## ACAMS Certified Cryptoasset Anti-Financial Crime Specialist Examination Sample Questions (Q96-Q101):

### NEW QUESTION # 96

Which business category below is considered to present the highest risk of money laundering?

- A. Registered hedge fund
- B. Pharmaceutical company
- C. Law firm
- D. Art dealer

**Answer: D**

Explanation:

Art dealers present a high money laundering risk due to the subjective valuation of art, ease of transferring assets, and the potential for using art as a vehicle to conceal illicit funds.

Registered hedge funds (A) and law firms (C) have AML obligations but are generally more regulated. Pharmaceutical companies (B) are less associated with high ML risk.

The DFSA AML and FATF typology papers specifically identify art dealing as a sector with heightened ML risk.

### NEW QUESTION # 97

Which type of wallet poses the highest AML risk?

- A. Custodial wallet
- B. Unhosted wallet
- C. Exchange hot wallet
- D. Multi-signature wallet

**Answer: B**

Explanation:

Unhosted wallets allow direct user control without third-party oversight, making them harder to monitor and more vulnerable to misuse.

### NEW QUESTION # 98

The "indirect exposure" concept in blockchain analytics means:

- A. Funds linked via intermediary addresses.
- B. Funds sent to OTC brokers.
- C. Funds directly linked to illicit addresses.
- D. Funds held in a cold wallet.

**Answer: A**

Explanation:

Indirect exposure refers to connections through one or more hops to illicit addresses. This requires robust transaction chain analysis to detect hidden ML/TF risk.

### NEW QUESTION # 99

Which type of cryptoasset is explicitly designed to maintain a stable value?

- A. Stablecoin
- B. Governance token
- C. Utility token
- D. Privacy coin

**Answer: A**

Explanation:

Stablecoins aim to maintain value stability by pegging to assets like fiat currency or commodities. Regulators stress monitoring stablecoin reserve transparency to prevent misuse for layering illicit funds.

## NEW QUESTION # 100

What is the intention of the Financial Action Task Force's (FATF's) Travel Rule?

- A. To slow down cryptoasset transactions to allow law enforcement to intervene
- B. To mitigate money laundering and terrorist financing (ML/TF) risk by increasing the ability to follow funds via different financial institutions
- C. To enhance customer due diligence (CDD) procedures to ensure high quality data

**Answer: B**

Explanation:

The FATF Travel Rule requires Virtual Asset Service Providers to share originator and beneficiary information for virtual asset transfers exceeding a certain threshold. Its purpose is to mitigate ML/TF risks by increasing transparency and enabling authorities to trace the movement of funds across institutions and jurisdictions.

It does not aim to slow transactions (B) or directly enhance CDD (A), although it supports the overall AML framework including CDD.

This rule is a cornerstone of FATF's efforts to regulate virtual asset transfers effectively and is adopted by DFSA and other regulators.

## NEW QUESTION # 101

.....

No matter where you are, we will ensure that you can use our CCAS guide quiz at any time. We have provided you with three versions for your choice: the PDF, Software and APP online. At home, you can use the Software. Outside, you can use the APP version of our CCAS Study Materials. If you like the aroma of paper, you can choose the PDF version. You can carry the printed material with you and write your own notes on it. If you want to know more about them, just free download the demos of our CCAS exam questions.
