

C_BCBDC_2505 Dumps - C_BCBDC_2505 Online Prüfung

Übrigens, Sie können die vollständige Version der Pass4Test C_BCBDC_2505 Prüfungsfragen aus dem Cloud-Speicher herunterladen: <https://drive.google.com/open?id=1eNTPn9fCxezFr3gTbISpUBakfCVBD8Ic>

Wir Pass4Test sind der beste Lieferant von SAP C_BCBDC_2505 Zertifizierungsprüfungen und bieten Ihnen auch echte Prüfungsfragen und Antworten. Die IT-Eliten von Pass4Test bieten Ihnen Hilfen, damit Sie C_BCBDC_2505 Zertifizierungsprüfung bestehen. Und wir Pass4Test beinhalten echte Fragen und Antworten in PDF-Versionen. Nach dem Kauf unserer C_BCBDC_2505 Schulungsunterlagen können Sie eine kostenlose Aktualisierung bekommen.

SAP C_BCBDC_2505 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• SAP Business Data Cloud: This section of the exam measures the skills of Data Analysts and covers core concepts of the SAP Business Data Cloud. Candidates are expected to understand its key components, integration mechanisms, and how it functions as a foundation for unified data management across SAP and non-SAP environments. The focus is on enabling data connectivity and providing governed access to data across the enterprise.
Thema 2	• SAP Analytics Cloud: This section of the exam measures the skills of Data Analysts and covers the use of SAP Analytics Cloud in data visualization, story building, and dashboard creation. Candidates should be familiar with its planning and predictive capabilities, along with how to utilize data insights to drive business decision-making. It also includes managing user access and collaborating through shared analytics assets.
Thema 3	• SAP Datasphere: This section of the exam measures the skills of Solution Consultants and covers a comprehensive understanding of SAP Datasphere. Candidates should demonstrate knowledge of data modeling, transformation, and harmonization using SAP Datasphere tools. It evaluates how well they can work with data layer structuring, semantic modeling, and integration to support real-time data access for various business applications.

C_BCBDC_2505 Online Prüfung - C_BCBDC_2505 Prüfungsaufgaben

Die SAP C_BCBDC_2505 (SAP Certified Associate - SAP Business Data Cloud) Schulungsunterlagen von Pass4Test sind den echten Prüfungen ähnlich. Durch die kurze Sonderausbildung können Sie schnell die Fachkenntnisse beherrschen und sich gut auf die SAP C_BCBDC_2505 (SAP Certified Associate - SAP Business Data Cloud) Prüfung vorbereiten. Wir versprechen, dass wir alles tun würden, um Ihnen beim Bestehen der SAP C_BCBDC_2505 Zertifizierungsprüfung helfen.

SAP Certified Associate - SAP Business Data Cloud C_BCBDC_2505 Prüfungsfragen mit Lösungen (Q97-Q102):

97. Frage

A logistics company aims to integrate operational data from SAP S/4HANA and enrich it with supplier metrics. They want to avoid replicating the data and maintain live updates. Which combination of features should be used?

There are 3 correct answers to this question.

Response:

- A. Data replication through CSV
- B. Remote Tables from SAP S/4HANA
- C. Role-based data access
- D. Business Builder for semantic modeling
- E. Manual KPI calculation in spreadsheets

Antwort: B,C,D

98. Frage

What is the main storage type of the object store in SAP Business Data Cloud?

- A. SAP BW/4HANA DataStore objects (advanced)
- B. SAP BW/4HANA InfoObjects
- C. SAP HANA data lake files
- D. SAP HANA extended tables

Antwort: C

Begründung:

The primary storage type for the object store within the SAP Business Data Cloud (BDC) architecture is SAP HANA data lake files. SAP BDC is designed to handle vast amounts of diverse data, including semi-structured and unstructured data, which is efficiently stored in a data lake. The SAP HANA data lake, specifically its file storage component, provides a highly scalable and cost-effective solution for retaining raw, historical, and detailed data. This contrasts with traditional relational databases (like SAP HANA extended tables) or data warehousing constructs (like BW/4HANA DataStore objects or InfoObjects), which are optimized for structured, aggregated data and specific query patterns. The object store's reliance on data lake files in BDC underscores its capability to manage enterprise-wide data regardless of its structure, making it suitable for a wide range of analytical workloads, including those involving machine learning and advanced analytics where raw data access is crucial.

99. Frage

What source system can you connect to with an SAP Analytics Cloud live connection that is provided by SAP BDC?

- A. SAP ERP
- B. SAP Business ByDesign Analytics
- C. SAP SuccessFactors
- D. SAP Datasphere

Antwort: D

Begründung:

Within the context of SAP Business Data Cloud (BDC), the primary and most central source system for an SAP Analytics Cloud (SAC) live connection is SAP Datasphere. SAP Datasphere serves as the comprehensive data foundation for SAP's business data fabric, integrating data from various SAP and non-SAP sources, and providing a harmonized, semantically rich data layer. SAP BDC is built upon and extends the capabilities of SAP Datasphere, making it the strategic hub for analytics and data management. Therefore, to ensure data consistency, governance, and real-time access to the integrated and harmonized business data managed within the BDC ecosystem, SAP Datasphere is the recommended and primary live connection source for SAC. While SAC can connect to other SAP systems like S/4HANA or BW, within the specific architecture of SAP BDC, SAP Datasphere plays the pivotal role as the integrated data platform.

100. Frage

Which integration scenarios of SAP BW with SAP Business Data Cloud are supported?

There are 2 correct answers to this question.

Response:

- A. Provisioning Data Products from SAP BW/4HANA On-Premise Infoproviders.
- B. Using SAP BW/4HANA Cloud, private edition queries as source for SAP Business Data Cloud Intelligent Applications.
- C. Onboarding SAP BW 7.5 Cloud, private edition queries as SAP Business Data Cloud Analytical Models.
- D. Extract data from legacy ECC systems through SAP Datasphere, SAP BW bridge.

Antwort: C,D

101. Frage

For which purposes is a database user required in SAP Datasphere? Note: There are 2 correct answers to this question.

- A. To provide a secure method for data exchange for 3rd party tools
- B. To directly access the SAP HANA Cloud database of SAP Datasphere
- C. To access all schemas in SAP Datasphere
- D. To create a graphical view in SAP Datasphere

Antwort: A,B

Begründung:

A database user in SAP Datasphere serves specific technical and security-related purposes that are distinct from typical modeling activities within the Data Builder. One primary purpose is to directly access the SAP HANA Cloud database of SAP Datasphere. For advanced scenarios, such as debugging, executing complex SQL scripts directly, or integrating with specialized tools that require direct database connectivity, a dedicated database user is essential. This access bypasses the higher-level Datasphere modeling environment and interacts directly with the underlying SAP HANA Cloud instance. Another crucial purpose is to provide a secure method for data exchange for 3rd party tools. When external applications, reporting tools, or data integration platforms need to consume data from or write data into SAP Datasphere's underlying database, a database user provides the necessary authentication and authorization mechanism. This ensures that data exchange is secure and controlled, adhering to defined permissions. Creating graphical views (B) is done via the Datasphere UI with a Datasphere user, and accessing all schemas (C) would typically require broad administrative privileges, which might be granted to specific database users, but the core purpose is controlled access, not carte blanche.

102. Frage

.....

Wenn Sie die Schulungsunterlagen zur SAP C_BCBDC_2505 Zertifizierungsprüfung von Pass4Test haben, geben wir Ihnen einen einjährigen kostenlosen Update-Service. Das heißt, Sie können immer neue Zertifizierungsmaterialien bekommen. Sobald das Prüfungsziel und unsere Lernmaterialien geändert werden, benachrichtigen wir Ihnen in der ersten Zeit. Wir kennen Ihre Bedürfnisse. Wir haben das Selbstbewusstsein, Ihnen zu helfen, die SAP C_BCBDC_2505 Zertifizierungsprüfung zu bestehen. Sie können sich unbesorgt auf die SAP C_BCBDC_2505 Prüfung vorbereiten und das Zertifikat erfolgreich bekommen.
