Up to now, we have successfully issued three packages for you to choose. They are PDF version, online test engines and windows software of the PL-200 practice prep. The three packages can guarantee you to pass the exam for the first time. Though the content is the same with all versions of the PL-200 Study Materials, the displays are totally different. And every display has its advantage to cater to different people according to their interest and hobbies. You may choose the right version of our PL-200 exam questions.

The Microsoft PL-200 exam is designed for individuals who have a good understanding of the Power Platform and its capabilities. It is an ideal certification for professionals who work in roles such as functional consultants, business analysts, or solution architects. The PL-200 exam is an entry-level certification that helps individuals demonstrate their knowledge and skills in the Power Platform.

Microsoft PL-200 certification exam is designed to test the skills and knowledge of individuals who want to work as functional consultants in the Microsoft Power Platform. PL-200 exam is suitable for those who have experience in using the Power Platform to automate business processes, create custom applications, and analyze data. Microsoft Power Platform Functional Consultant certification is recognized by employers worldwide and demonstrates that the individual has the expertise to configure and manage various Power Platform solutions.

The Microsoft PL-200 Exam Tests candidates on their understanding of Power Platform components, including Power Apps, Power Automate, Power BI, and Power Virtual Agents. Candidates must also demonstrate their knowledge of data modeling, user experience design, security, and integration with other Microsoft solutions. Successful candidates will have a thorough understanding of the Power Platform's capabilities and be able to apply them to real-world scenarios. The Microsoft PL-200 certification is an excellent way for functional consultants to differentiate themselves in the job market and demonstrate their expertise in Microsoft Power Platform solutions.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ Explanation

Graphical user interface, text, application Description automatically generated

NEW QUESTION # 45

A company uses a model-driven app. The app uses a workflow to send email. Emails are sent to new customers that enter an email address for the first time in the app.

Customers report that they do not receive an email after entering an email address.

You need to troubleshoot the issue.

In which order should you perform the actions? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

□ Explanation:

NEW QUESTION # 46

A company uses a Microsoft Power Platform environment

The company plans to implement a Power Apps app. The application must meet the following requirements:

* Audit all user activity and only retain the audit logs for one year.

* Annually remove products that were created over a year ago.

You need to configure the automated processes.

What should you configure? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 47

You need to build a Power BI dashboard for sales managers to track opportunities.

When a new sale closes that is greater than \$1 million, a notification must pop up and an email must be sent to the leadership team.

You need to ensure the email is sent without editing the Microsoft Dataverse.

Which two elements should you configure? Each correct answer is part of the solution.

NOTE: Each correct selection is worth one point.

- A. a paginated report to save to Microsoft OneDrive
- B. a custom connector
- C. a calculated column in the Dataverse
- D. a Power Automate flow
- E. alerts in Power BI

Answer: D,E

Explanation:

In order to build a Power BI dashboard for sales managers to track opportunities and send notifications and emails when a new sale closes that is greater than \$1 million, you should configure:

A) alerts in Power BI: You can set up alerts in Power BI that will trigger when a specific condition is met. For example, you can set an alert to trigger when the value of a specific field in the "Opportunities" table exceeds \$1 million.

E) a Power Automate flow: To send an email to the leadership team when an alert is triggered, you can create a Power Automate flow that is triggered by the Power BI alert. The flow can then use the "Send an email" action to send an email to the leadership team with the necessary information about the sale that exceeded \$1 million.

NEW QUESTION # 48

.....

You will notice the above features in the Microsoft PL-200 Web-based format too. But the difference is that it is suitable for all operating systems: Macs, Linux, iOS, Androids, and Windows. There is no need to go through time-taking installations or agitating plugins to use this format. It will lead to your convenience while preparing for the Microsoft PL-200 Certification test. Above all, it operates on all browsers: Mozilla, Safari, Opera, Google Chrome, and Internet Explorer.
