

TRY Juniper JN0-336 DUMPS - SUCCESSFUL PLAN TO PASS THE EXAM

P.S. Free 2026 Juniper JN0-336 dumps are available on Google Drive shared by Prep4King: https://drive.google.com/open?id=16BymL0_9qtFD3Id8g9jvllJzCmhVNYo

We can assist you with learning by simplified information by our JN0-336 learning guide. At the same time, our specialists will update JN0-336 learning materials daily and continue to improve the materials. Therefore, you can use our JN0-336 exam questions faster and more efficiently, which means that you can save a lot of time to do more meaningful and valuable things. When you are learning our JN0-336 Learning Materials, you can find confidence in the process of learning materials and feel happy in learning. After about 20-30 hours, you can get your Juniper certificate.

With precious time passing away, many exam candidates are making progress with high speed and efficiency with the help of our JN0-336 study guide. You cannot lag behind and with our JN0-336 preparation materials, and your goals will be easier to fix. So stop idling away your precious time and begin your review with the help of our JN0-336 learning quiz as soon as possible, and you will pass the exam in the least time.

Reliable Latest JN0-336 Dumps Files | 100% Free JN0-336 Exam Question

Good news comes that our company has successfully launched the new version of the JN0-336 guide tests. Perhaps you are deeply bothered by preparing the exam; perhaps you have wanted to give it up. Now, you can totally feel relaxed with the assistance of our JN0-336 actual test. Our products are definitely more reliable and excellent than other exam tool. What is more, the passing rate of our study materials is the highest in the market. There are thousands of customers have passed their exam and get the related certification. After that, all of their JN0-336 Exam torrents were purchase on our website.

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q31-Q36):

NEW QUESTION # 31

You are asked to create an IPS-exempt rule base to eliminate false positives from happening.

Which two configuration parameters are available to exclude traffic from being examined? (Choose two.)

- A. source port
- B. destination port
- C. source IP address
- D. destination IP address

Answer: C,D

Explanation:

You can specify the source IP address or a range of IP addresses to exclude certain traffic originating from specific network

segments or devices. This is useful for whitelisting traffic from known, secure sources that are otherwise triggering false positives in the IPS system.

Similarly, you can specify the destination IP address or a range of addresses to exclude traffic destined for particular network hosts or segments. This helps in reducing false positives for traffic directed towards trusted internal resources or specific external services that are known to be safe.

NEW QUESTION # 32

Which two statements are correct about the fab interface in a chassis cluster? (Choose two.)

- A. In an active/active configuration, inter-chassis transit traffic is sent over the fab interface.
- B. The fab interface enables configuration synchronization.
- C. Real-time objects (RTOs) are exchanged on the fab interface to maintain session synchronization.
- D. Heartbeat signals sent on the fab interface monitor the health of the control plane link.

Answer: A,C

Explanation:

The fab interface is a fabric link that connects the two nodes in a chassis cluster. A chassis cluster is a high-availability feature that groups two identical SRX Series devices into a cluster that acts as a single device.

The fab interface has two functions:

Real-time objects (RTOs) are exchanged on the fab interface to maintain session synchronization: RTOs are data structures that store information about active sessions, such as source and destination IP addresses, ports, protocols, and security policies. RTOs are exchanged between the nodes on the fab interface to ensure that both nodes have the same session information and can take over the traffic in case of a failover.

In an active/active configuration, inter-chassis transit traffic is sent over the fab interface: In an active/active configuration, both nodes in a cluster can process traffic for different redundancy groups (RGs). RGs are collections of interfaces or services that fail over together from one node to another. If traffic needs to transit from one RG to another RG that is active on a different node, it is sent over the fab interface.

NEW QUESTION # 33

You are deploying a new SRX Series device and you need to log denied traffic.

In this scenario, which two policy parameters are required to accomplish this task? (Choose two.)

- A. deny
- B. count
- C. session-init
- D. session-close

Answer: A,D

NEW QUESTION # 34

Which two devices would you use for DDoS protection with Policy Enforcer? (Choose two.)

- A. vQFX
- B. MX
- C. vMX
- D. QFX

Answer: B,C

Explanation:

The MX and vMX devices can be used for DDoS protection with Policy Enforcer. Policy Enforcer is a Juniper Networks solution that provides real-time protection from DDoS attacks. It can be used to detect and block malicious traffic, and also provides granular control over user access and policy enforcement.

The MX and vMX devices are well-suited for use with Policy Enforcer due to their high-performance hardware and advanced security features.

NEW QUESTION # 35

You are troubleshooting unexpected issues on your JIMS server due to out of order event log timestamps. Which action should you take to solve this issue?

- A. Enable time synchronization on the client devices.
- B. Enable time synchronization on the JIMS server.
- C. Enable time synchronization on the SRX Series devices.
- **D. Enable time synchronization on the domain controllers.**

Answer: D

Explanation:

To solve the issue of out of order event log timestamps on your JIMS server, you should enable time synchronization on the domain controllers. JIMS (Juniper Identity Management Service) is a Windows service that collects user, device, and group information from Active Directory domains or syslog sources and provides it to SRX Series devices and CSO for identity-based security policies. JIMS relies on the timestamps of the event logs generated by the domain controllers to track user logins, logouts, and IP address changes. If the domain controllers have different or inaccurate clocks, the event logs may have out of order or incorrect timestamps, which can cause JIMS to miss or misinterpret some events and affect its accuracy and performance. Therefore, you should ensure that all the domain controllers in your network are synchronized with a reliable time source, such as an NTP server or a Windows Time service. NEW QUESTION # 36

.....

This cost-effective exam product is made as per the current content of the Juniper JN0-336 examination. Therefore, using Prep4King the actual Juniper JN0-336 dumps will guarantee your successful attempt at the JN0-336 Certification Exam. For the convenience of customers, we have designed JN0-336 pdf dumps, desktop Juniper JN0-336 practice exam software, and Juniper JN0-336 web-based practice test.

JN0-336 Exam Question: <https://www.prep4king.com/JN0-336-exam-prep-material.html>

Please rest assured that our Exam Collection JN0-336 PDF is valid and able to help most buyers clear exam, Juniper Latest JN0-336 Dumps Files In today's society, everyone wants to find a good job and gain a higher social status, If you happen to be one of them, our Security, Specialist (JNCIS-SEC) JN0-336 learning materials will greatly reduce your burden and improve your possibility of passing the exam, In addition to the comprehensive material, a few basic and important questions are highlighted and discussed in the JN0-336 Exam material file.

20-30 hours' preparation before the JN0-336 exam, Experience internal behavior firsthand, Please rest assured that our Exam Collection JN0-336 PDF is valid and able to help most buyers clear exam.

JN0-336 Testking Pdf - JN0-336 Updated Torrent & JN0-336 Cram Vce

In today's society, everyone wants to find JN0-336 a good job and gain a higher social status, If you happen to be one of them, our Security, Specialist (JNCIS-SEC) JN0-336 learning materials will greatly reduce your burden and improve your possibility of passing the exam.

In addition to the comprehensive material, a few basic and important questions are highlighted and discussed in the JN0-336 Exam material file, It has various self-learning and self-assessment features, those help users to get familiar with the actual Juniper JN0-336 exam.
