Peoplecert MSP Practitioner, 5th edition Exam 認定 MSP-Practitioner 試験問題 (Q114-Q119):

質問 # 114

Select the best option defined by following sentence: 'Action of carrying out the coordinated organization, direction and implementation of dossier of projects and transformation activities to achieve desired outcomes'

- A. Organizational Management
- B. Portfolio Management
- C. Project Management
- **D. Programme Management**

正解: D

解説:

Programme Management is defined as "the action of carrying out the coordinated organization, direction and implementation of a dossier of projects and transformation activities to achieve outcomes and realize benefits of strategic importance to business." This definition emphasizes the coordinated approach to managing multiple related projects and transformation activities together, rather than in isolation, to ensure strategic objectives are met and benefits are realized. It distinguishes programme management from project management, which focuses on individual projects, and portfolio management, which handles selection and prioritization rather than delivery.

質問 # 115

The programme is in the 'design the outcomes' process. The programme team is reviewing the programme brief and a revised version of the vision statement that has been prepared and validated in a workshop with key stakeholders. What action should the programme manager and BCM take FIRST?

- A. Analyse past programme benefit profiles in order to agree a new, standard template to be used by the programme team
- **B. Hold a workshop to confirm and document the increased customer numbers with call centre managers**
- C. Schedule the activities and resources to track the observable outcomes and realization of benefits
- D. Capture uncertain events that would affect one or more outcomes of benefit in the risk register

正解: B

解説:

Comprehensive and Detailed 200 to 250 words of Explanation From Exact Extract of project- programme-and-portfolio-management of 5th Edition MSP:

The 'Design the outcomes' process is where the high-level vision is translated into a detailed Target Operating Model (TOM) and a Benefit Framework. Once the vision is validated, the next logical step in the MSP transformational flow is to begin detailing the benefits that the new state will provide.

Option B is the correct answer because it focuses on quantifying the benefits-specifically the "increased customer numbers." Before scheduling resources (Option C) or refining risk registers (Option A), the Business Change Manager (BCM) and the Programme Manager must work with the business (the call centre managers) to define what success looks like in measurable terms. This involves creating Benefit Profiles. By holding a workshop to confirm these numbers, the BCM ensures that the benefits are realistic, owned by the business, and directly linked to the validated vision. This step is crucial for the Justification Theme, as it provides the evidence needed to build the detailed Business Case. In MSP 5th Edition, the

"benefits-led" nature of programmes means that defining the measurable improvements is a top priority once the desired future state (the vision) is understood. Only after these benefits are clearly identified and documented can the programme effectively plan the delivery of the capabilities required to achieve them.

質問 # 116

Which of the following is Not a core element of successful communication?

- A. Identifying correct people to communicate
- B. Message Clarity and consistency
- C. Feedback Collection system
- D. Stakeholder identification and analysis

正解: A

解説:

While identifying the correct people to communicate with is important, MSP does not list it as one of the four core elements of successful communication.

The MSP Practitioner outlines the four core elements as:

- a) Stakeholder identification and analysis
- b) Message Clarity and consistency
- c) Effective system of message delivery
- d) Feedback Collection system

These elements ensure messages are targeted, clear, consistently delivered, and that feedback is captured to improve communication.

Misidentifying core communication elements can weaken engagement efforts, so focusing on these pillars supports stronger communication outcomes throughout the programme lifecycle.

質問 # 117

MSP is best suited for which programme?

- A. Technically complex but with defined outputs
- B. Simple programme with defined outcomes and strong governance in place
- C. Programme for long term societal change
- D. Launching new products

正解: C

質問 # 118

In which document would you expect to find the levels of confidentiality to be applied in the programme?

- A. The Resource Management Strategy
- B. The Benefits Management Strategy
- C. The Information Management Strategy
- D. The Quality Management Strategy

正解: C
