NCM-MCI NCP-MCI-6.10 pdf braindumps & NCP-MCI-6.10 practice exam test

Our company can provide the anecdote for you--our NCP-MCI-6.10 study materials. Under the guidance of our NCP-MCI-6.10 exam practice, you can definitely pass the exam as well as getting the related certification with the minimum time and efforts. We would like to extend our sincere appreciation for you to browse our website, and we will never let you down. The advantages of our NCP-MCI-6.10 Guide materials are too many to count and you can free download the demos to have a check before purchase.

Nutanix Certified Professional - Multicloud Infrastructure (NCP-MCI v6.10) Sample Questions (Q72-Q77):

NEW QUESTION # 72

A consultant is configuring syslog monitoring and wants to receive CRITICAL logs from the Audit module. Which severity level setting should be configured to get the desired output?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

NEW QUESTION # 73

How can a VM or Volume Group (VG) be associated with a Storage Policy?

- A. Assign the Storage Policy directly on the VM or VG.
- B. Migrate the VM or VG to the Storage Container assigned to the Storage Policy.
- C. Assign the VM or VG to the same Category as the Storage Policy.
- D. Assign the VM or VG directly to the Storage Policy.

Answer: C

Explanation:

Storage Policies in Nutanix are applied through Categories, allowing policy-based automation and enforcement.

* Option D (Assign the VM or VG to the same Category as the Storage Policy) is correct:

* Nutanix applies Storage Policies based on VM Categories, enabling flexibility in policy enforcement.

* Option A is incorrect:

* Storage Policies are not directly assigned at the VM or VG level—they apply through Categories.

* Option B is incorrect:

* Policies must be assigned to Categories, not directly to individual VMs/VGs.

* Option C is incorrect:

* Migrating to a storage container does not automatically apply a Storage Policy.

NEW QUESTION # 74

An administrator wants to enable application discovery on a Nutanix cluster to monitor applications. A Prism Central instance is already configured with sufficient CPU and memory.

What other prerequisites must be met before enabling application discovery? (Choose two.)

- A. API key and key ID
- B. Sufficient Prism Central VM resources
- C. Internet connection
- D. Network controller is enabled

Answer: B,C

Explanation:

Application discovery in Prism Central requires sufficient Prism Central resources and an active internet connection to retrieve application signatures.

* Option A (Sufficient Prism Central VM resources) is correct:

* Prism Central needs adequate CPU and memory to process application signatures and discovery data.

* Option B (Internet connection) is correct:

* Application discovery depends on Nutanix's cloud database to recognize application patterns.

* Option C (API key and key ID) is incorrect:

- * API keys are not required for automatic application discovery.
- * Option D (Network controller enabled) is incorrect:
- * Application discovery does not depend on a network controller feature.

References:

- * Nutanix Prism Central Guide #Enabling and Using Application Discovery
- * Nutanix KB #Requirements for Application Discovery in Prism Central

NEW QUESTION # 75

Per organizational requirements, an administrator has uploaded a signed SSL certificate to Prism for Common Access Card (CAC) authentication.

Once the certificate has been uploaded successfully, the certificate appears to be valid but CAC authentication is not functional.

What is a potential cause of this problem?

- A. There is no Certificate Revocation List (CRL) configured.
- B. Signature Algorithm is incorrect.
- C. Online Certificate Status Protocol (OCSP) is not enabled.
- D. RSA key size is incorrect.

Answer: A

NEW QUESTION # 76

Refer to the Exhibit:

An administrator needs to create two virtual machines: VM4 and VM5 that leverage the memory over-commit feature.

Once VM4 is created and running, the administrator notices that it uses only 28GB of RAM.

What will be the maximum RAM that can be allocated to VM5 so that it can be powered on?

- A. 8GB
- B. 16GB
- C. 32GB
- D. 4GB

Answer: D

NEW QUESTION # 77

.....

It is well known that the best way to improve your competitive advantages in this modern world is to increase your soft power, such as graduation from a first-tier university, fruitful experience in a well-known international company, or even possession of some globally recognized NCP-MCI-6.10 certifications, which can totally help you highlight your resume and get a promotion in your workplace to a large extent. As a result, our NCP-MCI-6.10 Study Materials raise in response to the proper time and conditions while an increasing number of people are desperate to achieve success and become the elite.
