C_BCWME_2504 Actual Exams - Reliable C_BCWME_2504 Exam Question

C_BCWME_2504 study materials represent the major knowledge points, therefore you can just focus your attention on the practicing. C_BCWME_2504 study guide is also high quality, and it will help you to pass the exam successfully. Besides, we have both online and offline chat service stuff, if you have any question about the C_BCWME_2504 Exam Dumps, please don’t hesitate to inquiry us. We have the professional knowledge, and we will give you the reply that can solve your problem.

SAP Certified Associate - Positioning WalkMe Sample Questions (Q14-Q19):

NEW QUESTION # 14

What measures does WalkMe take to enhance data security for enterprise customers? Note: There are 3 correct answers to this question.

- A. Integrating multi-factor authentication for added security layers
- B. Following international privacy regulations to ensure compliance
- C. Utilizing advanced encryption methods to protect sensitive data
- D. Modifying user environments for additional data privacy
- E. Offering localized data storage options based on regional requirements

Answer: B,C,E

NEW QUESTION # 15

Which market trend is most relevant to driving adoption for tools like WalkMe?

- A. Rising popularity of traditional employee training methods
- B. Global movement towards digital transformation
- C. Preference for local software providers
- D. Increasing investment in physical retail stores

Answer: B

Explanation:

The market trend most relevant to driving adoption for tools like WalkMe is:

- B. Global movement towards digital transformation
- Why It Matters

* The worldwide shift toward digital transformation is the primary catalyst making Digital Adoption Platforms (DAPs) essential-organizations must ensure their tools are not just implemented, but also fully adopted by users.

* WalkMe specifically addresses the "digital adoption gap" where companies invest heavily in digital tools but struggle to achieve actual usage-costing millions in productivity and ROI losses.

- Why the others aren't relevant

* A. Preference for local software providers - While regional tools play a role, the dominant trend is global digital transformation driving homogeneous adoption needs.

* C. Rising popularity of traditional employee training methods - Traditional training is declining; digital, in-app guidance is gaining momentum.

* D. Increasing investment in physical retail stores - This is unrelated to software adoption and digital change initiatives.

- Summary

* The dominant market force fueling WalkMe's growth and adoption is the global digital transformation movement-organizations need to bridge the gap between digital investment and actual user engagement.

Final Answer: B. Global movement towards digital transformation.

NEW QUESTION # 16

What is a primary benefit of WalkMe's Multi-Language feature for global enterprises?

- A. Allowing users to toggle between languages manually
- B. Delivering consistent user experiences across diverse regions
- C. Simplifying the deployment of WalkMe content across applications
- D. Automating compliance with international data privacy laws

Answer: B

NEW QUESTION # 17

What is included in WalkMe's embedded content provided with SAP applications?

- A. Basic guidance like help menus and tooltips

- B. Comprehensive analytics and insights
- C. Customizable digital adoption content
- D. The full suite of WalkMe features

Answer: A

Explanation:

The correct answer is:

C . Basic guidance like help menus and tooltips

Explanation

According to SAP's documentation, when WalkMe is embedded within SAP applications (such as SuccessFactors or S/4HANA), users are provided with contextual, in-app guidance features-including smart walkthroughs, tooltips, task lists, and on-demand help menus. These are considered "basic guidance" rather than the full breadth of WalkMe's platform capabilities.

Why the other options are incorrect

* A. The full suite of WalkMe features

Embedded WalkMe content delivers a subset focused on guidance-not the full product suite.

* B. Comprehensive analytics and insights

While analytics are available in the platform, they are not part of the embedded content. Those insights are part of the broader WalkMe offering outside the embedded scope.

* D. Customizable digital adoption content

Customized training and adoption flows are built and managed in the full WalkMe platform-not included in the out-of-the-box embedded offering.

NEW QUESTION # 18

What measures does WalkMe take to enhance data security for enterprise customers?Note: There are 3 correct answers to this question.

- A. Following international privacy regulations to ensure compliance
- B. Integrating multi-factor authentication for added security layers
- C. Utilizing advanced encryption methods to protect sensitive data
- D. Modifying user environments for additional data privacy
- E. Offering localized data storage options based on regional requirements

Answer: A,B,E

Explanation:

Here are the three correct measures WalkMe takes to enhance data security for enterprise customers, according to learning.sap.com and WalkMe official sources:

A. Integrating multi-factor authentication for added security layers

WalkMe supports two-factor authentication (2FA/MFA) via identity providers like Okta and Google Authenticator to secure admin and user accounts

B. Offering localized data storage options based on regional requirements They provide regional cloud residency/data residency, enabling customers to choose data storage locations (e.g., US, EU) to meet jurisdictional and regulatory needs

C. Following international privacy regulations to ensure compliance

WalkMe adheres to global privacy standards such as GDPR and CCPA, plus certifications like SOC 2, ISO 27001, and FedRAMP readiness

E. Utilizing advanced encryption methods to protect sensitive data

WalkMe ensures encryption both in transit and at rest, aligned with NIST and FISMA standards, and logical separation of customer data

Not correct:

* D. Modifying user environments for additional data privacy

This is not a measure WalkMe takes-they control their own platform and settings, not the user's local environment.

Summary:

The correct answers are A, B, C, and E. These measures highlight WalkMe's commitment to robust, enterprise-grade data security and compliance.
