ITIL-4-DITS최신 업데이트 인증공부자료 & ITIL-4-DITS시험합격덤프

최신 ITIL 4 Strategic Leader ITIL-4-DITS 무료샘플문제 (Q29-Q34):

- A. The innovation is low cost
- B. The innovation is essential for the a organization to survive
- C. The innovation is low risk
- D. The innovation will deliver significant benefit for the organization

정답: D

설명:

The innovation will deliver significant benefit for the organization is a reason why an organization might choose to implement an innovation even though it does not meet its minimum requirement for "return on investment" (ROI). This means that the organization values the long-term or intangible benefits of the innovation more than the short-term or financial returns. For example, the innovation might enhance customer satisfaction, brand reputation, market share, or social impact. Reference: ITIL 4 Leader: Digital and IT Strategy, page 27-28

질문 # 30

Which parallel model is based on using the Income generated by an existing business model to fund a new digital business model until can fund itself?

- A. Concurrence
- B. Cannibalism
- **C. Erosion**
- D. synergism

정답: C

질문 # 31

Which parallel model is based on using the Income generated by an existing business model to fund a new digital business model until can fund itself?

- **A. synergism**
- B. Erosion
- C. Concurrence
- D. Cannibalism

정답: A

설명:

Synergism is a parallel model that is based on using the income generated by an existing business model to fund a new digital business model until it can fund itself. It is a way of balancing the risks and rewards of innovation and disruption by creating a synergy between the old and the new business models. 질문 # 32

An IT manager is creating a business case to justify the investment required to replace existing technology with new cloud services to support a digital transformation strategy.

What should be described in the section on opportunity cost?

- **A. The value that would be generated if the organization made a different investment**
- B. The estimated increase in revenue generated from sales of the new services
- C. The technology and resource costs of migrating to the cloud services
- D. The ongoing cost of maintaining and supporting the cloud services

정답: A

질문 # 33

An insurance company generates sales from its website, from agents in a call center, and from third parties working for other financial service organizations. The product is very popular and users are generally satisfied. The organization regularly collects and analysis data about service consumers, and this shows users have different levels of satisfaction, depending on how the product was sold.

What should the insurance company consider NEXT to help resolve the situation?

- A. Customer analytics
