2201 test. With the Esri EAEP2201 pdf questions you can experience the type and pattern of the final EAEP2201 exam. In this way, you will be confident on the day of the Enterprise Administration Professional 2201 EAEP2201 Exam and solve all the Esri EAEP2201 exam questions. The Esri wants to make the EAEP2201 exam preparation simple and quick. To achieve this objective the Esri is offering the top-notch and top-rated EAEP2201 practice test questions in three user-friendly and compatible formats.
