The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q142-Q147):

NEW QUESTION # 142

Complete the following sentence. In the ADM documents which are under development and have not undergone any formal review and approval process are _____.

- A. Known as "Version 0.1"
- B. Invalid
- C. In between phases
- D. Called "draft"

Answer: D

Explanation:

In the ADM documents which are under development and have not undergone any formal review and approval process are called "draft". This indicates that they are subject to change and refinement as the architecture development progresses. Reference: The TOGAF Standard | The Open Group Website, Section 4.2.5 Architecture Deliverables.

NEW QUESTION # 143

Which of the following best summarizes the purpose of Enterprise Architecture?

- A. Taking major improvement decisions.
- **B. Guiding effective change.**
- C. Controlling the bigger changes.
- D. Governing the Stakeholders.

Answer: B

Explanation:

EA applies architecture principles and practices to analyze, design, plan, and implement enterprise analysis that supports digital transformation, IT growth, and the modernization of IT². EA also helps organizations improve the efficiency, timeliness, and reliability of business information, as well as the alignment, agility, and adaptability of the architecture to the changing needs and requirements³. Therefore, the best summary of the purpose of EA is to guide effective change.

NEW QUESTION # 144

Consider the following statement.

According to the TOGAF standard, a governed approach of a particular deliverable will ensure adherence to the principles, standards, and requirements of the existing or developing architectures.

Which deliverable does this refer to?

- A. The Statement of Architecture Work
- **B. An Architecture Contract**
- C. The Architecture Definition Document
- D. The Architecture Vision

Answer: B

Explanation:

According to the TOGAF Standard, 10th Edition, an architecture contract is "a formal agreement between a service provider and a service consumer that defines the mutual commitments and expectations for the delivery of an architecture" ¹. An architecture contract is a governed approach of a particular deliverable that will ensure adherence to the principles, standards, and requirements of the existing or developing architectures, as it specifies the roles, responsibilities, deliverables, quality criteria, and acceptance criteria for the architecture work ¹. The other options are not correct, as they are not governed approaches of a particular deliverable, but rather different types of deliverables within the architecture development process. An architecture vision is "a high-level, aspirational view of the target architecture" ¹. A statement of architecture work is "a document that defines the scope and approach that will be used to complete an architecture project"

¹. An architecture definition document is "a document that describes the baseline and target architectures for one or more domains"

¹. References: 1: TOGAF Standard, 10th Edition, Part I: Introduction, Chapter 3:

Definitions.

NEW QUESTION # 145

Complete the sentence A business scenario describes _____

- A. shortfalls between the Baseline and Target Architectures
- B. general rules and guidelines for the architecture being developed
- **C. business and technology environment in which those problems occur**
- D. business domain gaps such as cross-training requirements

Answer: C

Explanation:

A business scenario describes business and technology environment in which those problems occur. It provides a realistic context for identifying and addressing business problems and opportunities, as well as their impact on the enterprise's architecture. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.1 Business Scenarios.

NEW QUESTION # 146

Which of the following best describes the purpose of the Architecture Requirements Specification?

- A. It defines the scope and approach to complete an architecture project
- B. It contains an assessment of the current architecture requirements
- C. It is sent from the sponsor and triggers the start of an architecture development cycle
- D. It provides a set of statements that outline what a project must do to comply with the architecture

Answer: D

Explanation:

The Architecture Requirements Specification is one of the TOGAF deliverables that provides a set of quantitative statements that outline what an implementation project must do in order to comply with the architecture¹². It is a companion to the Architecture Definition Document, which provides a qualitative view of the solution and aims to communicate the intent of the architect. The Architecture Requirements Specification provides a quantitative view of the solution, stating measurable criteria that must be met during the implementation of the architecture³. It typically forms a major component of an implementation contract or contract for more detailed Architecture Definition⁴. References:
